

Info Posts are a CPS electronic intelligence gathering form which may be used following interactions between police officers and the public to record a person's information and / or the person's circumstances at a particular time and place. This form may also be used to record information volunteered by members of the public or partner agencies, and other forms of intelligence including officer observations.

There is significant rigour around how the information is recorded and stored. All Info Posts are reviewed by the Intelligence Evaluation Unit (IEU) within 24 hours of being taken to ensure the information is legally obtained, collected without bias, and stored properly to protect the privacy of the citizens of Calgary.

CHART 1: Breakdown (by Type) of 18,462 Info Posts submitted 2019-01-01 to 2019-12-31

Within the Officer Contact group in the pie-chart above, 'Call Type' from the CAD database was used to determine that at least 3,606.00 (44.0%) were the result of a public generated call for service (this is for the time period 2019-01-01 to 2019-12-31).

The remainder of this report focuses exclusively on Officer Contacts (sometimes referred to as Street Checks), which are voluntary interactions with a member of the public that result in recording information of potential intelligence value. Officer Contacts may stem from a public generated call for service or be associated with other elements of an officer's routine duties.

On average 22.62 Officer Contacts were submitted each day during this reporting period (2019-01-01 to 2019-12-31). This is roughly 2.83 per day, per District, gathered during an officer's normal course of duty.

Info Post FAQ

What exactly is an 'Info Post'?

Info Post refers to a CPS electronic intelligence gathering form which may be used following interactions between police officers and the public to record a person's information and / or the person's circumstances at a particular time and place. This form may also be used to record information volunteered by members of the public or partner agencies, and other forms of intelligence including officer observations.

What exactly is an 'Officer Contact'?

Officer Contacts (sometimes referred to as Street Checks) are one type of interaction that is documented through an Info Post. They are submitted after a voluntary interaction with a member of the public that provided information of potential intelligence value. They may stem from a public generated call for service (such as a suspicious person complaint), or they may be associated with other elements of an officer's routine duties, such as patrols of high crime locations or Crime Management Strategy priority areas.

Why does CPS use Info Posts and Officer Contacts to collect information about citizens?

Collecting relevant and reliable information is necessary to achieve the statutory and common-law duties of policing. It is used to assist CPS members in the discharge of their duties to preserve the peace, investigate offences, prevent crime, apprehend offenders, execute warrants, and protect life and property.

How is this information collected and stored?

Information is collected by members of the CPS in a number of manners, including during the course of officer's regular duties and through tasked activity pertaining to investigations and public safety. The CPS also receives information from law enforcement partners and members of the public.

What kind of policy applies to the collection of this information?

SOPs have been developed with the CPS Professional Standards Section and Early Intervention Office. CPS members are expected to clearly articulate the circumstances of the interaction to ensure that the information is lawfully collected, is not arbitrary, and adheres to the CPS Fair and Impartial Policing practices.

CPS Policy on Collection of Information specifies that personal information shall not be collected to satisfy a performance measure; to randomly document routine interactions; to document political, religious, or social views unless the information relates to criminal conduct/ activity or there is reasonable suspicion the subject of the information is involved in criminal conduct/ activity.

Is there any oversight, or quality assurance?

All Info Posts are reviewed for purposes of quality assurance and compliance by the Intelligence Evaluation Unit (IEU, established October 2016). The IEU complete the administrative steps required to ensure that all information submitted complies with policy and legislation, is stored appropriately, so that it can be used and shared responsibly for law enforcement purposes. The IEU are also mandated to report any breaches of Fair and Impartial Policing practices.

In the event that a member of the public is concerned that information has been collected in a manner that breaches CPS Policy, they can contact: the member's supervisor; the Calgary Police Commission Complaints Director; or the CPS Professional Standards Section.
