REPORT NOTES

Most of the statistical data in this report are derived from the Police Information Management System (PIMS) and compiled by the Centralized Analysis Unit. The numbers reported may change on a daily basis due to the dynamic nature of offences being reported and cleared. Disorder data is derived from the CAD system and is static.

To a large extent, the data in this report are based on accumulated to date information. ***(Except for the Monthly Highlights which are based on static information (i.e.: a snap-shot in time).***

- For offences based on accumulated to date information, the number of offences recorded may be higher than previously reported (i.e. in previous statistical reports) due to late reporting. Although this does not greatly affect the number of occurrences for all offences, for some categories it may be as high as a 30-40% increase. The published data for the current period can therefore be expected to increase as time passes. As a result, readers should exercise caution when making comparisons between historical data and current data (i.e. previous year to this year) as data for the historic period will now include late reported offences, but data for the current period will not at this time. To achieve an effective comparison, current data should be evaluated against the originally published data for the historic period.
- Likewise, late reporting affects the number and percentage of offences cleared. Cases are often cleared months and sometimes years later. Consequently, clearances for previous years may appear to be much higher than those of the present year. Cases “cleared by charge” and those “cleared otherwise” are included in these totals.
- For offences based on “static” or “snap-shot” information, data totals will only reflect the number of offences reported in the original publication. They are not updated. Although late reporting may occur, and offences may continue to be cleared as time passes, these new events are not taken into account when preparing this statistical report.

A single incident may result in multiple offences, with each unique *Criminal Code* violation within the incident being counted as an offence. Furthermore, person crime offences are typically counted by the number of victims. Please note that offences are assigned to the month in which the offence "started", not the month they were reported or cleared. Also note that “attempted” incidents are included in these totals. For a more detailed explanation of the Offence counting procedure, please contact the Centralized Analysis Unit.

Monthly Highlights – STATIC NUMBER COMPARISON

To reduce the impact of late reporting, comments on this page are a comparison between the CPS April 2015 Statistical Report and the CPS April 2014 Statistical Report. To achieve an effective comparison, current data is evaluated against the originally published data for the historic period.

APRIL 2015

PERSON CRIME

- ◆ Reported **person crimes** for the month of April 2015 increased 9.0% when compared to April 2014 (669 offences in April 2015 vs. 614 in April 2014).
- ◆ Total **robbery** offences for the month of April 2015 increased 1439% when compared to April 2014 (85 offences in April 2015 vs. 74 in April 2014); During April 2015 there were:
 - 1 **financial robbery** (compared to 5 in April 2014);
 - 38 **commercial robberies** (compared to 15 in April 2014);
 - 39 **person robberies** (compared to 52 in April 2014); and
 - 7 **home invasions** (compared to 2 in April 2014).
- ◆ **Assaults** increased 12.1% this month (511 offences in April 2015 vs. 456 in April 2014).
- ◆ **Sex offences** decreased 13.5% this month (45 offences in April 2015 compared to 52 in April 2014).

PROPERTY CRIME

- ◆ Reported **property crimes** this month increased 37.7% when compared to April 2014 (3970 offences in April 2015 compared to 2883 in April 2014).
- ◆ **Vehicle theft** (including attempts) increased 59.3% this month when compared to April 2014 (572 offences in April 2015 vs. 359 in April 2014).
- ◆ **Theft** offences increased 44.2% this month when compared to April 2014 (1989 offences in April 2015 vs. 1379 in April 2014).
- ◆ **Break and enter** offences this month increased 38.8% when compared to April 2014 (644 offences this month compared to 464 in April 2014).
 - **Residential break and enter** offences this month increased 7.9% when compared to April 2014 (231 offences in April 2015 vs. 214 in April 2015); and
 - **Commercial break and enter** offences increased 78.5% this month when compared to April 2014 (282 offences in April 2015 vs. 158 in April 2014).
- ◆ **Fraud related** offences decreased 5.0% this month (170 offences in April 2015 vs. 179 in April 2014).

Calgary Person Crime Statistics – STATIC NUMBERS

The static crime numbers on this page are derived from historical Calgary Police Service Monthly Statistical Reports. These statistics are used when writing the Monthly Highlights page in order to make a fair comparison using data which has not been allowed to increase due to late reporting of crime. Using static numbers allows us to compare crime levels at a specific point in time and make an accurate determination of increases or decreases. The cumulative crime numbers (pages 8 – 11) are statistics derived from the CPS Police Information Management System. P.I.M.S. cannot produce static numbers and therefore the cumulative numbers reflect any late reporting of crime. To achieve an effective comparison, current data should be evaluated against the originally published data for the historic period. *Due to the dynamic nature of ongoing homicide investigations these numbers may have been manually updated to reflect the current homicide count. Due to manually updating, it's possible 1 or more homicides may be reflected within the assault category. The homicide counts are provided by the homicide unit.
