Budget Overview

This budget adjustment for 2026 recognizes the financial pressures many Calgarians are facing. That's why we're focused on keeping taxes affordable while making thoughtful and responsible use of the budget to support our community.

We are balancing affordability for residents with the costs of providing services – maximizing value within The City's approved budget. In 2026, funding increases will focus on the four priority areas that Council and Calgarians have said are most important:

- Housing
- Public Safety
- Transit
- Infrastructure

We will do this within a 1.6 per cent increase in property tax revenue from existing properties for 2026.

In the recent period of high growth and inflation, The City's ongoing expenses have historically increased at a rate lower than the combined impact of population growth and inflation. This budget maintains a low tax increase during a time of economic pressure, enabling us to respond to growth in some key areas. At the same time, satisfaction levels among Calgarians have been trending downward since 2015 – a trend that aligns with a period in which the operating budget did not keep pace with population growth and inflation. This highlights the ongoing challenge of meeting service expectations in a rapidly growing and increasingly complex city.

Due to rounding, numbers presented throughout this document may not add up precisely to the totals provided and percentages may not precisely reflect the absolute values. Throughout the document, dollar values are presented in millions unless stated otherwise.

Operating and Capital Budgets

Increased revenue in 2026 will come from a combination of increased taxes and fees. In addition, The City continues to align its budgeted revenue to actual revenues meaning that investment income and property tax revenue from growth will fund increased expenses in 2026.

Ongoing expenditures, mainly those related to salaries and procurement of goods and services, will grow at a stable pace, reflecting the commitment to fund Council priority areas primarily led by Community Services, Operational Services and Calgary Police departments.

One-time expenditures are planned to decrease next year as some of the grants associated with the Downtown Calgary Development Incentive Program are expected to be paid out in 2025. Remaining funds will be carried forward to 2026.

The net change in The City's reserves continues to be positive, enhancing The City's capacity to respond to unplanned events.

Operating Budget (\$ millions)	2023	2024	2025	2026	Increase in 2026	Notes
Revenue						
Property Tax including Levies	2,181	2,338	2,467	2,551	3%	Note 1
Sales of Good and Services	1,301	1,297	1,362	1,432	5%	Note 2

Expenditures						
<i>Base</i>	<i>3,755</i>	<i>3,987</i>	<i>4,254</i>	<i>4,496</i>	<i>6%</i>	
<i>One-Time</i>	<i>55</i>	<i>68</i>	<i>305</i>	<i>122</i>	<i>(60%)</i>	Note 3
Total Expenditures Net of Reserve Activity	3,810	4,055	4,559	4,608	1%	
Net Reserve Activity	555	540	356	498	40%	Note 4
Total Expenditures	4,365	4,595	4,916	5,116	4%	
Net Operating Budget	-	-	-	-		

The capital budgets for 2025 and 2026 are \$2.7 billion and \$3.7 billion respectively. The increase will help deliver major infrastructure such as the Event Centre and Green Line, upgrades to existing water and wastewater treatment plants, new buses and community shuttle buses and additional housing supported by the Housing Accelerator Fund. Capital budgets for 2027+ reflect expenditures planned for 2027-2032.

Capital Budget (\$ millions)	<i>Actual</i> 2023	<i>Actual</i> 2024	2025	2026	2027+
Pay As You Go	116	122	148	231	76
Grants	462	685	845	976	2,840
Reserves & Other	640	911	823	1,102	1,922
Debt	186	163	749	1,135	1,782
Developer & Other Contributions	57	49	119	225	619
Total Capital Budget	1,461	1,930	2,685	3,668	7,240

Note 1 Further detail on property tax revenue can be found on page 26.

Note 2 Further detail on sales of goods and services can be found on page 29, including water utility rates and waste & recycling charges.

Note 3 Includes the Downtown Calgary Development Incentive Program budget which is required to be held in the current year to sign funding agreements for conversion applications.

Note 4 Includes corporate contributions to reserves funding capital programs and projects as well as business unit specific contributions primarily from Water Services, Real Estate and Mobility business units. Includes Council-directed override of *Council Reserves Policy* to redirect \$50 million of ongoing investment income towards ongoing operating expenditures instead of reserves.

Consolidated Budget

The consolidated financial statements of The City are prepared in accordance with Canadian Public Sector Accounting Standards (PSAS), and reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund and reserve fund of The City. The consolidated financial statements include all organizations that are controlled by The City, referred to as Related Authorities, and The City's government business enterprise, ENMAX Corporation.

The City prepares budgets on a cash basis to include capital additions, debt transactions and transfers and to exclude depreciation. Adjustments then must be made annually to present The City's budget on an accrual basis, consistent with the annual financial statement presentation.

A Consolidated Budget Summary has been prepared below to present The City's annual budget summary on a financial statement basis, increasing accountability, transparency and the overall usefulness of The City's 2026 Budget.

Figures presented in this table for 2023 and 2024 correspond to The City's Annual Financial Report. For the years 2025 and 2026, they represent estimated figures as at October 1, 2025.

Consolidated Budget (\$ millions)	<i>Budget</i> 2023	<i>Budget</i> 2024	<i>Budget</i> 2025	<i>Budget</i> 2026	Notes
Revenues					
Operating per budget	4,365	4,595	4,916	5,116	
Operating - earnings from ENMAX, related authorities, intercompany and others	159	197	202	178	Note 1
Revenues per Annual Report	4,524	4,792	5,118	5,294	
Other Contributions and Transfers					
Capital per budget	2,783	2,092	2,685	3,668	Note 2
Capital - related authorities, intercompany and others	225	178	191	216	Note 1
PSAS Reconciliation - Debt	(663)	(499)	(785)	(1,171)	Note 3
PSAS Reconciliation - Reserves	(1,192)	(779)	(1,008)	(1,369)	Note 3
Other Contributions and Transfers per Annual Report	1,154	992	1,083	1,344	
Expenditures					
Operating per budget	3,810	4,055	4,559	4,618	
Capital per budget	2,783	2,092	2,685	3,668	Note 2
Related authorities	373	271	279	285	Note 1
Intercompany eliminations	(178)	(151)	(161)	(169)	Note 1
PSAS Reconciliation - Amortization	(153)	(155)	(154)	(159)	
PSAS Reconciliation - Capital Additions	(2,458)	(1,581)	(2,148)	(2,935)	
PSAS Reconciliation - Debt	(53)	(46)	(48)	(45)	Note 3
Expenditures per Annual Report	4,124	4,483	5,012	5,263	
Annual Surplus per Financial Statement Basis	1,553	1,301	1,188	1,375	Note 4

Note 1 Budget figures for ENMAX earnings, related authorities and intercompany eliminations are estimates for 2025 and 2026.

Note 2 Capital budget for revenue and expenditures varies annually due to the timing and delivery of projects and funding available.

Note 3 Contributions/withdrawals from reserve and debt changes year-to-year due to the timing of debt issuance and repayment and timing of when capital project funding is needed.

Note 4 Revenues are higher than expenditures on a financial statement basis due to reconciling adjustments made for amortization, capital additions, and debt and reserve transactions. The **Annual Surplus per Financial Statement Basis** reflects the PSAS reporting requirements and does not imply any projected budgeted variance. Municipalities are required to have a balanced budget whereby projected expenditures are equal to projected funding.

Keeping Municipal Government Affordable

The City has focused on the affordability of city services over the past decade. This focus has occurred in an environment where the city is growing quickly, and inflation has been higher than typical.

Sources: Population from Calgary and Region Population Projections 2025-2030, January 2025 Update and inflation from 2025 Fall Forecast Tables, City of Calgary, Corporate Economics. Expenditures data based on actuals and approved budget.

By 2026, the gap between what expenditures would have been, had they kept pace with population and inflation since 2015, is expected to reach approximately \$1.1 billion. The slower spending growth has allowed us to keep taxes and user fees low, but the effects of budgetary discipline have likely been reflected in Calgarians’ satisfaction with City services.

Sources: 2015 to 2025 Fall and Spring Surveys of Calgarians. Question: “On a scale of 1 to 10 where 1 is not at all satisfied and 10 is very satisfied, how satisfied are you with the overall level and quality of services and programs provided by The City of Calgary?” Per cent satisfied answering 7-10 on the 10-point scale. Per cent dissatisfied answering 1-4 on the 10-point scale.

Budget Highlights

The demand for both operating and capital spending to maintain services continues to outpace available funding. At the same time, results from the Spring and Fall Surveys of Calgarians show that residents expect high-quality services to be maintained.

To balance the affordability of taxes with Calgarians’ priorities, we have increased budgets in some priority areas by using the property tax dollars previously approved by Council and relying more on existing funding sources.

Administration recommends allocating capital funding capacity for 2026 to meet high priority needs, including maintenance and replacement, housing and community development, and capital cost escalations.

In total, The City’s budget for 2026 includes \$4.6 billion in day-to-day spending and \$3.7 billion in capital. Included in those totals are new budget increases in priority areas amounting to \$162.7 million in one-time operating, \$61.6 million in ongoing operating and \$289.6 million in capital.

2026 adjustments in priority areas (\$ millions)	Ongoing Operating	One-Time Operating	Capital
Housing	2.1	43.3	60.2
Public Safety	20.5	51.9	22.0
Transit	21.5	25.0	29.8
Infrastructure	17.2	6.8	176.7
Risk Mitigation and Other	0.2	35.8	1.0
Total	61.6	162.7	289.6

Identifying Financial Capacity for Priorities

Budget increases in priority areas are being proposed without going beyond the property tax increase approved by Council by relying more on existing funding sources. This will allow The City to allocate funding to these priorities, while balancing the affordability of Calgarians' property taxes.

Funding for one-time operating and capital comes primarily from the Fiscal Stability Reserve and the projected positive year-end variance for 2025. Funding for ongoing operating expenses comes from higher-than-budgeted growth in property taxes from development and redevelopment, ENMAX dividend and investment income, as well as savings from corporate contingencies that were used to manage and mitigate risk related to unforeseen circumstances.

2026 enabling adjustments (\$ millions)	Ongoing Operating	One-time Operating	Capital	Notes
Growth Property Tax	14.6	-	-	
ENMAX Dividend	6.0	-	-	
Investment Income	7.5	-	-	
Corporate Contingencies	29.5	-	-	
Fiscal Stability Reserve	-	61.3	39.2	Note 1
2025 Projected Positive Year-End Variance	-	101.4	108.6	
Reserve for Future Capital and Lifecycle Maintenance and Upgrade Merged	-	-	35.6	
Corporate grants	-	-	17.2	
Off-site Levies	-	-	24.0	
Community Investment Reserve	-	-	65.0	
Transit fare increase	4.0	-	-	
Total	61.6	162.7	289.6	

Note 1 Existing and proposed Fiscal Stability Reserve commitments bring the balance to 9.2% of tax supported net expenditures in 2025, forecast to decrease to 8.1% in 2026 based on use of reserves for one-time funding.

Housing

In 2026, The City will inject new funding for the downtown office conversion program, supporting office conversion projects and securing funding for the conversion of the Barron Building in particular. We will also provide additional support to implement the *Home is Here Housing Strategy* including \$26.2 million in 2026 for a new 260-unit affordable housing project in Southview to be completed by 2028.

An additional \$10 million in capital has been allocated to support growth infrastructure across the city. This investment, combined with a small increase in the ongoing operating budget for Calgary Transit to address greater service demands, will facilitate housing capacity in future years. Overall, eight growth applications were approved this year which will facilitate the build out of over 9,100 homes over the next 15 years. Services in these communities, and other actively developing communities, will require capital expenditures and ongoing operating budget increases in the future.

In the first half of 2025, Administration received Council direction to consider funding the required infrastructure for two Growth Applications (“West View” (IP2025-0336) and “Glacier A North” (IP2025-0337)). Council approved funding for “Glacier A North”, and the Growth Application is now approved. Funding to support West View will be considered as part of the 2027-2030 business plans and budgets.

Since 2022, close to \$200 million has been invested in affordable housing programs that include the Rundle, Bridgeland and Mount Pleasant affordable housing projects and support partners to build housing for Indigenous and equity-deserving populations. Calgary leads the country in housing starts and we believe there is sufficient land supply to accommodate growth of a similar number of units in the next couple of years.

2026 adjustments in housing (\$ millions)	Ongoing Operating	One-Time Operating	Capital
Barron Building Residential Conversion Grant Program	-	7.5	-
Downtown Non-Market Office Conversion	-	10.0	-
Downtown Office Conversion Program	-	25.0	-
Facilitating City Growth	0.1	-	10.0
Glacier A Emergency Response Station	-	-	24.0
Intermunicipal Initiatives (Foothills Annexation)	-	0.8	-
Southview Affordable Housing	-	-	26.2
Supporting Delivery of the Home is Here Strategy	2.0	-	-
Housing Total	2.1	48.3	60.2

Public Safety

The City will grow the network of daytime resource centres from two to five, and ensure individuals at risk and experiencing vulnerabilities have access to outreach services across downtown. Doing this will ensure that more people are getting the help they need and will increase safety in public spaces. At the same time sustainable funding will be committed towards Community Court, ensuring a compassionate approach where people charged with bylaw infractions can be connected with community programs as an alternative to fines or other punitive sanctions. Budget increases are also required to shore up both our 9-1-1 operations and disaster preparedness & response. The City will also improve pedestrian safety on roadways around schools and playgrounds. There is an additional \$9.6 million in capital funding for improvements to intersection and mobility safety.

To maintain support for the Calgary Police Service in the face of provincial restrictions on photo radar site deployment, temporary funding of \$28 million from reserves will help offset a shortfall in fine revenue. A \$5.5 million ongoing budget increase will help sustain Calgary Police Service operations, ensuring that the service is able to fulfill its obligations to employees, support employee health and wellness, respond to privacy and disclosure requests in a timely fashion, and manage the police vehicle fleet. Finally, The City will fund police reserves that are used to maintain police vehicles and helicopters. All the above is in addition to a \$8.2 million increase in 2026 that was originally approved in the *2023-2026 Service Plans and Budgets* and subsequent adjustments in 2023 and 2024. There is an additional \$10.2 million in capital funding to address the capital maintenance needs for roofs at two police facilities and vehicle lifecycle planning.

The Calgary Fire Department will see an increase of \$21 million in ongoing funding in 2026 reflecting previous direction and an increase approved during budget deliberations meaning that, since 2023, the ongoing budget for the Calgary Fire Department has increased by over 40 per cent. There is an additional \$2.2 million in capital funding for fire engine purchase. Over the past three years, \$114 million has been invested in new fire stations and heavy fleet for the Calgary Fire Department, Next Generation 9-1-1 infrastructure, and a training facility, fleet vehicles and equipment for Calgary Police Services.

2026 adjustments in public safety (\$ millions)	Ongoing Operating	One-Time Operating	Capital
Boosting Calgary's Emergency Response Capacity	1.3	-	-
Community Court - Expansion	-	2.7	-
Community Court - Sustainment	2.2	-	-
Dermot Baldwin Way Cleaning Program	-	0.2	-
Fire Staffing Increases and Fire Engine Purchase	6.5	-	2.2
Intersection Safety Improvements (Rectangular Rapid Flash Beacons)	-	-	2.0
Police - Employee Benefit Shortfall	3.8	-	-
Police - Fine Revenue Budget Shortfall due to Provincial Automated Traffic Enforcement Restrictions	-	28.0	-
Police - Funding for 2025 Reserve Deficit (Fleet and Helicopter)	-	5.7	-
Police - Improving resourcing for privacy and disclosure	1.1	-	-
Police - Return-to-Work Programs and Fleet Resources	0.6	-	-
Police - Roof Replacements	-	-	4.6
Police - Vehicle Replacements	-	-	5.6
Public Washroom Attendant Program	-	1.0	-
Road Marking Improvement	-	1.0	-
Safer Mobility Program	-	2.0	-
Strengthening 9-1-1 for Public Safety	1.8	-	-
Supporting Vulnerable Calgarians with Day Spaces and Outreach	3.3	2.4	-
Transit Security Improvements	-	9.0	-
Vision Zero - Mobility Safety Improvements	-	-	7.6
Public Safety Total	20.5	51.9	22.0

Transit

The City will increase ongoing funding for the implementation of the *RouteAhead* strategy meaning more frequency of service for Calgarians where it's needed most: the busiest routes on the network. Temporary funding from reserves will ensure that the Low-Income Transit Pass is fully supported in 2026.

For 2026, proposed capital spending increases totaling over \$29.8 million span across various transit assets, including advancing bus procurement, bus and Light Rail Vehicle (LRV) refurbishments, lifecycle maintenance for Transit buildings and infrastructure, and improved safety at high-traffic crossings. These expenditures are critical for ensuring service reliability and maintaining service levels.

