## REPORT NOTES

Most of the statistical data in this report are derived from the Police Information Management System (PIMS) and compiled by the Centralized Analysis Unit. The numbers reported may change on a daily basis due to the dynamic nature of offences being reported and cleared. Disorder data is derived from the CAD system and is static.

To a large extent, the data in this report are based on accumulated to date information. **(Except for the Monthly Highlights which are based on static information (i.e.: a snap-shot in time).**

- For offences based on accumulated to date information, the number of offences recorded may be higher than previously reported (i.e. in previous statistical reports) due to late reporting. Although this does not greatly affect the number of occurrences for all offences, for some categories it may be as high as a 30-40% increase. The published data for the current period can therefore be expected to increase as time passes. As a result, readers should exercise caution when making comparisons between historical data and current data (i.e. previous year to this year) as data for the historic period will now include late reported offences, but data for the current period will not at this time. To achieve an effective comparison, current data should be evaluated against the originally published data for the historic period.
- Likewise, late reporting affects the number and percentage of offences cleared. Cases are often cleared months and sometimes years later. Consequently, clearances for previous years may appear to be much higher than those of the present year. Cases “cleared by charge” and those “cleared otherwise” are included in these totals.
- For offences based on “static” or “snap-shot” information, data totals will only reflect the number of offences reported in the original publication. They are not updated. Although late reporting may occur, and offences may continue to be cleared as time passes, these new events are not taken into account when preparing this statistical report.

A single incident may result in multiple offences, with each unique *Criminal Code* violation within the incident being counted as an offence. Furthermore, person crime offences are typically counted by the number of victims. Please note that offences are assigned to the month in which the offence "started", not the month they were reported or cleared. Also note that “attempted” incidents are included in these totals. For a more detailed explanation of the Offence counting procedure, please contact the Centralized Analysis Unit.

## Monthly Highlights – STATIC NUMBER COMPARISON

To reduce the impact of late reporting, comments on this page are a comparison between the CPS August 2016 Statistical Report and the CPS August 2015 Statistical Report. To achieve an effective comparison, current data should be evaluated against the originally published data for the historic period.

### AUGUST 2016

#### PERSON CRIME

- ◆ Reported **person crimes** for the month of August 2016 decreased 3.0% when compared to August 2015 (772 offences in August 2016 vs. 796 in August 2015).
- ◆ Total **robbery** offences for the month of August 2016 decreased 16.7% when compared to August 2015 (75 offences in August 2016 vs. 90 in August 2015); During August 2016 there were:
  - 5 **financial robberies** (compared to 10 in August 2015);
  - 28 **commercial robberies** (compared to 15 in August 2015);
  - 37 **person robberies** (compared to 61 in August 2015); and
  - 5 **home invasions** (compared to 4 in August 2015).
- ◆ **Assaults** decreased 1.7% this month (586 offences in August 2016 vs. 596 in August 2015).
- ◆ **Sex offences** increased 9.9% this month (78 in August 2016 compared to 71 in August 2015).

#### PROPERTY CRIME

- ◆ Reported **property crimes** this month were at par with August 2015 (4621 offences in August 2016 compared to 4589 in August 2015). Property crimes in August remained well above the five year average for the second year in a row, by 22.0%.
- ◆ **Vehicle theft** (including attempts) remained comparable with August 2015 as well, decreasing 1.0% this month when compared to August 2015 (569 offences in August 2016 vs. 575 in August 2015).
- ◆ **Theft** offences increased 7.2% this month when compared to August 2015 (2389 offences in August 2016 vs. 2229 in August 2015).
- ◆ **Break and enter** offences this month decreased 7.5% when compared to August 2015 (742 offences this month compared to 802 in August 2015).
  - **Residential break and enter** offences this month decreased 11.1% when compared to August 2015 (281 offences in August 2016 vs. 316 in August 2015);
  - **Commercial break and enter** offences decreased 19.6% this month when compared to August 2015 (250 offences in August 2016 vs. 311 in August 2015).
- ◆ **Fraud related** offences increased 27.3% this month (326 offences in August 2016 vs. 256 in August 2015).

## Calgary Person Crime Statistics – STATIC NUMBERS

The static crime numbers on this page are derived from historical Calgary Police Service Monthly Statistical Reports. These statistics are used when writing the Monthly Highlights page in order to make a fair comparison using data which has not been allowed to increase due to late reporting of crime. Using static numbers allows us to compare crime levels at a specific point in time and make an accurate determination of increases or decreases. The cumulative crime numbers (pages 7 – 10) are statistics derived from the CPS Police Information Management System. P.I.M.S. cannot produce static numbers and therefore the cumulative numbers reflect any late reporting of crime. To achieve an effective comparison, current data should be evaluated against the originally published data for the historic period. \*Due to the dynamic nature of ongoing homicide investigations these numbers may have been manually updated to reflect the current homicide count. Due to manually updating, it's possible 1 or more homicides may be reflected within the assault category. The homicide counts are provided by the homicide unit.

## Calgary Property Crime Statistics – STATIC NUMBERS

The static crime numbers on this page are derived from historical Calgary Police Service Monthly Statistical Reports. These statistics are used when writing the Monthly Highlights page in order to make a fair comparison using data which has not been allowed to increase due to late reporting of crime. Using static numbers allows us to compare crime levels at a specific point in time and make an accurate determination of increases or decreases. The cumulative crime numbers (pages 7 – 10) are statistics derived from the CPS Police Information Management System. P.I.M.S. cannot produce static numbers and therefore the cumulative numbers reflect any late reporting of crime. To achieve an effective comparison, current data should be evaluated against the originally published data for the historic period.

Source: Cumulative data; PIMS (September 2016)

NOTE: Total Reportable Collisions exclude collisions along private roadways or public parking lots.

The number of reported traffic collisions may continue to increase over time. Due to data collection and reporting methods, totals for the current month may not be comparable to previous years.

\* e-Collision reporting is a data system which became operational in July 2009. At the time this report was published it was not possible to separate all collisions based on level of severity or to determine whether they occurred in a parking lot. Therefore, as e-Collision reports are completed and entered into the CPS records management system, it is determined whether or not they are reportable, and they are removed from the e-Collision count total and reclassified based on level of severity.

## Top Collision Locations and Primary Cause of Events

Number of Collisions	Location	Primary Cause of Event	Primary Direction of Travel
15	Deerfoot Trail SE & Glenmore Trail SE	Rear End	E
12	Deerfoot Trail NE & Memorial Drive E	Sideswipe - Same Direction	W
11	Crowchild Trail SW & Glenmore Trail SW	Rear End	S
8	Deerfoot Trail NE & 16 Avenue NE	Rear End	N/E
7	Deerfoot Trail NE & McKnight Boulevard NE	Rear End	N
7	61 Avenue SW & Macleod Trail S	Rear End / Sideswipe - Same Direction	N
6	16 Avenue NE & 36 Street NE	Rear End	N
6	Crowchild Trail NW & Memorial Drive NW	Rear End	N/S

Source: Static data; PIMS (September 2016)

When interpreting these data, it is imperative to consider that these figures represent only the number of collisions and they do not account for associated traffic volumes, weather conditions, collision types, driver experience, or any other variables which may or may not be significant factors. The locations denoted might be associated with intersections, on/off ramps, or mid-block locations, which are in close proximity but not necessarily at the exact specified locations. Collisions occurring on private property, such as shopping mall parking lots have been excluded from the data in order to strictly assess intersection related collisions.
