

## **INFRASTRUCTURE PLANNING POSEIDONONLINE – INDUSTRY TRAINING SESSION – SAVE THE DATE**

The City of Calgary, Water Resources, Infrastructure Planning, is continuously improving to gain efficiencies and provide more processes electronically to increase efficiencies and provide better customer service to our industry stakeholders. We are pleased to announce e-submission to Water Resources via POSEIDONOnline. Tentatively scheduled for release on April 23, POSEIDONOnline will allow the applicant to electronically submit the following to Water:

- The Construction Drawing (CD) Checklist and differentiation between a CD Checklist Submission and a CD Pond Checklist Submission.
- Subdivision Stormwater Management Reports – New, Iterations, Final, Revised Final and Resubmit.
- DP/DSSP (Private Site) Stormwater Management Reports – New, Iterations, Final, Revised Final and Resubmit.

As this is breaking new ground, Infrastructure Planning will be holding an Industry Training Session. The purpose of the training session is to introduce you to the site, train applicants on how to navigate through it and how to complete an e-submission to Water, review our business rules with the site and with other processes, and answer your questions related to e-submission and this type of process improvement.

The training session is tentatively scheduled as follows (a confirmation of date and time will be forthcoming – therefore the “save the date”):

Monday, April 18, 2016

9:00 – 11:00 am

Water Centre, Bow Rivers Rooms

If you are interested in attending this session, please forward an email to Christy Hallowes at [Christy.Hallowes@calgary.ca](mailto:Christy.Hallowes@calgary.ca) with the Subject Line – Industry Training Session.