Since 2023, over \$440 million has been invested in LRV and bus procurement and \$89 million in design work for MAX Green, Airport Transit Connection and the Blue Line extension.

Transit has seen significant spending increases since 2023 including funding to make transit free for everyone under 12 and under and a 30 per cent increase in uniformed personnel to increase safety on transit.

2026 adjustments in transit (\$ millions)	Ongoing Operating	One-Time Operating	Capital
Advance Bus Procurement	-	-	11.3
Bus Refurbishments	-	-	3.0
Funding the Low-Income Transit Pass Program	-	25.0	-
Increasing Transit Frequency on Key Routes	14.0	-	-
Light Rail Vehicle Refurbishments	-	-	1.5
Maintenance and Repair of the CTrain Electrical (Traction Power) Systems.	1.5	-	-
Transit Building Lifecycle Asset Management	-	-	7.0
Transit Light Rail Transit Lifecycle Asset Management	-	-	5.0
Transit Network Improvements	6.0	-	-
Transit Rail System Lifecycle	-	-	2.0
Transit Total	21.5	25.0	29.8

Infrastructure

We continue to make funding commitments significant to maintenance and renewal, address cost escalations to ensure in-flight projects and projects going to tender can proceed, and enable housing and community development.

Most of The City's infrastructure is in good condition and serves residents well, but our infrastructure is aging and the condition of The City's assets continues to deteriorate overall. While Asset managers monitor asset performance and condition closely to identify and immediately address conditions and situations that could pose a threat to public or employee safety, investing in our assets to ensure they remain safe and in good condition helps Calgary remain a liveable and well-maintained city – now and for future generations. Increases are proposed across many assets including facilities, intersection improvements, parks, pavement, Plus 15s, streetlights, and transit infrastructure. There are cases in which certain facilities like the Greyhound Building and Block 40 have been returned to The City from other organizations, in these cases, keeping the facilities safe and secure requires an additional \$4M in one-time funding.

\$1.1 billion in water infrastructure expenditures is planned for 2026. Upgrades to existing water and wastewater treatment plants, as well as the design of a new water treatment plant will increase capacity to support the needs of a growing city. In addition, funding for Penbrooke and Trans Canada Sanitary Trunk Upgrades and the Bearspaw South Feedermain will strengthen our ability to provide reliable services to new and existing customers. Progress on major capital projects like the Green Line and the Event Centre continues to be made.

The City is investing \$96.7 million to advance recreation spaces for connection, sport and play. This funding accelerates the delivery of the Northeast Athletic Complex to better serve equity-deserving communities and advances other community-focused GamePLAN priorities. This investment will also support the design of the West District YMCA and Library.

In response to Council's direction on securing maintenance funding for infrastructure (EC2025-0727), \$17.2 million of ongoing operating funding and \$6.8 million of one-time operating funding has been identified to be contributed to the Reserve for Future Capital and Lifecycle Maintenance and Upgrade Merged to help address the infrastructure maintenance funding gap.

2026 adjustments in infrastructure (\$ millions)	Ongoing Operating	One-Time Operating	Capital
Advancing Recreation Spaces	-	-	96.7
Capital Cost Escalations	-	-	15.0
Capital Intersection Safety Improvements	-	-	13.0
Facilities Asset Sustainment Program	-	-	14.0
Improvements to National accessArts Centre	-	-	0.3
Operating Costs for Facilities Returned to the City	-	4.0	-
Park Infrastructure Lifecycle	-	-	4.0
Parks and Playgrounds Amenities Program	-	-	3.0
Pavement Rehabilitation	-	-	24.0
Plus 15 Maintenance	-	-	2.0
Pre-Engineering Studies	-	-	0.5
Streetlight - Upgrade Maintenance	-	-	4.2
Sustainable Funding for Infrastructure	17.2	2.8	-
Infrastructure Total	17.2	6.8	176.7

Mitigating Operating Risk and Other

In addition to spending in high priority areas, additional spending has been allocated to meet other pressing needs. Increased spending is required to mitigate cybersecurity risks, address issues raised by changes in provincial legislation, increase the accessibility of programs for low-income Calgarians, pilot an industrial development incentive and increase funding to the civic partners operating grant program. Software licensing costs are also increasing, and while \$16.4 million of the one-time operating cost will be funded by a relinquishment of the existing software capital budget, an additional \$24.6 million is required to maintain The City's operations.

2026 adjustments in other (\$ millions)	Ongoing Operating	One-Time Operating	Capital
Civic Partners Operating Grant Expansion	-	0.8	-
Cyber Security Capacity Enhancement	0.7	-	-
Funding for City Insurance Needs	1.0	-	-
Historical Beltline YWCA Investment	-	-	1.0
Implementing Provincial Legislative Changes to Elections	0.5	-	-
Improving Access to Services for Low-Income Calgarians	1.8	-	-

Sources of Expenditure Pressure

There are a variety of pressures contributing to the recommended \$224.3 million in combined one-time and ongoing operating adjustments and \$289.6 million in capital adjustments. Many are due to the increasing costs of serving a growing population and increasing service levels in priority areas. Others are due to new provincial government requirements or funding changes, or increased costs in an area of shared or supportive responsibility in partnership with another order of government.

Budget pressures (\$ millions)	Ongoing Operating	One-Time Operating	Capital
Meeting new provincial government requirements	0.5	0.4	-
Funding changes resulting from provincial decisions	-	28.0	-
Increased costs to shared provincial responsibilities	3.3	27.4	-
Other budget pressures	57.8	106.9	289.6
Total	61.6	162.7	289.6

A total of \$0.9 million in operating adjustments are recommended because of new provincial requirements for municipalities. Changes to the Local Authorities Election Act (Municipal Affairs Statutes Amendment Act, 2025 and Election Statutes Amendment Act, 2025) will introduce an additional \$0.5 million in ongoing operating costs. Changing provincial government requirements for intermunicipal planning (Intermunicipal Collaboration Frameworks and Intermunicipal Development Plans) will introduce an additional \$0.4 million in one-time costs.

\$28.0 million in operating adjustments are recommended to ensure continuity of policing services in the face of a fine revenue budget shortfall due to provincially imposed limits on photo-radar sites. While this reduction in revenue has been covered from reserves in 2026 a more sustainable solution will be needed in future years.

A further \$30.7 million in operating adjustments are recommended to support the growing number of Calgarians accessing income support programs like the Low-Income Transit Pass (\$25 million one-time), which has grown in cost without additional funding contributions from the provincial government. These adjustments will also expand the network of daytime resources centres for vulnerable populations (\$2.4 million one-time and \$3.3 million ongoing).

In all, operating adjustments proposed due to provincial decisions imposing new requirements on municipalities represent \$28.9 million in additional costs: 13 per cent of the total proposed operating adjustments and equivalent to a 1.2 per cent property tax increase.

Including the increased municipal costs in areas of responsibility shared with the provincial government, this total increases to \$59.6 million in additional costs: 27 per cent of the total proposed operating adjustments and equivalent to a 2.4 per cent property tax increase.

Additional budget required for (\$ millions)	Ongoing Operating	One-Time Operating	Capital	Pressure
New Requirements for Intermunicipal Development	-	0.4	-	New
Implementing Provincial Legislative Changes to Elections	0.5	-	-	New
Police - Fine Revenue Budget Shortfall due to Provincial Automated Traffic Enforcement Restrictions	-	28.0	-	Change
Funding the Low-Income Transit Pass Program	-	25.0	-	Shared
Supporting Vulnerable Calgarians with Day Spaces and Outreach	3.3	2.4	-	Shared
Total	3.8	55.8	-	

Benchmarking The City of Calgary

The City of Calgary is an affordable municipal government

Calgary has lower residential property taxes per person (\$844) than comparable larger municipalities in Canada. The City of Calgary provides its set of services for less money than other municipalities facing a similar context.

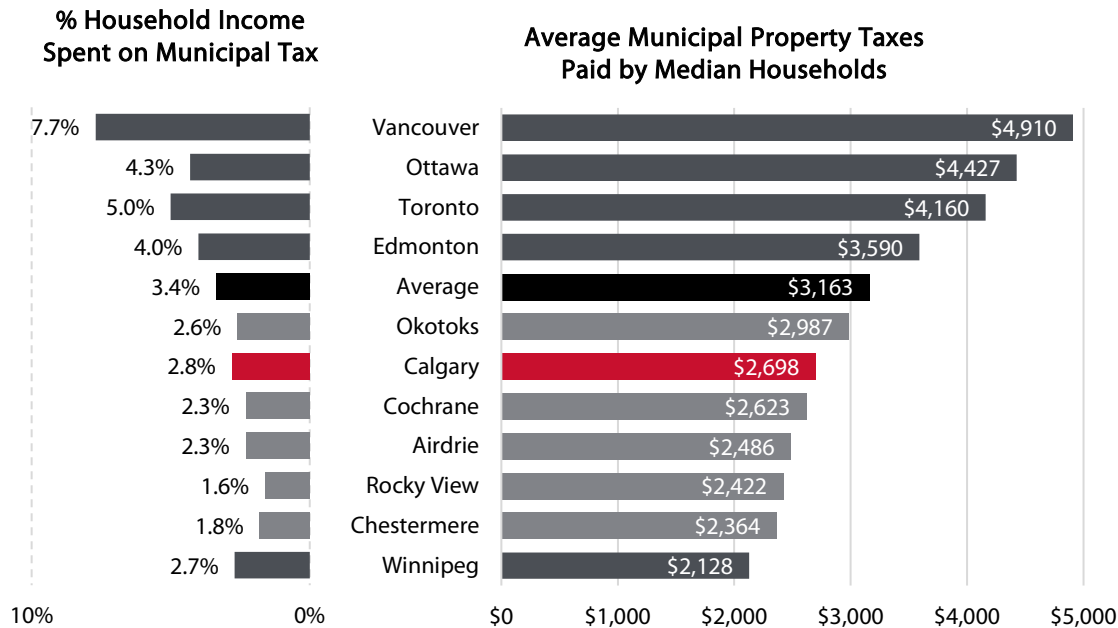

Sources: Municipalities' 2025 property tax bylaws; Statistics Canada 2024 population estimates for census subdivisions.

Compared to neighbouring municipalities in the Calgary region, per capita residential property taxes are similar, ranging from \$787 in Airdrie to \$965 in Okotoks. However, municipalities in the region tend to see much less non-residential property tax revenue per person, except for Rocky View County. Calgary provides a broader set of services than neighbouring communities and, as a city of over 1.5 million people, faces the complex needs typical of a large municipality.

Sources: Municipalities' 2025 property tax bylaws; Statistics Canada 2024 population estimates for census subdivisions.

Property taxes as a share of median family income offer a meaningful measure of affordability, as they reflect the actual tax paid by a median household in relation to their income. On this metric, Calgary consistently ranks among the most affordable large cities in Canada, demonstrating strong value for the level of service provided.

Sources: Municipalities' property tax bylaws (2025 median assessed values), Statistics Canada median total income of households (2020).

The fees paid by users of water and waste and recycling services in Calgary fall close to the average among large municipalities. Charges for water, wastewater (sewer) and stormwater (drainage) remain comparable, despite some municipalities funding drainage services from property taxes. For waste and recycling services (garbage and other fees), Calgary's charges in 2023 were already comparatively low, before the 2025 reduction in blue cart charges.

Sources: 2023 Residential Property Taxes and Utility Charges Survey. Table 13 Average Monthly Utility Charges for a Representative Bungalow / Two-Storey House in 2023. Ottawa calculated for 2024 from Water bylaw 2019-74 and Solid Waste Services bylaw 2024-453. 2023 is the most recent version of the annual *Residential Property Taxes and Utility Charges Survey*.

The City of Calgary is a responsible steward of public resources

Not all governments are growing at the same rate. The chart below shows The City of Calgary's operating expenditures between 2015-2026 have grown more slowly at 46 per cent than those of The Government of Alberta at 55 per cent.

Source: Alberta Inflation and Population: Statistics Canada. Alberta Expenditure Growth: Government of Alberta Fiscal Plan (25-28) Schedule 25 Historical Fiscal Summary. Calgary Expenditure Growth: City of Calgary Budget.

Calgary's spending has been increasing at a slower rate than most other larger Canadian municipalities and Calgary's operating expenditures per person are below average.

Note: Vancouver includes Metro Vancouver and Translink. Edmonton excludes EPCOR.

Sources: Consolidated Statement of Operations from annual reports for Calgary and benchmark municipalities.

Calgary uses fewer full-time equivalents (FTE) than other major municipalities in Canada. While this is indicative of efficient operations, the lack of resources may also impact staff negatively as they try to deliver a similar set of services with fewer people than other municipalities.

Sources: Population and full-time equivalents for most municipalities are found in their respective annual reports. Ottawa’s data is from documents on the City website. City of Vancouver’s FTE data is from the 2025 Budget and Five-Year Financial Plan. Translink FTEs are from their Accountability Report. Note: Vancouver includes Metro Vancouver and TransLink. Edmonton excludes EPCOR.

Municipalities in Canadian government

In Canada, the Federal government collects about 40 per cent of all government revenues, the provinces collect about 50 per cent and the more than 4,500 municipal governments across the country collect the remaining 10 per cent.

When it comes to expenditures, the Federal government’s services represent 28 per cent of spending in Alberta, the province represents 56 per cent of spending and municipalities make up 16 per cent.

Key Assumptions

Forecasts for 2026 show a slower rate of increase in the two largest external factors affecting the City’s costs: population growth and inflation. Combined population growth and inflation will remain strong, totaling 5.8 per cent in 2025 and 4.3 per cent in 2026. So, while the overall trend over the last decade is that operating expenditures have been below the combined effects of population and inflation, The City’s operating expenditures will increase faster than population inflation this year. These expenditures will be funded by a modest tax increase and greater reliance on existing revenue sources, primarily investment income.

	<i>Actual</i> 2023	<i>Actual</i> 2024	<i>Forecast</i> 2025	<i>Forecast</i> 2026
Population (millions)	1.422	1.510	1.563	1.597
Change (%)	5.5%	6.2%	3.5%	2.2%
Consumer Price Index Inflation (%)	3.8%	3.4%	2.2%	2.1%
Combined Population Growth & Inflation	9.5%	9.8%	5.8%	4.3%
Housing Starts (thousands)	16.7	20.2	23.0	17.1

Sources: Consumer Price Index (CPI) and Housing Starts, City of Calgary, 2025 Fall Forecast Tables, and; Population, Calgary and Region Population Projections 2025-2030, January 2025 Update.

Key Financial Metrics

The total number of full-time equivalents needed for City operations has increased and reflects the need to service Calgary’s growing population. The number of full-time equivalents per 1,000 Calgarians has remained around 12.

The uncommitted balance of the Fiscal Stability Reserve is expected to decrease, moving closer to The City’s minimum reserve balance (5 per cent) expressed as a percentage of tax-supported gross operating expenditures.

Long Term Financial Metrics	2023	2024	2025	2026
Full Time Equivalents (FTEs)	17,256	17,645	18,620	19,225
FTEs per 1,000 Calgarians	12.1	11.7	11.9	12.04
Property Tax as a per cent of Operating Revenue	50%	51%	49%	50%
Fiscal Stability Reserve (FSR) Uncommitted Balance (\$M)	\$396.7	\$512.3	\$396.6	\$349.2
FSR Uncommitted Balance as % of Operating Spending	10.2%	12.6%	9.2%	8.1%
Credit Rating (S&P)	AA+	AA+	AA+	AA+
Long Term Debt (\$M)	\$2,700	\$2,687	\$2,835	\$3,177
Long Term Debt per Capita (\$)	\$1,897	\$1,780	\$1,814	\$1,990

Sources: Full-Time Equivalents, Property Tax and Fiscal Stability Reserve balance reflect proposed budget. Fiscal Stability Reserve commitments are reflected as they are approved and therefore new commitments proposed for approval appear in 2025. Calgary and Region Population Projections 2025-2030, January 2025 Update.

Debt is used for capital funding of key infrastructure such as water infrastructure. The forecast of outstanding debt uses historical borrowing trends and future capital expenditure expectations, net of debt principal repayment. The overall level of indebtedness remains manageable and far below the Council limits for total debt and debt servicing, which are based on The City’s total revenue. The chart below illustrates the profile of total debt outstanding, including both long term and short-term debt compared to the Council limit for total debt.

Self-supported debt is primarily funded through user fees and levies. Self-supported debt including utilities debt is growing in recent years resulting from additional infrastructure requirements. Local improvement debt is considered self-supported, with principal and interest payment funded by local improvement levies that are collected from the property owners.

