Planning and Development Items currently accepting comment	
Land Use Applications Development Permits:	
Other Development updates	
	(none)
Mobility Updates	
Accessibility concerns along the ridge in Britannia	We received a concern regarding the lack of accessibility to the pathways that are along the ridge in Britannia. Here was the conclusion: "Our team has completed its review of the accessibility concerns raised by the Ward 8 Office. As part of the planned improvements, we will construct wheelchair-accessible ramps at the northeast and southeast corners of the intersection of Britannia Drive SW and 49 Avenue SW. In addition, a granular pathway connection will be installed to provide an accessible link between the intersection and the existing pathway network. These accessibility improvements are currently scheduled for implementation in 2027. We appreciate the opportunity to address this concern and improve accessibility in the area."
