

#### **Bicycle Facilities**

- Cycle Track
- On-Street Bikeway
- Shared Lane

#### Pedestrian Infrastructure

- Separated Sidewalk
  - Monolithic Sidewalk
  - Raised & Railed Sidewalk

## Placemaking

### Placemaking is inspired by a community's character, infrastructure and amenities to create public spaces that promote health, happiness and well being.

The project team has identified four areas that might be enhanced through programming, features or design.

Please tell us what type of plants, features or activities you envision in these areas.