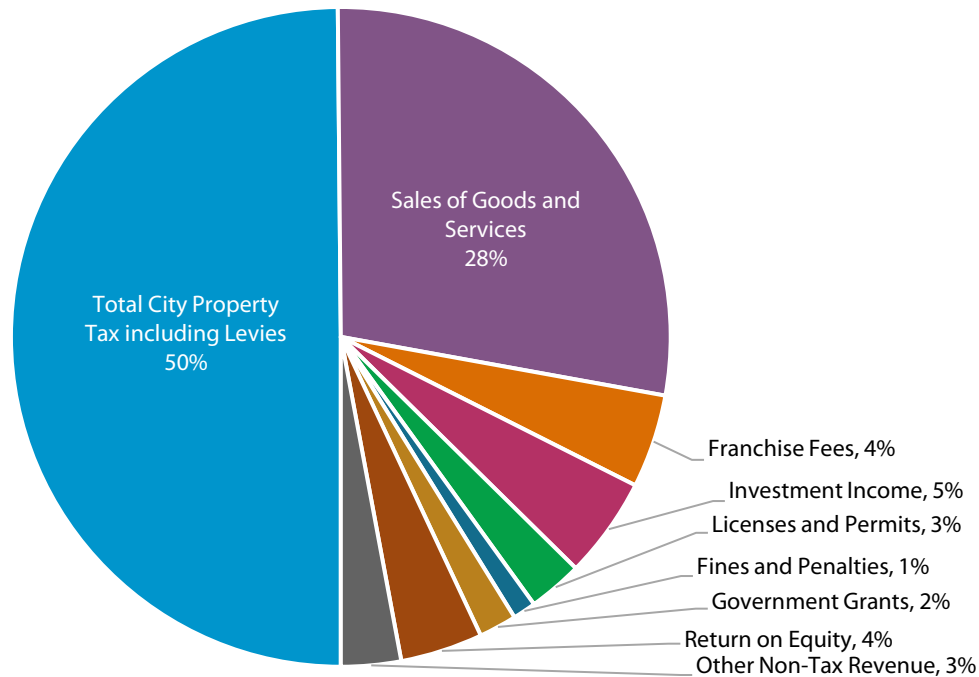

Tax-supported debt is repaid using tax revenue. Approval of new tax supported debt over the last 10-years has been primarily limited to major transit projects, in particular the Stoney Transit and Green Line LRT projects. Existing tax supported debt continues to decline. However, additional debt will be issued in future budget cycles to support the Green Line LRT project. The current and future tax revenues used to repay any indebtedness for the Green Line LRT project have been previously approved.

Self-sufficient tax-supported debt is primarily borrowed for the Calgary Municipal Land Corporation (CMLC), with the interest and principal payments funded by revenues from the Rivers District Community Revitalization Levy and land sales.

Operating Budget

Operating Revenue

Per cent of total revenue in 2026, excluding reserves

Operating Revenue (\$ millions)	2023	2024	2025	2026	2025 to 2026 Change		Notes
					Increase/ (Decrease)	Per cent	
Total City Property Tax including Levies	2,181	2,338	2,467	2,551	84	3%	Note 1

Reserve Withdrawal	202	223	519	391	(128)	(25%)	

- Note 1 Total budgeted property tax revenue includes the impact of tax increases on existing properties and tax growth from developing and redeveloping properties, as well as local improvement levies and community revitalization levies.
- Note 2 Sales of goods and services is primarily revenue from the water utility (16.5 per cent of total revenue) and waste & recycling (3.7 per cent of total revenue).
- Note 3 ENMAX dividend and contributions from self-supported water utilities.

Risks to Revenue

The property tax, The City's primary revenue source, is a strong and stable source of revenue. There is a low risk of declining revenue or The City's inability to sustain current revenue funding models. This risk stems from (1) the consumption of user fee funded services in line with expected revenues; (2) the overall appetite for tax increases to sustain services. The City actively monitors sources of revenue and has reserves in place to manage these risks. In addition, The City maintains the flexibility to adjust service levels in line with funding availability.

Property Tax

Property tax is the most flexible of the City's revenue sources and accounts for approximately 50 per cent of The City's revenues, excluding the impact of reserves. Property tax is levied based on the assessed market value of all taxable properties.

Components of Property Tax Revenue

Tax revenue has increased in each year of the last 4 years with additional tax revenue from city growth being higher than expected. Revenue from property taxes is planned to increase 3.5 per cent or \$85 million in 2026, with a 1.6 per cent increase in property tax revenue from existing properties (\$41 million) and \$44 million from growth through development and redevelopment.

2023-2026 Property Tax Revenue

(\$ millions)	2023	2024	2025	2026	Notes
Property Tax: Base	2,027	2,147	2,306	2,435	
Property Tax: City Growth	46	41	50	44	
Property Tax: Increase on Existing Properties	74	118	79	41	Note 1
Total Property Tax Revenue	2,147	2,306	2,435	2,520	Note 2
Bylaw Adjustments	24	13	8	3	Note 3
Total Property Tax Revenue with Bylaw Adjustments	2,171	2,139	2,443	2,523	

Note 1 In 2026, the \$41 million reflects a 1.6 per cent increase in property tax revenue from existing properties.

Note 2 Property tax revenue approved by Council in the *2023-2026 Service Plans and Budgets*, as amended. Increase in 2026 includes both a 1.6 per cent increase in property tax revenue from existing properties and physical property growth of 1.8 per cent.

Note 3 Bylaw adjustments, such as grants in lieu of taxes, tax loss provision and taxes for Rocky View and Foothills, results in the Total Property Tax Revenue with Bylaw Adjustments.

Historical Municipal Property Tax Revenues

Total property tax revenue has increased to manage increased cost pressure driven by inflation and population growth. Since 2019, the effect of decisions to rebalance tax revenue coming from residential and non-residential property taxpayers has led to relatively less revenue coming from non-residential property taxpayers.

Residential and Non-Residential Tax Revenues

Sources: City of Calgary Property Tax Bylaws 2015-2025; approved budget for 2026.

Notes: Non-residential taxes reflect both property tax and business tax, which were fully consolidated by 2019.

Distribution of Property Taxes

Tax Share

The transfer of tax responsibility from non-residential property taxpayers to residential property taxpayers by 1 per cent in each of 2024 and 2025 resulted in lower property tax increases for non-residential property taxpayers and higher increases for residential property taxpayers. During the 2026 budget deliberations, Council cancelled the planned 1 per cent tax shift for 2026 and approved a tax shift of 0.25 per cent per year for eight years, starting in 2027. This action is a step toward creating a more business friendly tax environment in Calgary while balancing the affordability concerns of residential taxpayers. Council's direction to account for differential physical growth between residential and non-residential properties accounts for a 0.4 per cent change in tax share. This means residential taxpayers will bear 54.9 per cent of the total property tax responsibility in 2026 and non-residential taxpayers 45.1 per cent.

2023-2026 Property Tax Revenue (\$ millions)	<i>Budget</i> 2023	<i>Budget</i> 2024	<i>Budget</i> 2025	<i>Budget</i> 2026
Residential	1,116	1,227	1,328	1,383
Non-Residential	1,030	1,080	1,107	1,137
Total Property Tax Revenue	2,147	2,306	2,435	2,520

The total amount of property tax budgeted from existing residential and non-residential properties will increase by 1.6 per cent.

The tax increase for non-residential properties will be around 1.6 per cent and the increase for residential properties will also be around 1.6 per cent. This is due to the cancellation of the 1 per cent shift of tax responsibility from non-residential properties to residential properties for 2026.

2023-2026 Property Tax Increases (per cent)	2023	2024	2025	2026
Residential	3.6%	7.2%	5.3%	1.6%
Non-Residential	3.6%	3.0%	1.3%	1.6%
Total Property Tax Increase	3.6%	5.2%	3.4%	1.6%

There are two parts to a property tax bill: The City's municipal portion and the Provincial portion. The tax increases presented above represent the municipal portion only. The provincial property tax requisition will determine the increase to the provincial portion that is required to be collected on behalf of the provincial government. The provincial requisition will be released next February as part of the Government of Alberta's budget. In the Government of Alberta's Budget 2025, the provincial requisition for The City of Calgary increased by 17.5 per cent, with further increases expected in coming years.

Tax Rate Ratio

The expected tax rate ratio, 4.60:1, continues to be a concern as historically, strong residential property markets have led to lower residential tax rates especially compared to weaker non-residential markets resulting in increasing tax rates. This combination has pushed the tax rate ratio towards the provincially mandated ceiling of 5:1. This ratio signifies that on the

same assessed value, non-residential properties pay 4.60 times more tax than residential properties. Council decision-making over the last two years has prevented the ratio from reaching the ceiling.

Notes: For comparison, this chart includes non-residential to residential tax rate ratios in national comparator cities in 2025. Cities in other provinces may be subject to different legislative constraints. The 5:1 legislated maximum applies to Alberta municipalities.

Tax Changes by Property Type

Individual properties' taxes will be impacted differently by the budget decisions and the annual independent assessment process. All property types would expect an increase based on the additional tax revenue budgeted from existing properties in 2026.

For individual taxpayers, the change in property taxes will also depend on how a property's 2026 assessed value compares to the typical assessment change for that property type. Properties whose assessment grows less than the average change can expect a smaller than average tax increase, while properties with higher than typical assessment changes will see larger than average tax increases.

Market changes vary across property types. On average, residential assessment values have increased about 1%, driven by a balanced single-residential market, as well as strong gains in multi-residential properties. Non-residential values also rose by about 2% overall, with continued strength in the industrial and retail sectors. While the office market remains mixed, there are early signs of recovery in some areas.

Annual Municipal Property Tax	2023	2024	2025	2026
Median Single Residential Home	\$2,404	\$2,564	\$2,698	\$2,752
<i>% change from previous year</i>	<i>+5.6%</i>	<i>+6.7%</i>	<i>+5.2%</i>	<i>+2.0%</i>
Median Single Residential Condo	\$1,105	\$1,240	\$1,390	\$1,356
<i>% change from previous year</i>	<i>+0.1%</i>	<i>+12.3%</i>	<i>+12.1%</i>	<i>-2.4%</i>
Median Multi-Residential Property	\$6,151	\$6,347	\$7,044	\$8,092
<i>% change from previous year</i>	<i>+0.8%</i>	<i>+3.2%</i>	<i>+11.0%</i>	<i>+14.9%</i>
Typical Non-Residential Property	\$94,010	\$96,772	\$98,007	\$99,694
<i>% change from previous year</i>	<i>+5.1%</i>	<i>+2.9%</i>	<i>+1.3%</i>	<i>+1.7%</i>

Note: Tax impacts in the above table use preliminary assessment base estimates as of October 2025. The assessment roll will not be finalized until 2025 December 31 for the purposes of 2026 property taxes. These impacts are for typical properties of each type, but each individual property will experience different market impacts.

Utility Rates and User Fees

Fees paid directly by users of services like water, waste collection, public transit and recreation account for approximately 26 per cent of The City’s revenues.

Fees at a Glance

Utility rate increases in 2026 will result in an estimated \$4.32 increase (3.8 per cent) in the water, wastewater and stormwater component of a typical residential utility bill.

Due to the implementation of Extended Producer Responsibility in Alberta, Calgarians receiving black, blue and green cart collection service saw a reduction in their overall fees beginning April 1st, 2025. This results in a reduction in monthly charges of \$6.16 (-24 per cent) in 2025. In 2026, cart fees will increase by 97 cents (5 per cent) in 2026.

Typical increases for public transit fares (adult single fare) and recreation fees (adult single leisure centre admission) will be 5.3 per cent in 2026. Overall, fees for permits (e.g., building and development) and licences (e.g., business licences) have not increased throughout the budget cycle, though specific individual fees may have changed.

Typical Fee Increases

(per cent increase in each year)	2023	2024	2025	2026	Notes
Water Services					
Impact based on typical residential usage	-	-	3.7%	3.8%	Note 1
Waste & Recycling					
Increase in black, blue & green cart fees	2.7%	2.8%	-24.0%	5.0%	Note 2
Calgary Transit					
Increase on adult single fare	-	2.8%	2.6%	5.3%	
Recreation					
Increase on adult leisure centre admission	2.6%	2.6%	2.6%	2.6%	
Permits					
Increases in permitting fees	-	-	-	-	
Licenses					
Increases in business licence fees	-	-	-	-	

Note 1 Impact of rate increases on a typical residential customer using 19 m3 of water per month (approximately 90 bathtubs full).

Note 2 Change in monthly bill for cart programs reflects the transition to Extended Producer Responsibility in 2025 April.

Fee Adjustments

Most user fees planned for 2026 are already approved by Council through earlier approvals of the 2023-2026 business plans and budgets. Fees that are proposed to change from that plan have been highlighted in the operating budget for each business unit. Fee schedule amendments requiring approval are contained in the Budget Implementation section.

Water Utility Rates

All costs associated with the water utility are recovered through user rates, levies, fees and sources other than the municipal tax base.

Utility revenues make up 20 per cent of operating budget revenues and fund all utility operating and capital budget expenses, including debt repayment, as well as return on equity payments to The City. The budget reflects the costs of meeting regulatory requirements and supporting the infrastructure needs of a growing city.

Key drivers influencing utility rates include operating requirements, levies and growth decisions, infrastructure risks, investment requirements and regional servicing requirements.

Utility rate changes	2023	2024	2025	2026
Water	-	-	6.2%	6.2%
Wastewater	2.5%	2.5%	4.5%	4.5%
Stormwater	-	-	4.3%	4.3%

Overall rate changes can impact customer classes differently and vary based on individual usage. In 2026, a residential property using the typical 19 m3 of water per month (approximately 90 bathtubs full), would see an increase of \$4.32 on their monthly bill (3.8 per cent).

Impacts to typical residential water bill	2023	2024	2025	2026
Monthly charges based on typical usage	\$111.03	\$110.81	\$114.89	\$119.21
Dollar change from previous year	-\$0.83	-\$0.22	\$4.08	\$4.32
Per cent change from previous year	-0.7%	-0.2%	3.7%	3.8%

2023-2026 Utility Revenue Budget (\$ millions)	2023	2024	2025	2026
Water	303	312	330	365
Wastewater	455	472	496	517
Stormwater	82	85	94	102
Total Utility Revenue	840	868	920	984

Historical Utility Revenue Collected and Forecast

Waste & Recycling Program Charges

Waste and recycling services are largely supported by user fee revenues, with some property tax support directed to programs with broad public benefit. Fees collected for waste & recycling services make up 3.5 per cent of total City operating revenues.

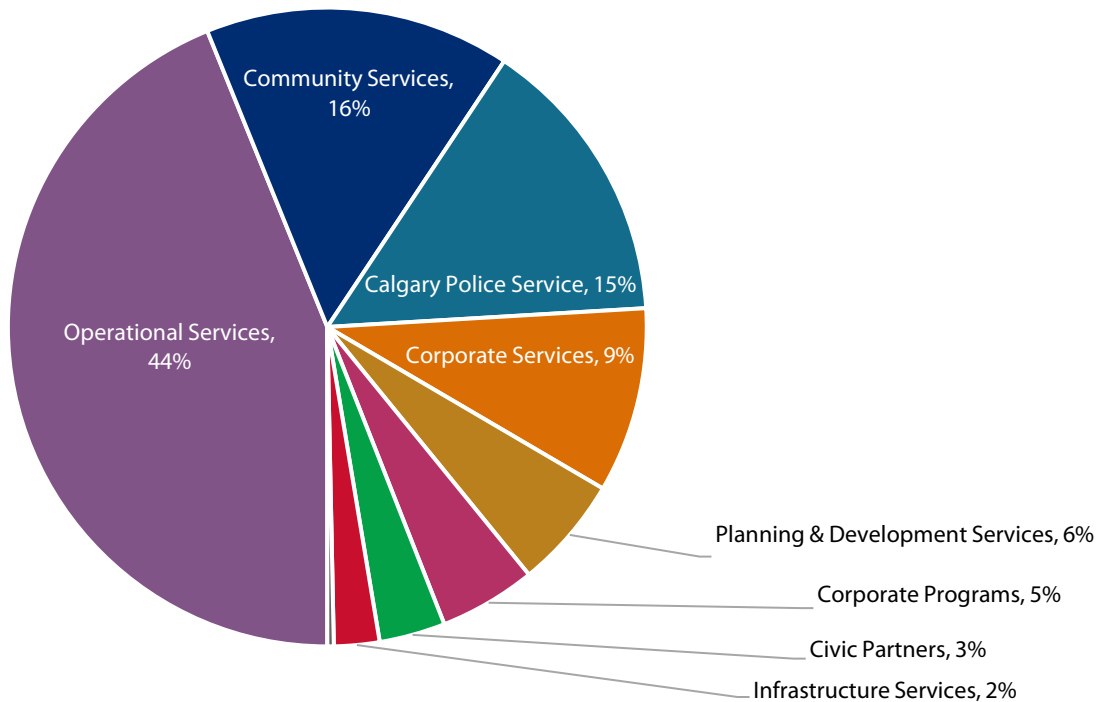

Monthly cart program charges (\$)	2023	2024	2025	2026	Notes
Black cart	6.99	7.13	7.39	7.71	
Green cart	9.03	9.41	9.98	10.63	
Blue cart	8.98	9.16	2.17	2.17	Note 1
Total cart programs	25.00	25.70	19.54	20.51	

Cart program changes (\$ increase)	2023	2024	2025	2026	Notes
Black cart	0.14	0.14	0.26	0.32	
Green cart	0.38	0.38	0.57	0.65	
Blue cart	0.18	0.18	0.18	-	
<i>Extended Producer Responsibility</i>			-7.17		Note 1
Total cart programs	0.70	0.70	-6.16	0.97	

Note 1 Extended Producer Responsibility (EPR) was introduced in Alberta on 2025 April 01. Under EPR, producers (manufacturers) are responsible for managing packaging waste when it's no longer needed. This means producers are responsible for collecting, sorting, processing, partially funding and recycling the packaging waste they create.

