

# One-way traffic along 14 and 15 Avenue S.W.

**Begins: Mid-June 2018**

**Accommodates: Vehicles, transit, and cyclists**

**Legend:**

- Construction zone
- West bound vehicle access
- East bound vehicle access

**Why it works:**

- Maintains an east-west connection in the area.
- Keeps people who are driving in the area close to 17 Ave.
- Avoids construction, not the area.
- Keeps transit buses operating on and close to 17 Ave.
- Keeps most on-street parking. Temporary closure of some parking to make room for transit.
- Increases traffic calming in the area with the addition of cycle lanes and new signalized intersections or stop signs.
