Report number: EC2026-0922

Meeting: Executive Committee

Meeting Date: 2026 October 05

NOTICE OF MOTION

RE: Release of Information - Bearspaw South Feeder Main Independent Review Panel Expenditures

Sponsoring Member(s) of Council: Councillor Wyness

WHEREAS transparent fiscal accountability requires that information on how public funds are distributed is readily available to the public.

WHEREAS The City of Calgary's procurement policies and procedures require that goods and services procurement notices must be publicly published if the contract value is $75,000 or more.

WHEREAS The City of Calgary currently publishes a compensation disclosure list that includes position titles, salary ranges and general information about pension and benefits. The disclosure currently aligns with Provincial legislation to disclose compensation above $130,000.

WHEREAS given the total cost to date of the Independent Review and related work is over $2.3 million, and that the majority of expenditures were paid to the Panel members, it is reasonable to request that if the individual compensations exceeded the thresholds identified in both the City's procurement contract and compensation disclosure policies, that this also be publicly disclosed.

THEREFORE BE IT RESOLVED that administration be directed to:

a. make public the total amounts invoice and paid to the Chair and Panel Members of the Bearspaw South Feeder Main Independent Review Panel.
b. make public all remaining expenditures comprising the total payments to date.