Operating Expenditures

2026 Operating Expenditures by Department

Operating Expenditures (\$ millions)	2023	2024	2025	2026	2025 to 2026 Change Increase/ (Decrease)	Per cent change	Notes

Contribution to Capital Funding	331	338	378	403	25	6%	
Contributions to Other Reserves	425	425	497	487	(10)	-2%	
Total Contributions to Reserves	757	763	875	890	14	2%	

Note 1 Decrease in expenditures from 2025 to 2026 mainly due to the Downtown Calgary Development Incentive Program budget required to be held in the current year to sign funding agreements for conversion applications. Grants associated with this program are expected to be paid out in 2025. Remaining funds will be carried forward to 2026.

Tax-Supported and Utility Operating Expenditures

Operating Expenditures (\$ millions)	2023	2024	2025	2026	Notes
Total Department Expenditures	3,810	4,055	4,559	4,618	
Total Contribution to Reserves	757	763	875	890	
Total City Expenditure	4,566	4,817	5,435	5,507	
Less: Utility Exp. Net of Recoveries	616	632	694	755	
Less: Utility Net Reserve Contribution	223	236	226	229	
Less: Total Utility Expenditure	839	868	920	984	Note 1
Total Tax-Supported Expenditures	3,727	3,949	4,515	4,523	Note 2

Note 1 The net budget for City utilities is zero, meaning that this total expenditure on utilities is equal to the revenue raised by utility user rates, levies, fees and sources other than the municipal tax base.

Note 2 Tax-supported expenditures are offset by business unit revenues (e.g., fees, permits, sales of goods and services, etc.) and other general municipal revenue sources (e.g., property taxes) such that the overall net budget of The City is zero.

Risks to Operating Expenditures

The City's expenditures can experience pressure from sudden cost increases, unexpected costs, or a mismatch between forecast and actual costs. The City manages this risk primarily through the maintenance of the Fiscal Stability Reserve, as well as other operating/sustainment reserves that can be used to cover shortfalls in expected revenues. The City is increasing its reliance on reserves to fund ongoing costs. This will be addressed in the upcoming four-year plan and budget in 2026.

Financial Reserves

The reserve balances totaled \$4,200 million at the end of 2024 (2023 - \$4,344 million), as reported in the most recent *Reserves and Long-Term Liabilities Balances 2024*. The overall decrease of \$144 million is primarily attributable to increased contributions to operations and capital projects, together with other one-time funding allocations, reflecting strategic financial management decisions to optimize funding in alignment with Council-approved priorities.

The City allocates funds to reserves to meet specific future operating and capital spending requirements and to provide for emergencies in accordance with the Financial Reserve Policy. Reserves are established and managed in accordance with the reserve’s purpose and any conditions and restrictions placed on the reserve by Council. Maintaining financial reserves supports fiscal prudence and reflects best practice in municipal risk management by allowing funds to be collected as available and spent as needed to ensure service levels to Calgarians are maintained.

Reserve Commitments

Operating, Capital and Sustainment Reserves			
(\$ millions)	2023	2024	Notes
Operating Reserves Commitments	791	838	
Remaining Operating Reserves Balance	390	435	
Total Operating Reserves	1,181	1,273	
Capital Reserves Commitments	745	1,171	
Remaining Capital Reserves Balance	1,226	764	
Total Capital Reserves	1,971	1,935	
Sustainment Reserves Commitments	903	653	
Remaining Sustainment Reserves Balance	289	339	
Total Sustainment Reserves	1,192	992	
Total Reserve Balances	4,344	4,200	Note 1

Note 1 Reserve balances per *2024 City of Calgary Annual Financial Report* are \$3,898 million for 2023 and \$4,003 million for 2024. The differences are due to the Annual Financial Report excluding certain items (such as current year surplus, revolving fund for general land purchases and internal transactions) and including other items (such as reserves held by Related Authorities).

Detailed Reserve Balances

There are 14 operating reserves totaling \$1,273 million, of which \$1,214 million is held in the Fiscal Stability Reserve as an operating contingency and cashflow fund, and to provide for one-time funding as approved by Council. As at 2024 December 31, approximately 70 per cent of the Fiscal Stability Reserve balance is committed.

There are 14 capital reserves totaling \$1,935 million and most of them are either fully committed or have substantial commitments against them to finance existing approved projects, with these commitments expected to reduce the existing balances over time.

A total of \$992 million is held in 17 separate sustainment reserves, of which most of them are either fully committed or have substantial commitments to finance existing approved projects, with these commitments expected to reduce the existing balances over time.

Large Capital Programs & Projects

Five of the top programs and projects The City spends its capital budget on the distribution of water, waste and storm water collection and wastewater treatment. Transit, including the Green Line and the purchase of buses, represents another substantial portion of capital spending. Spending on the Event Centre ramped up this year and that trend will continue into 2026.

Ten Largest Capital Programs & Projects (\$ millions)	<i>Actual</i> 2023	<i>Actual</i> 2024	2025	2026	2027+

Total Budget	359	341	532	1,113	770

Risks to Capital Expenditures

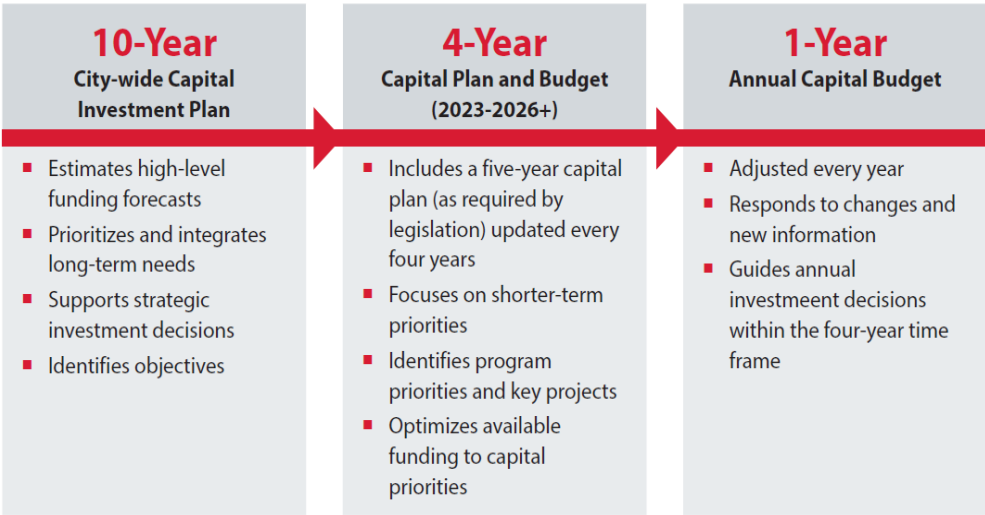

The City's capital portfolio continues to be affected by variables such as cost escalations due to a tight labour market and supply chain challenges. This can impact The City's ability to deliver capital projects in a timely and cost-effective manner. Despite these challenges, The City achieved a 92% spend rate in 2024. The performance was driven by an increased focus on project management data and reporting systems, improved processes around annual cash flows and ongoing strategic leadership. The City is committed to delivering the infrastructure necessary to support Calgary's growth.

Capital Planning

The 2023-2026+ Capital Plan was approved by Council in November 2022, committing \$4.4 billion to new capital infrastructure over the next five years and beyond. Combined with \$5.7 billion of previously approved capital and adjustments approved in 2023 and 2024, the 2023-2027+ capital budget now stands at \$17.0 billion.

Capital Planning Framework

The City’s capital planning framework draws from several forward-looking planning tools. The *Municipal Development Plan* (MDP) and the *Calgary Transportation Plan* set out a vision for how the city will grow over the next 30 years. Business units draw on these tools to develop long-range visions like Transit’s *RouteAhead* and Recreation’s *GamePLAN*.

The City-wide 10-year capital investment plan sequences and prioritizes investments and provides one integrated view of The City's capital needs over a 10-year period. It forms the basis for each cycle’s business plans and budgets.

The 10-year capital investment plan is iterative and will be updated on an annual basis. It captures the capital needs required to achieve our City building outcomes. These outcomes are aligned and integrated with our long-range City vision laid out in the *Municipal Development Plan* and supported by service-specific strategic plans such as the *RouteAhead* or *GAMEPlan*.

The city-wide 10-year Capital Investment Plan will help inform adjustments for the four-year budget. Adjustments are made annually to respond to changing circumstances over the four-year time frame and an annual capital budget is adopted.

Capital Assets

The City manages an infrastructure asset portfolio with a replacement value over \$126.5 billion, up from \$93.9 billion in 2020. This includes infrastructure from water systems to fire stations. The increase is due to addition of new assets to the infrastructure asset portfolio, impact of cost inflation and maturation of internal asset management practices that improves quality of data.

Example assets include:

- 9,373 hectares of parks and open spaces
- 17,083 kilometres of streets, 6,118 kilometres of sidewalks and approximately 1,000 kilometres of pathways.
- The City and partners operate over 250 publicly accessible recreation facilities including 54 ice surfaces and 24 aquatic centres.
- The City owns and operates two water treatment facilities, 24 storage tanks and 44 pump stations along with three wastewater treatment plants, two pump stations and 41 lift stations. There are approximately 5,000 kilometres of underground pipes for each drinking water, stormwater, and wastewater network.
- 1,321 Transit Service Vehicles including busses, light rails and specialized transit.

Business Plans and Budgets

Each of the departments prepares a business plan aligned with The City's four-year strategic direction. The following sections contain plan and financial information about each department as of 2025 October 1, including:

- **Department description and structure** describes the responsibilities of each department and lists the business units within the department.
- **Consolidated departmental operating budget** including revenues, expenditures and recoveries, separated into base budget (ongoing each year) and one-time budget (for non-recurring items).
- **Reserve activity**, both contributions and withdrawals, which yield the total net departmental operating budget for approval.
- A listing of the **reserves stewarded by the department** including their most recent closing balances.
- The **net budget** for each business unit and the department overall, which is equal to expenditures less recoveries less revenues.
- The **full-time equivalents** for each business unit in the department.
- The **capital budget** for each business unit in the department.

Within each department, the business unit plans and budgets include:

- **Key initiatives** describe highlighted work the business unit is undertaking.
- **Key performance measures** show how the business unit is measuring their progress on key initiatives.
- **Business unit operating budget** including revenues, expenditures and recoveries, separated into base budget (ongoing each year) and one-time budget (for non-recurring items).
- **Reserve activity**, both contributions and withdrawals, which yield the total net business unit operating budget.
- **Business unit capital budget**.

Throughout the document, dollar values are presented in millions.

Due to rounding, numbers presented throughout this document may not add up precisely to the totals provided and percentages may not precisely reflect the absolute values. Values that round down to zero will show as 0. Actual zero values will show as -.

Departmental Budgets

This section provides an overall view of expenditures by department, including operating expenditures, net operating budget, and capital budget, as well as full-time equivalents and full-time equivalents per 1,000 population.

Operating expenditures (net of internal recoveries) reflect how much it costs The City to provide services to Calgarians.

Operating Expenditures (\$ millions)	2023	2024	2025	2026	Change in 2026

Community Services

Calgary Fire

The Calgary Fire Department is dedicated to the safety of Calgarians. Four platoons of firefighters located in 43 fire stations across Calgary provide a range of emergency and non-emergency services. Emergency services include response to fires, emergency medical incidents, chemical and hazardous materials releases and motor vehicle collisions. In addition, the Fire Department provides specialized rescue services in high or collapsed structures, confined spaces, on our waterways or in situations caused by weather events.

Key Initiatives

Improve emergency response and outcomes at serious fires by decreasing the time needed to assemble essential firefighting resources (two engines, one aerial, and a minimum of 12 firefighters) within 11 minutes at the incident. The service will focus on increasing the number of aerial units deployed across the city and the number of firefighters staffing those units.

Maintain service levels by ensuring adequate staffing levels to balance operational demands including emergency response, community risk reduction initiatives, training and wellness.

Key Performance Measures

Target 2026	Performance Measure	Actuals		
		2022	2023	2024
86	First-in engine emergency responses within seven minutes to fire incidents (per cent time target is achieved)	83.2	83.3	82.1
74.4	Arrival of two engines, one aerial unit and a minimum of 12 firefighters within 11 minutes at serious and escalating fires (per cent time target is achieved)	63.8	70.1	70.9
88	First-in unit emergency responses within six minutes thirty seconds at critical medical incidents (per cent time target is achieved)	82	84	79.4

Note The Council-approved long-term target for these measures is 90%.

Note 2 Increase of \$2.2 million to purchase engines (P044_D02), funded by corporate capital grant.

Note 3 Increase of \$24 million (\$0.5 million in 2026, \$23.5 million in 2027+) for the emergency response station in the Glacier Ridge Area Structure Plan to be funded by off-site levies (A480511).

Note 4 Increase of \$2.13 million for the Walden Fire Station, funded by developer and other contributions (P041_175).

Note 5 Increase of \$5.3 million for the Belvedere Emergency Response Station land purchase, funded by developer and other contributions (A480506).

Community Services

Community Strategies

Community Strategies develops and implements strategies and policies through research and in consultation with community members and organizations to support the wellbeing and safety of communities.

Key Initiatives

Improve a sense of community belonging and safety by supporting and advocating the activation of safe and inclusive spaces in collaboration with community residents, and internal and external partners.

Reduce poverty and remove barriers for those experiencing poverty to participate in civic life by advancing the Enough For All Strategy in partnership with Vibrant Communities Calgary (VCC), and other community collaborators working in the poverty reduction and homelessness space.

Increase the equity and accessibility of City services by supporting the understanding of the unique needs of Calgary communities and equity-deserving groups through policies, research and evaluation tools such as the Social Wellbeing Policy, the Equity Index, Equity Analysis Tools and the Equity in Service Delivery Fund.

Key Performance Measures

Target 2026	Performance Measure	Actuals		
		2022	2023	2024
90	Community Social Work partners who agree that community social workers effectively address social issues in their neighbourhood (per cent)	94	96	94
90	Partners, collaborators and advisory board members who agree that Community Strategies is helping to remove barriers to participation in civic life (per cent).	85	71	75
60	Agreement that The City delivers programs and services that remove barriers to participation for Indigenous, Black, and diverse Racialized Calgarians (per cent)	55	59	51

Community Strategies

- Note 1 Increase of \$3.25 million in ongoing expenditures to support vulnerable Calgarians with day spaces and outreach programs. Increase of \$2.2 million in ongoing expenditures to sustain the Community Court program at current service level. Decrease of \$6 million in ongoing expenditures supporting the Mental Health and Addiction strategy.
- Note 2 One-time budget of \$2.375 million to temporarily support vulnerable Calgarians with day spaces and outreach programs in 2026, and \$2.65 million to expand Community Court to reach more at-risk individuals, and \$6 million to support Mental Health & Addiction strategy funded by the Fiscal Stability Reserve.

Community Services

Emergency Management & Community Safety

Brings together 9-1-1, emergency management, and peace officers for community, business, and transit public safety, in an integrated approach to support citizen and community safety.

Key Initiatives

Improve the caller experience by optimizing the Calgary 9-1-1 service delivery model and reducing call transfers.

Address localized social disorder and improve safety in the downtown core by increasing community peace officer capacity.

Address problem properties in Calgary by increasing capacity and broaden the scope of existing coordinated response and monitoring program.

Key Performance Measures

Target 2026	Performance Measure	Actuals		
		2022	2023	2024
95	Initial 9-1-1 calls answered within 15 seconds (per cent)	96	95	95.4

Note 5 Increase of \$0.45 million to address cost escalations for equipment lifecycle projects, funded by capital reserves (A480407).

Community Services

Partnerships

Partnerships work with partners to deliver services, projects, and programs that help build a world class city.

Key Initiatives

Support the promotion and sustainability of the local economy and placemaking by supporting the governance and operation of Calgary's Business Improvement Areas.

Engage with community partners to help address and meet the changing needs of residents by providing information, advice, and support in navigating City and community resources.

Increase the number of Arts & Culture funding recipients working with local businesses and creative professionals to deliver a broad spectrum of publicly accessible programming.

Key Performance Measures

Community Services

Recreation & Social Programs

The Recreation and Social Programs team provides accessible and equitable recreation and social opportunities that improve quality of life, contribute to inclusive communities, and promote social, mental, physical and spiritual wellbeing. With our partners, we create, plan and deliver spaces, programs, and services to help Calgarians thrive.

Key Initiatives

Meet the needs of low-income Calgarians by maintaining Fair Entry service levels, providing access to City services at reduced rates.

Lead and invest in the future of Calgary's public recreation system by resourcing and prioritizing GamePLAN.

Key Performance Measures

Target 2026	Performance Measure	Actuals

Calgary Police Service

The Calgary Police Service supports public safety by responding to emergencies, enforcing laws, investigating crimes and traffic collisions, providing support to victims of crime and trauma, ensuring large events and protests remain peaceful, and promoting safe driving. We also work closely with various partners to prevent crime and help people in crisis due to challenges with homelessness, mental health and addictions.

Calgary Police Service

Key Initiatives

Address the recruiting and staffing issues impacting the services we provide

Develop a Joint Safety Traffic Plan with The City of Calgary

Key Performance Measures

Target 2026	Actuals		
	2022	2023	2024
- Crime Severity Index	80.2	74.35	63.3
- Calgarians that feel safe	85	-	86
- Calgarians that agree CPS treats all segments of the community fairly	61	-	64

For Approval	Net Budget	485	494	541	613	59	

Note 1 Increase of \$5.48 million in ongoing expenditures for resourcing on privacy and disclosure, police vehicles, return to work and employee benefits.

Note 2 Transfer of \$47.7 million in ongoing fines and penalty revenues to Corporate Programs. The province's automated traffic enforcement restrictions resulted in a 2025 fine revenue shortfall approved by Council to be funded via the Fiscal Stability Reserve. The Calgary Police Commission requested removal of fine revenue from Calgary Police Service budgets going forward to segregate traffic enforcement decisions from the fine revenue generated by those decisions.

Note 3 One-time budget of \$5.74 million in 2025 to provide additional funding to the Calgary Police Service Helicopter Maintenance Operating and Vehicle Capital Reserves, funded by the Fiscal Stability Reserve.

Civic Partners

The City of Calgary invests in close to 500 external Partner organizations to deliver effective programs and services in targeted areas, develop and advance strategies, and construct, manage and operate City-owned assets. The City makes its most significant investments including operating and capital grants in Civic Partners, a category of Partner defined in the Investing in Partnerships Policy to meet the needs of Calgary and Calgarians.

Civic Partners

Key Initiatives

Lead economic development initiatives under the guidance of the Uplink: An Action Plan for Calgary's Economy strategy to attract and retain companies (Calgary Economic Development); provide convention centre services (Calgary Convention Centre Authority), support local business, entrepreneurs and innovators (Platform Calgary); and lead regional, national and international tourism marketing (Tourism Calgary).

Operate and provide access to vibrant community hubs that connect Calgarians to experiences, inspiration and ideas at 21 library locations for 1,450 open hours per week - an average 70 hours per location (Calgary Public Library).

Offer access to world class cultural attractions and venues including the Calgary TELUS Convention Centre, The Calgary Zoo, The Confluence Historic Site & Parkland, Contemporary Calgary, Heritage Park, The Hangar Flight Museum, TELUS Spark and Werklund Centre (formerly Arts Commons).

Provide access to affordable housing for low-income seniors, support poverty reduction and offer Calgarians a wide range of opportunities for sport, recreation, conservation, history, arts and culture through the work of Calgary Arts Development Authority, Sport Calgary, Federation of Calgary Communities, Heritage Calgary, MNP Community & Sport Hub, Parks Foundation, Silvera for Seniors and Vibrant Communities Calgary.

Key Performance Measures

Target 2026		Actuals		
		2022	2023	2024

Civic Partner Operating Grants and Mandates

Operating Grants (\$ millions)		2023	2024	2025	2026	Included adjustment	Notes
Calgary Public Library	Base	56.4	58.1	60.1	65.4	0.3	Note 3
	One-Time	1.0	0.9	1.1	-	-	

The Calgary Public Library serves as a community hub, accessible through 22 locations across Calgary. Programming is designed to foster meaningful connections with community members through a wide range of initiatives including digital resources, in-person services and physical space that offers opportunity for learning and growth.

Calgary Arts Development Authority	Base	18.2	18.8	19.5	20.2	-	
	One-Time	1.0	1.0	1.0	1.0	-	

Calgary Arts Development Authority (CADA) invests and allocates municipal funding for the arts provided by The City of Calgary and leverage those funds to provide additional resources to the arts sector. CADA's programs support hundreds of arts organizations, individual artists, artist collectives and arts events in Calgary. CADA strives to increase and use our resources wisely, foster collaborative relationships, and make the arts integral to the lives of Calgarians. We are a connector, facilitator, collaborator, champion, supporter, ambassador, investor, catalyst, and opportunity-maker. At least 75% of all City funding is re-invested into the community through grant programs.

Calgary Economic Development Ltd.	Base	10.7	11.2	11.4	12.1	0.4	Note 4
	One-Time	1.0	0.5	0.3	0.2	-	

To position Calgary for long-term economic success, Calgary Economic Development Ltd. (CED) supports the expansion, retention, and attraction of companies, capital and talent, while delivering shareholder value to The City. CED's work is underpinned by Calgary's economic action plan, Uplook: An Action Plan for Calgary's Economy, with the vision for Calgary to be the place where bright minds and big ideas come together with an unmatched spirit to help solve global challenges.

Civic Partners

Operating Grants (\$ millions)		2023	2024	2025	2026	Included adjustment	Notes
The Calgary Zoological Society	Base	8.8	9.1	9.4	9.5	(0.3)	Note 5
	One-Time	-	-	-	-	-	

The Calgary Zoological Society, operating as the “Wilder Institute Calgary Zoo”, develops, operates and promotes an integrated zoological, botanical, and prehistoric park for the combined purposes of conservation, education, recreation and scientific study. The Calgary Zoo is one of the top tourist attractions in the city, province and western Canada.

Silvera for Seniors	Base	8.2	8.6	8.9	8.4	(0.8)	Note 6
	One-Time	-	-	-	-	-	

Silvera for Seniors offers a range of housing and support services for older adults. Its programs focus on wellness, lifelong learning and preventative care to promote greater independence. Silvera operates assets that are part of the Municipal Lodge Program, a program funded by The City through a Ministerial Order signed between the Government of Alberta, Silvera for Seniors and The City.

Tourism Calgary	Base	6.9	7.0	7.2	7.3	-	
	One-Time	1.0	1.0	1.0	1.0	-	

As the official destination management organization for Calgary, Tourism Calgary works with industry and community to drive demand to local member businesses, increasing the economic impact of the visitor economy in Calgary, while considering the needs of the community and the environment.

Heritage Park Society	Base	4.8	5.5	5.7	5.8	-	
	One-Time	-	-	-	-	-	

Through its programs and services, the Society connects people with the Settlement of Western Canada and preserving culture and heritage. Heritage Park guests experience the past and leave with a better understanding of today, which inspires new possibilities for tomorrow.

Calgary Convention Centre Authority	Base	2.8	3.4	3.4	3.6	0.1	Note 7
	One-Time	-	-	-	-	-	

The Calgary Convention Centre Authority manages, markets, and operates the Calgary TELUS Convention Centre in an efficient and market-competitive manner to maximize overall economic benefits to The City of Calgary while maintaining financial performance within an acceptable range.

Werklund Centre	Base	2.8	3.0	3.1	3.2	-	
	One-Time	-	-	-	-	-	

Werklund Centre (formerly Arts Commons) aspires to be an inspirational force where artists, community, and organizations celebrate cultural identities, experience the full breadth of human emotions, and ignite positive change.

Calgary Science Centre Society	Base	2.5	2.8	2.9	3.0	-	
	One-Time	-	-	-	-	-	

Calgary Science Centre Society (TELUS Spark) serves as a leading science centre where immersive exhibits, multidisciplinary programming and community engagement converge to foster curiosity and promote lifelong learning. Through guest speakers, STEAM orientated activities and partnership, TELUS Spark seeks to reach all audiences.

Platform Calgary	Base	1.5	1.6	1.6	1.7	-	
	One-Time	0.5	0.5	0.5	0.5	-	

Platform Calgary catalyzes growth and diversification in Calgary's tech ecosystem by connecting founders, investors, policy makers and partners. Through programming, professional development, and coaching, it enables tech startups to grow, scale and build success.

Lindsay Park Sports Society	Base	1.5	1.5	1.6	1.6	(0.0)	Note 8
	One-Time	-	-	-	-	-	

Lindsay Park Sports Society (MNP Community & Sport Centre) is a world class sport and fitness facility that inspires individuals and teams to achieve their goals and dreams through innovation, expertise and passion.

Civic Partners

Operating Grants (\$ millions)		2023	2024	2025	2026	Included adjustment	Notes
The Confluence Historic Site & Parkland	Base	1.2	1.3	1.3	1.7	0.3	Note 9
	One-Time	-	-	-	-	-	

The Confluence Historic Site & Parkland serves as a vital cultural and historical space, providing visitors the opportunity to connect and explore the past including Fort Calgary. Curated programs, exhibitions and guest speakers present the richness of Indigenous identity and create opportunity to learn about how culture is shaped and celebrated.

Vibrant Communities Calgary	Base	0.5	0.5	0.5	0.6	0.0	Note 10
	One-Time	0.5	0.5	0.5	0.5	-	

Vibrant Communities Calgary (VCC) works to achieve a substantial and sustained reduction in the number of Calgarians living in poverty. VCC works to grow the social, economic and political engagement of Calgarians in their community, and believes that everyone has a right to fully participate in their communities.

Contemporary Calgary	Base	-	-	-	1.1	1.1	Note 11
	One-Time	0.9	0.9	0.9	-	-	Note 12

The Contemporary Calgary Arts Society supports Calgarians and visitors by providing a world-class destination for local, national and international contemporary art experiences.

Sport Calgary	Base	0.5	0.5	0.5	0.5	-	Note 13
	One-Time	0.6	0.4	0.4	0.4	-	

The Calgary Sport Council Society (Sport Calgary) promotes the development of sport in Calgary by supporting local sport organizations and advocating for increased access and participation. Through a range of initiatives, events and partnerships, Sport Calgary seeks to foster growth, reduce service overlap and integrate sport in the fabric of Calgary communities.

Heritage Calgary	Base	0.5	0.6	0.6	0.6	-	
	One-Time	0.1	0.1	-	-	-	

Heritage Calgary leads efforts to preserve and promote awareness of the city's historic sites. Through education, research, advocacy and the management of historical data, Heritage Calgary fosters connections between the people and the places that have shaped the city's identity.

The Parks Foundation, Calgary	Base	0.2	0.2	0.2	0.2	0.0	Note 14
	One-Time	0.4	0.4	0.4	0.4	-	

The Parks Foundation supports Calgarians to enjoy a healthy lifestyle by leveraging City investments to provide easily accessible and unique, sport and green spaces.

Federation of Calgary Communities	Base	0.2	0.2	0.2	0.2	-	Note 15
	One-Time	0.2	0.2	0.2	0.2	-	

The Federation provides capacity building support and guidance for its members and improves neighbourhood life in Calgary by providing services and programs that create, support and enhance vital and representative community based associations.

Aerospace Museum Association of Calgary	Base	0.4	0.4	0.5	0.5	-	
	One-Time	-	-	-	-	-	

The Aerospace Museum Association of Calgary (The Hangar Flight Museum) is a premier destination to explore, engage and experience the transformational power of flight. The Hangar Flight Museum is a storyteller, stewarding and sharing the aviation history of Calgary and Western Canada, and highlighting its impact on our community.

- Note 3 Increase of \$0.285 million to Calgary Public Library recommended by Civic Partner Grant Review Committee.
- Note 4 Increase of \$0.400 million to Calgary Economic Development recommended by Civic Partner Grant Review Committee.
- Note 5 Decrease of \$0.311 million for Calgary Zoo recommended by Civic Partner Grant Review Committee.
- Note 6 Decrease of \$0.750 million for Silvera for Seniors recommended by Civic Partner Grant Review Committee.
- Note 7 Increase of \$0.063 million to Calgary Convention Centre Authority recommended by Civic Partner Grant Review Committee.

Civic Partners

Note 8	Decrease of \$0.017 million for MNP Community & Sport Centre recommended by Civic Partner Grant Review Committee.

Calgary Transit

Transit is the backbone of Calgary's best future. Calgary Transit integrates movement and land use by creating an intuitive, safe, accessible, and welcoming system that is convenient to use for Calgarians and visitors. Our transit network includes local and rapid transit services. We also offer Calgary Transit Access, a shared ride accessible service for eligible Calgarians. With Calgary expected to reach two million, transit is essential for meeting the needs of a world-class city.

Key Initiatives

Improving the customer experience: minimizing delays where possible so that customers can get to their destinations on time.

Keeping pace with a growing city: expanding service into new communities and enhancing service in existing communities to better serve customers and reach new ones.

Implementing operational efficiencies: finding ways to make the most of our limited transit fleet (buses and trains), minimize wear and tear on transit infrastructure, and reduce fare evasion.

Key Performance Measures

Target 2026	Performance Measure	Actuals		
		2022	2023	2024
6.06	Operating Cost per Passenger Trip (dollars)	6.85	4.98	4.89
90	Trips that arrive within a specified period (%), (i.e. bus on-time performance)	87.7	85.3	84.4
1.89	Public Transit service hours per capita	1.73	1.85	1.88

Note 7 Increase of \$7 million for lifecycle asset management of Calgary Transit's buildings, funded by the Fiscal Stability Reserve (P656_04W).

Note 8 Increase of \$5 million for lifecycle asset management of Calgary Transit's LRT infrastructure, funded by the Fiscal Stability Reserve (P655_14W).

Note 9 Increase of \$2 million for lifecycle asset management of Calgary Transit's rail system crossing safety funded by the Fiscal Stability Reserve (P655_17W).

Note 10 Increase of \$3 million for bus refurbishments, funded by the Fiscal Stability Reserve (P657_01W).

Operational Services Facilities

As the corporate steward of civic spaces and workspaces, Facilities strategically operates, maintains and sustains City facilities and strives to balance the environmental, social and operational needs of employees, communities & citizens.

Key Initiatives

Enable the delivery of all City services to Calgarians by operating, maintaining and sustaining 627 City facilities.

Transfer of \$13.7 million from Recreation Amenity Lifecycle (A446551) to align budget to where the project/work is executed and delivered, funded by Reserve for Future Capital.

Increase of \$14 million for facility lifecycle upgrades, funded by the Fiscal Stability Reserve (A480750).

Note 3 Increase of \$1 million to the Heritage Asset Sustainment Program (480759) for the historic Beltline YMCA (commonly known as the Old Y) and former Beltline Pool site for security and consulting costs to further refine capital maintenance requirements, funded by the Reserve for Future Capital and Lifecycle Maintenance and Upgrade Merged.

Note 4 Transfer of \$3.9 million from Facility Lifecycle (P519_130) for building and accessibility upgrades at the West Hillhurst Civic Centre, funded by Reserve for Future Capital and developer and other contributions.
Increase of \$300,000 for tenant improvements for accessibility features including, but not limited to, the east entrance at the West Hillhurst Civic Centre (used by the National accessArts Centre) Renovation to the Recreation Facility Lifecycle (A405701), funded by the Reserve for Future Capital and Lifecycle Maintenance and Upgrade Merged.

Operational Services

Fleet & Inventory

Fleet and Inventory provides reliable vehicles, equipment, warehousing and inventory services which support frontline operations in contributing to a vibrant and thriving city. The business unit is responsible for safe driver training, vehicle and equipment maintenance, fabrication and repair, fuel management, green fleet initiatives, inventory planning, forecasting, control, distribution and end-of-life disposal of corporate inventory.

Key Initiatives

Improve vehicle and equipment uptime, service delivery to citizens, and reduce costs by implementing Reliability Centered Maintenance (RCM).

Note 2 Increase of \$17.5 million due to unplanned growth in critical front-line services, funded by self-supported debt (P871_001).

Operational Services

Mobility

Mobility delivers safe, reliable, and well-maintained transportation systems for everyone who walks, wheels, drives, or rides through its three service lines: Streets, Sidewalks & Pathways, and Parking. We add value by producing essential materials (e.g., signage, asphalt, concrete, and aggregates) and managing key assets (e.g., streetlights, traffic signals, and parking) to ensure Calgary's infrastructure remains safe, functional, and resilient. Through activities like snow clearing, street sweeping, data analysis, safety improvements, right-of-way reviews, and event support, we help keep Calgary moving while enhancing community safety, accessibility, and quality of life.

Key Initiatives

Maximize the useful life of roadway assets by continually monitoring and managing asset lifecycles, planning for timely maintenance, making the best use of resources, proactively procuring materials and implementing efficient asset rehabilitation and replacement activities.

Improve the availability and use of sidewalks and pathways infrastructure to Calgarians by enhancing coordination, engagement, collaboration, feedback and communication activities with workgroups, supporting partners and impacted communities.

Deliver awareness of Calgary Parking systems, the Traffic and Parking Bylaws to Calgarians by creating opportunities for Parking Safety & Compliance (PS&C) officers to engage with customers and Calgarians in the community.

Key Performance Measures

Target 2026	Performance Measure	Actuals

Note 7 Increase of \$4.5 million to align budget with developer and other contributions received to deliver traffic signals in pedestrian corridors (P128_130).

Note 8 Increase of \$13 million to secure funding for the 3 priority intersections (Memorial Drive and 5th Ave Flyover, 16th Ave and 68 ST NE, and McKnight Boulevard and 68th Street NE) improvements, funded by corporate capital grants (A481355).

Note 9 Increase of \$2 million to install two Rectangular Rapid Flash Beacons (RRFBs) for the New Traffic Signals and Pedestrian Corridors (P127_130) per ward at locations driven by safety need, funded by the corporate capital grants.

Mobility

- Note 10 Increase of \$4.5 million for ParkPlus Technology improvements, including lifecycling of the electronic ticketing application and Impound Lot management software, funded by capital reserves (A426957).
- Note 11 Increase of \$0.443 million to align budget with the grant received from Alberta Transportation for the work carried out by The City on the Stoney regional traffic management centre project (A481356).
- Note 12 Increase of \$0.102 million to align budget with developer and other contributions received from Transport Canada towards the Elbow River Pathway and Bow River Pathway – Old Refinery Park (P503_933).
- Note 13 Increase of \$1.5 million to align budget with developer contributions received to deliver the Mobility Infrastructure lifecycle workplan (A481359).
- Note 14 Increase of \$0.329 million to recognize grants received from Transport Canada for railway crossing upgrades (P133_001).

Operational Services

Parks & Open Spaces

Parks & Open Spaces maintains and stewards almost 9373 hectares of public spaces and amenities through: mowing, snow removal, litter pickup, festival and event support, environmental conservation, amenity inspections and repairs, and pest management. We plant, water, prune and maintain public trees and promote tree stewardship to Calgarians. We manage The City's active, historic and newly planned cemeteries, with a wide range of interment products and services. And we provide affordable and accessible opportunities to play golf at Calgary's seven municipal courses and three driving ranges.

Key Initiatives

Maintain community connections and Calgarians' wellness by providing year-round amenities and activities, including winter activities and new attractions as opportunities arise.

Maintain Calgary's existing tree canopy through the development of a citywide program to systematically identify and replace older, larger trees when they are at the end of their natural lifecycles.

Key Performance Measures

Target 2026	Performance Measure	Actuals		
		2022	2023	2024
93	Calgarians' Satisfaction with parks, playgrounds and open spaces (per cent)	93	91	89
9	Calgary's urban tree canopy percentage (per cent)	8.13	8.13	9.62
22	Park Assets in Poor & Very Poor Condition (per cent)	18	23	19

Note 3 Increase of \$4 million to fund lifecycle removal and replacement for park infrastructure assets, funded by the Fiscal Stability Reserve (A420185).

Operational Services

Waste & Recycling Services

Waste & Recycling Services is focused on enabling Calgarians to reduce and manage their waste responsibly, now and into the future. The service delivers residential Black Cart, Blue Cart, Green Cart programs, container collection, as well as several community-based waste reduction and diversion programs. The service also manages operations, maintenance and environmental performance at The City's three active and five closed landfill sites.

Key Initiatives

Provide safe and reliable collection services for residential black, blue and green cart programs, and container collection services for multi-residential developments, businesses and organizations.

Advance responsible waste reduction and management by delivering safe and efficient waste processing and disposal services, along with community-wide programs.

Key Performance Measures

Target 2026	Performance Measure	Actuals

Operational Services

Water Services

Water Services is responsible for protecting public health and the environment by supplying safe, high-quality drinking water, managing stormwater and collecting and treating wastewater for Calgary and neighbouring communities, including the cities of Airdrie and Chestermere, and Tsuut'ina Nation. These services are highly regulated and must comply with stringent environmental and health regulations to operate. Water Services operates and maintains 62% of the City's infrastructure, including water and wastewater treatment plants, and operates four water quality laboratories. Additionally, Water Services operates and maintains 15,000 km of pipes which make up the water distribution system, wastewater collection system and stormwater system. Water Services responds to emergencies such as sewer line backups, water pooling complaints, water outages, and manages customer concerns related to water quality. Water Services collects revenue through utility bills, is responsible for revenue assurance, and enforces a number of bylaws to ensure adequate and safe water services for Calgarians.

Key Initiatives

Increase operational capacity by growing the workforce, to ensure appropriate resources available for critical and preventative maintenance of the system network, treatment plants, reservoirs, pump stations and lift stations, to improve system reliability and reduce service interruptions.

Improve response times for customer issues, service interruptions, and reduce the number of local pooling complaints.

Integrate data, technology and customer insights, to modernize our services, create operational efficiency and improve customer experience and support safety for our staff and the public.

Key Performance Measures

Target		Actuals		
2026 Performance Measure		2022	2023	2024
3	Time it takes to respond to wastewater service interruption (hours)	3.75	5.66	3.03
48	Average time to return to regular water service due to a water main break (hours)	59	71.5	60.37
2,882	Number of localized pooling complaints	2,815	4,255	2,839

Infrastructure Services

Capital Planning & Business Services

Capital Planning & Business Services provide guidance and support on how projects are planned, managed, and tracked. We make sure The City's capital investment plans and asset management, and project management policies are followed, and we help manage the overall project process. We also support the tools and systems used to manage assets and projects, including software, automation, and training. Our team helps with budgeting, financial/schedule tracking, reporting and keeping project records organized. We oversee the professional practice for engineers and geoscientists, ensuring compliance with legislation, standards, and specifications. We provide surveying services to support work on land, utilities, and transportation projects.

Key Initiatives

Optimize investment in Calgary infrastructure by successful integration of the corporate project management software system across City operations to improve consistency and maximize efficiencies in planning, delivery, monitoring and reporting on capital projects.

Delivery of the Corporate Asset Management Plan and the 10-year Capital Plan in 2026, key inputs that will enhance our multi-year Business Plans and Budgets.

Infrastructure Services

Green Line LRT - SE Project

Responsible for delivering and implementing the southeast (SE) segment of the Green Line Light Rail Transit (LRT), from Shepard in the southeast to the Event Centre/Grand Central Station, constructing the first 16 kilometres of an overall 46-kilometre vision for Calgary's largest infrastructure investment.

Key Initiatives

Deliver the southeast segment of the Green Line LRT.

Note 1 Increase of \$12.7 million to advance planning and design for upgrades to, and/or additional amenities for the following GamePLAN priorities (A480761): Shouldice Athletic Park, Forest Lawn Aquatic and Fitness Centre, Southland Leisure Centre, and Belmont Recreation Centre and Athletic Park, funded by the Fiscal Stability Reserve.

Infrastructure Services

Public Spaces Delivery

Public Spaces Delivery is responsible for the design and construction of the places that make Calgary a great place to live, including public buildings, recreational amenities, parks, roads and bridges, and major transit systems. We also keep Calgary safe through projects the prevent erosion and flooding, and we improve life for citizens through the construction of more accessible spaces and ways to get around.

Key Initiatives

Collaborate with key interest holders to ensure alignment and capacity to effectively and efficiently deliver identified capital projects that support service line mandates.

Note 1 Increase of \$3.5 million to recognize funding received for the Glenmore Twin Arena project from the Minor Hockey Association of Calgary (A448000).
Increase of \$15.4 million for Belmont Athletic Park and fieldhouse, funded by developer and other

Public Spaces Delivery

contributions (A448000).

Increase of \$65 million to deliver the Northeast Athletic Complex GamePLAN priority project (A448000), funded by the Community Investment Reserve.

- Note 2 Increase of \$45 million to fund the Stoney Trail and Memorial Drive Flyover, funded by developer and other contributions (A481406).
- Note 3 Increase of \$22.827 million to fund park upgrades to West Confederation Wetland (0.733 million funded by the Federal Natural Infrastructure Fund), Richmond Green (\$15.81 million funded by capital reserves), and Cowboys Park (\$6.285 million funded by developer and other contributions and capital reserves). Increase of \$3 million to upgrade the parks and playground amenities, funded by the Reserve for Future Capital and Lifecycle Maintenance and Upgrade Merged. (P500_006).
- Note 4 Transfer of \$63.5 million spread across 2025 to 2028 from Downtown Strategy (A463920) to align budget to where the project/work is executed and delivered, funded by Canada Community Building Fund and Municipal Sustainability Initiative.
- Note 5 Increase of \$0.433 million to recognize contributions received for Main Streets, including site service connections, water service kills, public infrastructure and hydrant relocation (P612_000).
- Note 6 Increase of \$0.147 million to recognize contributions received for the Haskayne Regional Park access roads and increase of \$6 million for Park Delivery Program funded by capital reserves (P500_004).
- Note 7 Increase of \$2.94 million to recognize grant received from Federal Government for the Active Transportation Fund (A446454).
- Note 8 Increase of \$0.025 million to recognize contribution received for tree planting (A446456).
- Note 9 Transfer of \$13.7 million to Asset Sustainment Program (A480750) to align budget to where the project/work is executed and delivered, funded by Reserve for Future Capital.
- Note 10 Increase of \$0.055 million to recognize contributions received from Alberta Transportation (P223_000).
- Note 11 Transfer of \$3.9 million to Recreation Facility Lifecycle (A405701) for building and accessibility upgrades at the West Hillhurst Civic Centre, funded by Reserve for Future Capital and developer and other contributions.
- Note 12 Increase of \$5 million to recognize grant received from Province for the Airport Transit Connector (East) (A446554).
- Note 13 Increase of \$16.0 million to advance planning and design for upgrades to, and/or additional amenities for the following GamePLAN priorities (A446561): New Brighton Athletic Park Field, Kingsland Athletic Park, Rocky Ridge Fieldhouse and Umoja Community Mosaic Soccer Field, funded by the Fiscal Stability Reserve.
- Note 14 Increase of \$0.5 million for pre-engineering studies for detailed design work, funded by the Lifecycle Maintenance Upgrade Reserve (P832_001).
- Note 15 Increase of \$0.163 million to fund various street improvements according to development agreements, funded by developer and other contributions (P127_140).
- Note 16 Increase of \$0.173 million to align budget with interest earned on capital deposits (P575_001).

Infrastructure Services

Real Estate & Development Services

Real Estate & Development Services negotiates and completes Corporate real estate transactions, and is responsible for management of the Revolving Fund for General Land Purchases, the Land Servicing Reserve, land policy and standards, real estate advisory services, leasing, land asset information and property management, coordination of strategic land planning, circulations, encroachments and land transfers. It also develops and sells industrial land to attract business investment and promote economic diversification and growth for Calgary.

Key Initiatives

Increasing the value and benefit that Calgarians receive from The City’s land inventory. This will be achieved through reduction in maintenance costs, disposition of surplus properties, as well as activating and creating interim uses for underutilized parcels for social/environmental return and increased general revenue and tax opportunities.

Enabling redevelopment and increase the tax base while supporting Calgary’s growth and revitalization by marketing and selling City-owned surplus lands.

Increasing the amount of below market housing in Calgary by partnering with Housing Solutions to support the continued implementation of the Non-Market Housing Land Disposition Policy.

Key Performance Measures

Target		Actuals		
2026	Performance Measure	2022	2023	2024
35	Cumulative revenue generated from surplus parcels sold, 2023-2026 (millions of dollars)	20	7	23.06
177	Increase in property values resulting from private investment attributable to industrial land sales (millions of dollars)	140	328	104.7
15	Cumulative equivalent market value contribution in support of the Home is Here: The City of Calgary’s Housing Strategy (millions of dollars).	-	-	7.25

Infrastructure Services

Utilities Delivery

Utilities Delivery is the City of Calgary's infrastructure delivery business unit that is responsible for detailed design, construction and handover of identified capital projects for Water, Wastewater, Stormwater and Waste & Recycling. We focus on the safe, effective and efficient execution of our work in a learning based environment of continuous improvement.

Key Initiatives

Collaborate with key interest holders to ensure alignment and capacity to effectively and efficiently deliver identified capital projects that support service line mandates.

Planning & Development Services

City & Regional Planning

City & Regional Planning is accountable for all citywide and regional planning policies. We guide the development of modernized policy, growth-related servicing and investment strategies, and efficient financial tools to deliver strategic and sustainable growth that considers economic, environmental and social well-being outcomes. We engage with Calgarians and the development industry to develop the long-range vision for the city.

Key Initiatives

Deliver the residential, commercial and industrial opportunities that will continue to make Calgary one of the world's most livable and attractive cities by developing and implementing the Calgary Plan, Zoning Bylaw and Street Manual (the City Building Program) to align and strengthen The City's tools in planning for the future, while removing barriers from desired development and business activities.

Increase supply of industrial and residential lands within Calgary and in the region to ensure capacity to meet demand by pursuing opportunities for joint economic development through the Industrial Action Plan and other intermunicipal collaborations.

Implement actions in Outcome 1 of Home is Here: The City of Calgary's Housing Strategy, including the development and streamlining of planning policies and tools to increase and diversify the supply of housing for all Calgarians in every community. (Updated during Mid-Cycle Adjustments to the 2023-2026 Service Plans and Budgets)

Key Performance Measures

Target 2026	Performance Measure	Actuals		
		2022	2023	2024
340	Land area where middle density housing is allowed, per 100,000 Calgarians (hectares)	326.4	311	873
575	Land area designated for industrial uses, per 100,000 Calgarians (hectares)	-	434	405
1,250	Serviced land supply for new communities (hectares)	1,882	1,818	1,999

Planning & Development Services

Climate & Environment

Climate & Environment provides leadership, strategies, programs, and support to plan for and manage climate and environmental issues, risks, opportunities and trends associated with the delivery of public services. Climate action aims to reduce the impacts of severe climate events on infrastructure, people and nature, reduce greenhouse gas (GHG) emissions, and improve energy management. Environmental sustainability aims to protect and reduce our impact on land, air and water resources to ensure quality of life, human and ecological health. We identify, assess and manage contamination risks of city-owned land to protect human health and the natural environment.

Key Initiatives

Increase protection and conservation of Environmentally Significant Areas (ESA) in greenfield development by developing standard protocols for ESA identification in ecological inventories and biophysical impact assessments, by retaining identified ESAs using Environmental Reserve or other planning tools as part of Land Use Amendment/Outline Plan approvals and by updating ESA and Environmental Reserve policies and guidelines.

Combine local and regional, structural and non-structural flood mitigation measures to optimize economic, social and environmental resilience to river floods. City-led, supported or advocated initiatives include: new upstream dams and reservoir operations; local flood barriers and infrastructure floodproofing; thoughtful flood hazard zone land use regulation and regulatory refinement; public engagement/education; enhanced flood forecasting; response planning and emergency response.

Key Performance Measures

Target		Actuals		
2026	Performance Measure	2022	2023	2024
60	Environmentally Significant Area protected and conserved in greenfield development (per cent of ESA protected or restored calculated at land use amendment/outline plan approval)	26	81	63
1,590	Number of properties within 1:100 River Flood Extent - Flood Exposure Risk	3,553	3,396	3,360

Planning & Development Services

Community Planning

Community Planning implements the vision of the Municipal Development Plan and the Calgary Transportation Plan. The Development Applications Review Team and the Local Area Planning teams develop and sustain community policy plans. In addition Community Planning Engineers, Planners, Urban Designers and Specialists work together in evaluating, processing and providing recommendations when working with customers and communities on the range of planning applications submitted.

Key Initiatives

Support the realization of development in Calgary, enhance the consistency of application reviews, and encourage greater certainty and predictability for customers by increasing the responsiveness and timely review of development applications. Continuous improvement towards a streamlined applications process, including better ways to track and measure effort along the approvals continuum, and improvements and updates to systems and tools.

Improve the experience and interaction of customers and Calgarians with the applications process through enhanced online service delivery that leverages technology to modernize, consolidate and streamline the products offered. This includes products on ApplyCentral, transitioning to digital advertisement, and building a “mobile friendly” development map.

Key Performance Measures

Target	Performance Measure	Actuals

- Note 1 Increase in ongoing expenditures of \$0.015 million for Boards, Commissions, and Committees remuneration.
- Note 2 Amendments to the Planning Applications fee schedule to enable the Infill Fast Track Program and to waive outdoor patio fees in 2026. Amendments to the Land Use Amendments fee schedule will convert major policy amendments from a flat fee to a per hectare rate, and introduce a new per hectare fee for Municipal Development Plan amendments. Amendments to the Subdivision fee schedule will introduce new fees for converting parking stalls to bare land or condominium units.

Planning & Development Services

Development, Business & Building Services

Development, Business & Building Services is responsible for permit intake, building safety & business licensing in Calgary. We intake all PDS application types, review and issue building permits and perform inspections to audit for building code, subdivisions specifications, developments permit and bylaw compliance. We also review and issue business licenses and maintain relevant business license bylaws to ensure Calgarians' expectations for safety and consumer protection are met.

Key Initiatives

Provide time-saving, easy and convenient options through education for builders, developers and businesses by investing in customer self-serve capabilities

Reduce building permit approval timelines by applying capacity, risk, and performance management.

Key Performance Measures

Target	Performance Measure	Actuals		
		2022	2023	2024
80	Business licence applications that have been submitted and completed online - Ease of Service (per cent)	48	76	63
80	Building permit applications where issuance timeline commitments were met (per cent)	78	79	84

Planning & Development Services

Downtown Strategy

Downtown Strategy is leveraging the collective efforts of The City and its public and private sector partners to respond to prolonged economic challenges, restore downtown property values, and capitalize on opportunities that will create jobs, drive economic recovery, and revitalize and transform the downtown.

Downtown Strategy leads the delivery and implementation of the Council-approved Greater Downtown Plan, including downtown office conversion programs and investments in catalytic capital projects that enhance public spaces and cultural places. It also activates public spaces to increase downtown vibrancy and supports community partners' vibrancy and community-building programming and events.

Downtown Office Conversion Programs are incentivizing the conversion of vacant office space into homes for Calgarians, post-secondary academic spaces to attract more students downtown, hotels, and other uses that revitalize downtown. These programs also incentivize the demolition of end-of-life office buildings and help remove barriers for developers by offsetting the cost of the Plus 15 Fund. Repurposing underused office buildings is accelerating downtown housing development at a fraction of the cost of new construction while also reducing demolition waste and upgrading aging buildings to meet modern environmental standards.

Key Initiatives

Revitalize Calgary's downtown by investing in (1) major civic projects to support trade, tourism, job creation and building strong regional economies; and (2) priority public infrastructure projects to provide necessary public amenity for a thriving community and that complement developer investment.

Key Performance Measures

Target 2026	Performance Measure	Actuals		
		2022	2023	2024
2.5	Downtown Surplus Office Inventory Reduction (million sq ft)	-	1.46	1.78
889	New housing units completed in Calgary's Downtown through the conversion of office properties	-	-	112

Council

Members of Council are elected officials responsible for setting the vision for Calgary and working with Administration to execute that vision and deliver services to Calgarians.

Audit Committee oversees the integrity of The City's annual financial statements, internal control processes, integrated risk management, the Whistle-blower Program and the performance of internal and external auditors.

The Integrity and Ethics Office assists Council members in meeting ethical standards of conduct when carrying out their public functions, including acting with integrity; avoiding conflicts of interest and improper use of influence; and arranging private affairs in a way that promotes public confidence.

Council

City Auditor's Office

The City Auditor's Office provides independent and objective audit, advisory and investigative services to add value to The City of Calgary and enhance public trust by improving governance, risk management, and control processes. Council, through Audit Committee, mandated the roles and responsibilities of the City Auditor and the City Auditor's Office through Bylaw 30M2004 (as amended), Bylaw 33M2020 and Whistle-blower Policy CC026. The Bylaws and Policy require the City Auditor to report the results of individual audits to Audit Committee, and establish procedures for receiving, assessing, appropriately investigating, and reporting the outcome of all reports to the Whistle-blower Program. City Auditor's Office standard practice, in accordance with Schedule "A" of The City Auditor Bylaw 30M2004 (as amended), is to provide public reporting on our accountability, delivery against our performance measures and budget spend through quarterly and annual reports to Audit Committee. City Auditor's Office reporting is available via the City Auditor's Office public website.

Corporate Services

Chief Housing Office

The Chief Housing Office leads The City's corporate priority to improve housing outcomes for all Calgarians. The Business Unit takes a multidisciplinary and collaborative approach to increasing housing supply, choice and affordability of market and non-market homes across the city to ensure that everyone in Calgary has an affordable place to call home. This will be accomplished through effective coordination of policy, investment, partnerships and advocacy.

Key Initiatives

Implement the 98 actions outlined in Home is Here – The City of Calgary's Housing Strategy (2024-2030) to improve housing outcomes for all Calgarians.

Deliver the initiatives outlined in The City of Calgary's Housing Accelerator Fund Action Plan.

Demonstrate elevated corporate leadership through the Chief Housing Office on a one-city service delivery approach to Housing that will enable efficient delivery of market and non-market homes through leveraging partnerships, streamlining internal processes, unlocking land and capital resources, and securing funding from other orders of government.

Key Performance Measures

Target 2026	Performance Measure	Actuals		
		2022	2023	2024
3,000	Number of new non-market homes issued Building Permits	158	152	121
14,252	Number of new market homes issued Building Permits	16,391	19,574	25,095

Note 3 Increase of \$22.8 million to recognize additional Housing Accelerator Funds to be received from Canada Mortgage and Housing Corporation (CMHC) to create more supply of housing at an accelerated pace (A482004).

Note 4 Includes a change in funding of \$26.2 million from provincial grants to the Fiscal Stability Reserve for the Southview Affordable Housing project. No impact to total capital budget.

Note 5 \$20 million approved for planning and partial construction of Anderson, Dalhousie, and Fish Creek Transit-Oriented Development (TOD) sites. Dalhousie Station has replaced Southland Station in the program to align with the CMLC shareholder-approved 2025–2029 Strategic Plan and to accelerate delivery of the Council-approved scope of work. There is no impact to the total capital budget.

Corporate Services

Chief Operating Office

The Chief Operating Officer (COO) provides corporate leadership for four City operating departments: Planning & Development Services, Infrastructure Services, Operational Services, and Community Services. The COO team supports the Chief Administrative Officer, leads a One-City service delivery approach, and provides oversight and support on corporate priorities where multi-disciplinary, collaborative, and coordinated solutions are required - such as public safety, housing affordability, transit and Prairie Economic Gateway.

Note 1 Chief Operating Office positions are funded from recoveries from four operational departments. The office has 11 full time equivalents in 2026. An additional 12 full time equivalents will be added in 2026 to support Prairie Economic Gateway.

Note 2 \$14.6 million one-time operating budget for Prairie Economic Gateway originally held in City & Regional Planning business unit.

Corporate Services

City Clerk's Office

The City Clerk's Office provides support for the City's boards, commissions, and committees (BCCs) and appeal processes by managing recruitment, training and meeting logistics; delivers legislative services for meetings of Council and Council Committees; supports the administration of Councillors' offices; administers civic recognitions; oversees all electoral processes including municipal elections, by-elections, petitions, votes of the electors, and ward boundary reviews to ensure fair representation; and safeguards personal information by implementing records retention and privacy policies, processing access to information requests, and maintaining archives that preserve Calgary's history.

Key Initiatives

Support public transparency and participation in local government by continuing to provide public access to records of Council decisions, including bylaws and meeting minutes.

A centralized file management system will automate workflow and streamline processes to ensure effective and efficient resolution of access and privacy files.

Key Performance Measures

Collaboration, Analytics & Innovation

Collaboration, Analytics & Innovation (CAI) provides Geographic Information System (GIS) platforms, imagery, intellectual property management, innovation training & consulting services, computer-aided design & drafting (CADD) platforms, base-mapping, addressing and open data hubs for administration, Council and citizens. CAI connects customers with accurate, consistent location intelligence, data and analytics.

Key Initiatives

Promote and expand the use of location-based tools and data by customers and Calgarians to enable self-service and open access to geospatial information.

Increase the number of data sets available in the Open Data Catalogue and promote easy self-serve access to City data for Calgarians, businesses, researchers and educational institutions.

Corporate Services

Customer Service & Communications

Customer Service & Communications (CSC) provides communications, marketing, social media, crisis and issues support, creative services and media relations. We provide access to City information and services primarily through 311, City social media channels and Calgary.ca. We plan and execute safe, fair and accessible opportunities for Calgarians to give input on City programs, services and overall quality of life in Calgary through research and engagement.

Key Initiatives

- Provide opportunities for input on City programs and services that are safe, fair, accessible, and representative of all Calgarians through the new target research and engagement activities and further implementation of the Inclusive Engagement Guide.
- Serve as the major access point for City information and services through the provision of The City's web presence and 311. Integrate City-owned data and present it back in a user-friendly way, as well as perform ongoing technical maintenance and required upgrades to ensure these channels are available to customers 24 hours a day, seven days a week.
- Uphold public trust and confidence in The City by delivering ongoing communications and campaigns to raise Calgarians' awareness and understanding of The City's services, financial position, and the value Calgarians receive for their taxes and fees.

Key Performance Measures

Target 2026	Performance Measure	Actuals		
		2022	2023	2024
65	Opportunities for input (per cent of Calgarians who agree they have enough opportunities to provide input into decision-making about City projects and services)	61	52	50

Human Resources

Human Resources offers strategies, governance, programs, and services that contribute to the effective leadership and management of the City's workforce delivering services to the citizens and visitors of Calgary. We work to attract, retain, and engage talent, and support the employee experience through talent management, employee and leadership development, employee lifecycle, compensation, pay, benefits and pensions, recognition, health and wellness, performance development and succession management.

Key Initiatives

Support the cultural growth of a resilient and modern organization and strengthen employee engagement through collaboration with senior leadership.

Corporate Services

Information Technology

Information Technology (IT) provides and manages the technology, devices, data, infrastructure, and governance that underpins the delivery of the majority of technology solutions for The City. IT develops and maintains both enterprise and line of business applications, and improves and automates business processes to enable City business units to deliver services to Calgarians as well as core internal services.

Key Initiatives

Advance service delivery by exploring, identifying and evaluating emerging technologies.

Corporate Services

Law

Law provides legal services, and insurance and claims management advice to Council & Committees, and all City departments to help protect The City's interests for all Calgarians.

Legal Services is a full-service law department with legal expertise in: real estate and planning, environment, finance, public procurement, corporate and commercial transactions, assessment and property tax, information and privacy, construction, employment and labour relations, municipal law, and legislative matters. Legal Services represents The City in lawsuits, judicial and quasi-judicial proceedings, and enforces The City's bylaws. It does not provide legal services to the public.

Risk Management and Claims provides advice on operational risk management, and purchases and administers insurance coverage for the Corporation. It also investigates, adjusts, collects and settles claims made by and against third parties.

Key Initiatives

Implement technology advancements to modernize and streamline operations in accordance with Council approved ZBR commitments

Occupational Health & Safety

Occupational Health & Safety (OHS) promotes a positive physical and psychological safety culture by delivering expertise, guidance, and support in accordance with Legislation, Regulations, and Codes. OHS protects workers through preventive measures, regulations, standards, and with direct front-line support to reduce workplace hazards, injuries, and illnesses. The City's OHS programs focus on risk assessment, hazard control, and employee engagement, and implementing effective initiatives and systems to safeguard City staff, contractors, and volunteers

Key Initiatives

Advance Occupational Health & Safety by deploying integrated systems, processes, programs that proactively reduce workplace hazards, injuries, and associated costs in compliance with Legislation, Regulations and Codes.

Deliver organization-wide leadership in physical and psychological Occupational Health & Safety (OHS), providing expert guidance and strategic support across daily operations, projects, construction and major incident response.

Corporate Services

Supply Management

Supply Management stewards The City's supply chain activities through purchase of construction, consulting, information technology, inventory, goods and services. We facilitate corporate adherence to legislation and regulatory requirements and bind contracts between Suppliers and The City while enabling social procurement and contract compliance.

Key Initiatives

Minimize the impact of cost escalations and supply chain disruptions to City services, enable uninterrupted service delivery to Calgarians and protect investment of public funds by developing a Corporate Supply Chain Resilience Strategy that identifies, assesses, and proactively manages The Corporation's supply chain risks. This will be achieved through consultation with Industry and partners.

Note 1 Decrease in ongoing expenditures of \$9.33 million for a reduction in corporate provisions to reflect a higher risk tolerance, \$17.2 million to enable annual transfer to Reserve for Future Capital and Lifecycle Maintenance and Upgrade Merged, and \$2.2 million to sustain the Community Court program.

Note 2 Transfer of \$2.61 million to Office of the Councillors for Council Community Fund and Council Innovation Fund. Decrease of \$2.8 million in one-time expenditures to enable transfer to Reserve for Future Capital and Lifecycle Maintenance and Upgrade Merged.

Note 3 Transfer of \$47.7 million in ongoing fines and penalty revenues from Calgary Police Services. Increase of \$5 million in ongoing revenues to reflect higher investment income. Increase of \$14.6 million in ongoing revenues for property tax revenue resulting from higher than projected new physical assessment base growth. Increase of \$6 million in ongoing revenues to reflect higher than anticipated dividends from ENMAX.

Note 4 One-time budget of \$28 million for the revenue shortfall projected from fines and penalties in 2026, funded by the Fiscal Stability Reserve.

Note 5 Transfer of \$20M from corporate programs to Reserve for Future Capital and Lifecycle Maintenance and Upgrade Merged. Reduction of the ongoing allocation of investment income to reserve by \$50 million per Council amendment.

Note 6 One-time budget of \$151.8 million from Fiscal Stability Reserve to fund one-time initiatives in 2025 and 2026 and \$16.4 million to fund one-time IT budget with funding redirected from IT capital relinquishment. Increase in draw from Fiscal Stability Reserve is offset by relinquishment of \$5 million one-time budget from Climate & Environment.

Budget Implementation

The following additional adjustments and approvals are necessary to enable the adjusted operating and capital budgets presented for each department. These include adjustments to Council-approved user fees and rates.

User Fee & Rate Adjustments

A user fee is a payment charged in exchange for a good or service provided by The City. User fees are paid directly by those who benefit from a service and are an important part of diversified municipal revenues, which help reduce reliance on property taxes and other revenue sources used to provide City services. All user fees are set in accordance with Council's User Fee Policy (CP2024-02), which considers the full costs of providing the good or service, market demand and the extent of public versus individual benefit derived.

User fees planned for 2026 are already approved by Council through earlier consideration of the 2023-2026 business plans and budgets. Adjustments to 2026 user fees occurred in four departments.

For Community Services: amendments to the *Vehicle for Hire Bylaw* (20M2011) as set out in the amending bylaw (51M2025), will reduce licensing fees for all vehicle-for-hire industry participants.

For Operational Services: amendments to the Utility Line Assignment fee schedule will increase fees for utility line assignments that have not changed since 2019, to provide better alignment with the fees charged for similar services for telecommunications companies; and will introduce a new borehole application fee of \$100 to reflect the costs to review and process applications for utility line assignment borehole activities. Amendments to the Calgary Transit fee schedule include fare increases to recover costs associated with the 2023 fare freeze, in addition to the annual adjustment to align with operating costs.

For Planning & Development Services: amendments to the Planning Applications fee schedule will enable the Infill Fast Track Program and will waive outdoor patio fees in 2026. Amendments to the Land Use Amendments fee schedule will convert major policy amendments from a flat fee to a per hectare rate and introduce a new per hectare fee for *Municipal Development Plan* amendments. Amendments to the Subdivision fee schedule will introduce new fees for converting parking stalls to bare land or condominium units. Amendments to the Building & Trade Permit fee schedule will re-introduce a \$327 fee charged when an inspection results in no progress (e.g., unable to gain entry to the site, work not complete) to reduce the frequency of these outcomes requiring re-inspection.

For Corporate Services: amendments to the Assessment & Tax fee schedule will increase the Tax Notification Registration fee from \$60 to \$75.

Community Services User Fee Adjustments

Emergency Management and Community Safety

On the following page, see bylaw 51M2025 for approved amendments to bylaw 20M2021 the Vehicle for Hire Bylaw.

BYLAW NUMBER 51M2025

**BEING A BYLAW OF THE CITY OF CALGARY
TO AMEND BYLAW 20M2021
THE VEHICLE FOR HIRE BYLAW**

WHEREAS Council has considered C2025-0901 and deems it necessary to set the fees set out in Bylaw 20M2021, the Vehicle for Hire Bylaw, for 2025 and 2026;

NOW, THEREFORE, THE COUNCIL OF THE CITY OF CALGARY ENACTS AS FOLLOWS:

1. Bylaw 20M2021, the Vehicle for Hire Bylaw, as amended, is hereby further amended.
2. **SCHEDULE B – FEES** is amended as follows:
 - (a) **Table 1 – Licence Fees** is deleted in its entirety and the following is substituted:

“TABLE 1 – Licence Fees

About The City of Calgary

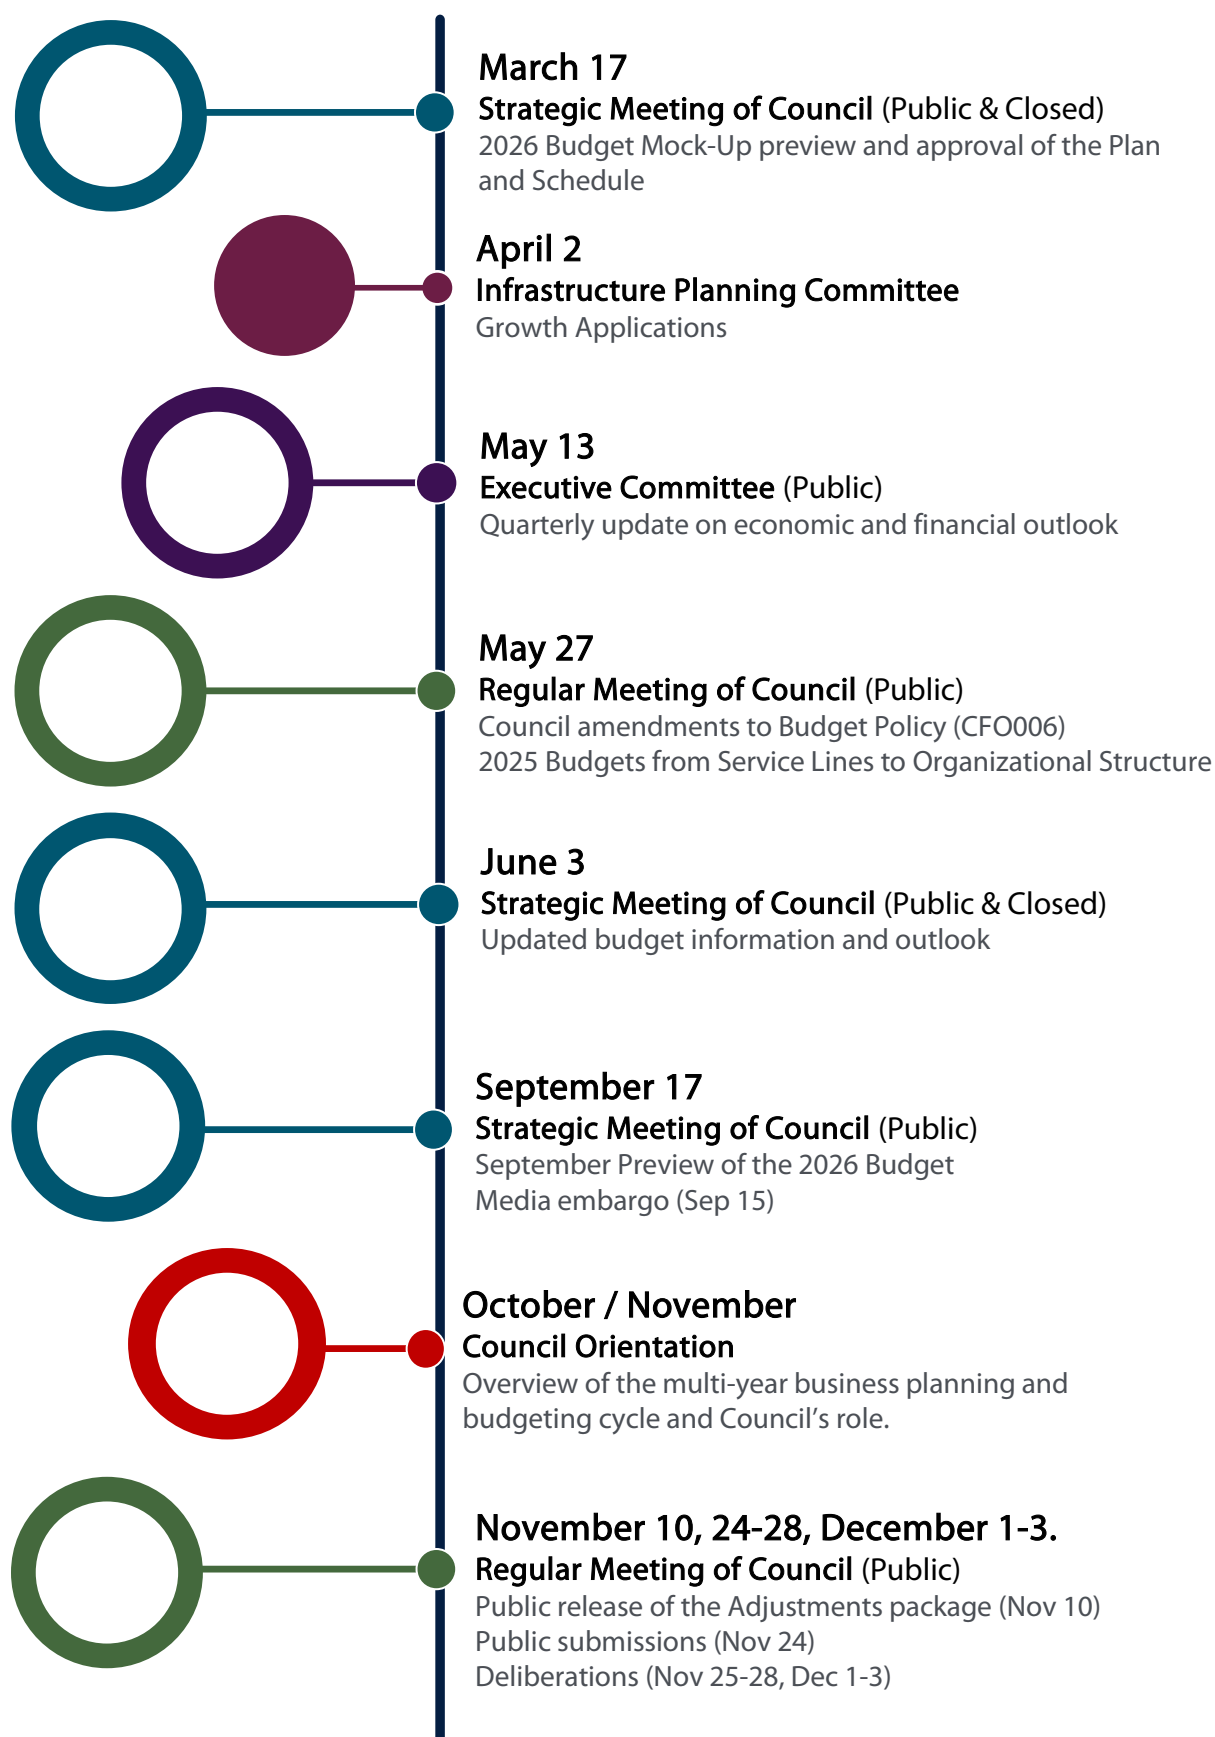

Organizational Structure

Calgary Police Service reports to Calgary Police Commission. The department budget is recommended by Calgary Police Commission and approved by Council.

Civic Partners are not part of City Administration and report to their own boards. The department budget represents City of Calgary operating and capital funding to these partner entities.

2025 Planning and Budgeting Process

Glossary

Adjustments — means any changes to an existing plan and/or budget, can be approved either by Council or Administration.

Administration — includes all City departments and staff under the Chief Administrative Officer, but excludes elected officials, the Calgary Police Service and Commission, the City Auditor and Civic Partners. Responsible for implementing Council's directives and managing strategic and operational outcomes.

Business Plan — a document that outlines the goals, strategies, performance measures and financial activities of a business unit, serving as a roadmap for achieving its objectives.

Business Unit — an organizational structure within a department that delivers services, programs or administrative functions contributing to a department's mandate.

Assets / Capital Assets — items such as plant, equipment, vehicles, structures and systems needed for provision of municipal services that are owned and operated by The City, and whose useful life extends beyond one year.

Capital Budget — means the total budget approved for The City's capital expenditures.

Capital Expenditures – expenditures incurred directly and necessarily in relation to a capital program or project.

Capital Program — a grouping of capital projects that are related and benefit from being planned and managed together.

Capital Project — capital investment that is planned, delivered and evaluated on its own merit and has a well-defined scope, cost and schedule resulting in new or substantially improved assets.

Capital Reserve — a reserve used to fund approved capital program or project expenditures.

Civic Partner — an independent organization that has either been created by The City or with whom The City partners:

- to deliver a Council-approved strategy or mandate through an operating grant or other form of investment over \$500,000; or
- to deliver programs and services, operate major City-owned facilities or steward land, artifacts or other assets through the management or use of a nominal lease or an operating or capital grant over \$500,000.

Commitments — planned future outflows from a reserve balance to be used for the purpose defined within the specific reserve and in accordance with conditions and restrictions.

Community Revitalization Levy (CRL) — a specialized funding mechanism that enables the City of Calgary to capture incremental property tax revenue generated within a designated revitalization area. These funds are reinvested directly back into the area to finance infrastructure projects and redevelopment.

Debt Servicing Reserve — a reserve fund held by the City of Calgary specifically to cover costs related to servicing debt such as future payments of principal and interest on outstanding borrowings. It acts as a financial safeguard to ensure the city can meet its debt obligations without disrupting regular operations or capital plans.

Department — departments set strategic direction for business units, allocate resources, and ensure alignment with City Council priorities. A department is typically composed of a number of business units.

Fiscal Stability Reserve (FSR) — a financial reserve created by Council as a contingency for emergencies or revenue shortfalls and as a source of funding for one-time projects. The Reserve's investment income is used to fund one-time operating budget expenditures. The minimum balance is set at 5 per cent of gross annual operating expenditures (net of recoveries and exclusive of utilities) and the targeted reserve balance is set at 15 per cent of gross annual operating expenditures (net of recoveries and exclusive of utilities).

Franchise Fee — a fee paid by utility companies to The City in lieu of property taxes based on an agreement granting an exclusive franchise area to serve and use of City right-of-way for infrastructure including wires and pipes. This fee is also referred to as a Local Access Fee.

Full Time Equivalent (FTE) — a full-time position that works between 35 and 40 hours per week. This could be filled by one person or by a combination of individuals who work the same number of hours as an FTE.

Funding — a source of revenue such as, but not limited to, tax support, fines and penalties, franchise fees, user fees, utility fees, waste and recycling fees and internal recoveries for operating and provincial and federal grants, capital reserves and debt for capital.

Growth — development of infrastructure to support Calgary's growth in population and geographic area, accommodate consideration of demographic changes and economic opportunities. This development applies broadly across the city and is not limited to new or actively developing communities.

Growth Application — a submission made to The City by a developer where the merits of investing in a new community growth opportunity are evaluated. The application is assessed against established criteria, including land supply, proximity to amenities, required infrastructure and services and financial impact. A Growth Application must be approved by Council before proceeding with land use redesignation and the rest of the development process.

Initiative — a planned effort or program with a clear outcome to improve service delivery, engage the community, fund projects or develop infrastructure.

Infrastructure — our City assets that keep Calgary safe, connected and growing - such as roads, bridges, transit, fleet, water systems, parks, recreation centres, fire halls, IT systems, buildings, real estate, and operations centres.

Intermunicipal Collaboration Frameworks (ICFs) — a mandatory agreement between neighboring municipalities that outlines how they will work together to plan, deliver and fund shared services that benefit residents in both regions.

Intermunicipal Development Plans (IDPs) — a joint plan for adjacent municipalities which guide future development and facilitate coordinated land use and planning across municipalities and regions.

Maintenance and replacement — Expenditures that support the sustainment of existing infrastructure (that is in place today) to the agreed upon (defined) level of service and adherence to legislation. This covers the full breadth of capital renewal and sustainment opportunities undertaken by The City and includes activities such as rehabilitation, renewal and replacement.

Net Budget — budgeted operating expenditures less revenues and internal recoveries. The City's total net budget is zero, representing no budgeted surplus or deficit. However, the net budget of a department represents the amount of support from Common Revenues.

Ongoing operating (base) — revenues, recoveries and expenditures that recur annually in budgets without additional approval and primarily support ongoing service delivery.

One-time — a nonrecurring operating revenue, recovery or expenditure budgeted for a specific period.

Operating Budget — items of revenue, recoveries and expenditures pertaining to ongoing day-to-day operations, generally exhausted within one year.

Operating Expenditure(s) — expenditures incurred that are directly related to The City's day-to-day operations.

Operating Reserve — a reserve to fund operating expenditures for one-time projects, pilot programs, to stabilize operating budgets for unanticipated fluctuations in revenues or expenditures, to comply with a contractual agreement, or for contingency funds for operational emergencies.

Pay as You Go (PAYG) — unrestricted reserve to help fund City maintenance and upgrade projects, project producing assets with a useful life of five years or less and fund ineligible costs for grant-funded projects.

Performance Measure — a quantitative metric used by a business unit to measure progress towards a desired outcome(s) on service delivery, programs and initiatives.

Property Tax — the tax imposed on taxable properties; calculated based on the revenue required by The City after deducting estimated revenues from non-tax sources from the total amount approved by Council. It is distributed among taxpayers according to the assessed market value of their properties and the tax share set by Council.

Recovery — an internal charge between business units.

Reserve Activity — includes the impact of corporate and business unit specific contributions to reserves partially offset by the withdrawals from these reserves used to fund mainly capital expenditures.

Revenues — income generated from a variety of external sources including, but not limited to: property taxes, government grants, fines, penalties and the sale of goods or services.

Risk — the effect of uncertainty on the achievement of results. It is measured by its impact and likelihood, and can be managed through avoidance, acceptance, mitigation, transfer, or exploring as an opportunity.

Self-Supported Business Units / Programs — a program not funded by property tax revenues but from revenues or recoveries resulting from its own operations (e.g., Water Utilities).

Sustainment Reserve — a reserve to fund both operating and capital expenditures for activities that are treated as self-sustaining.

Tax Increase — the overall increase in tax revenue from existing properties expressed as a percentage increase from the prior year.

Tax Rate — the result of the division of the property tax revenue budget allocated to a property assessment class based on the tax share, divided by the total taxable property assessment for that class.

Tax Ratio — the ratio of the highest non-residential tax rate to the lowest residential tax rate and cannot exceed 5:1, as mandated by the MGA (Municipal Government Act).

Tax Revenue — the amount of money to be collected through property taxes, set by Council through the approval of The City's budget.

Total Debt — means all outstanding principal on The City's borrowings or guarantees. Debt may be in a form of a debenture, bond, commercial paper, promissory note, lease of capital property, financial liabilities associated with entering a Public Private Partnership (PPP), loan, guarantee or other form of contractual long-term financial commitment. Debt of ENMAX Corporation, a wholly owned subsidiary of The City, is excluded from Debt Limit calculations. Other organizations that have fiscal relationships with The City but are not included in The City's consolidated financial statements, such as City and civic partners, are also excluded from The City's Debt Limit calculations.

User Fee — a fee charged in exchange for a good or service provided by The City. Transit fares and pool admission fees are examples.

Utilities — refers to the provision of water services and infrastructure, including the treatment and supply of clean water, removal and treatment of wastewater and management of stormwater.
