CALGARY  
POLICE  
SERVICE

RESPECT • HONESTY • COMPASSION • COURAGE • FAIRNESS • ACCOUNTABILITY • INTEGRITY

## Executive Summary

The Calgary Police Service has been tracking the impact of the Covid-19 state of public health emergency on crime, disorder, and collision patterns in the city. Since the state of emergency was declared on March 15<sup>th</sup> 2020, general call and crime volumes have shown noteworthy reductions. Restrictions on gatherings, closures of public spaces and the large portion of the population being home-bound have increased guardianship in residential areas and reduced the opportunity for certain crimes, such as robberies, break and enters and thefts of and from vehicles. As restrictions have been lifted violent crime has shown an increasing trajectory. Although overall calls for service continue to track below expected levels, we are seeing increases in violent crime, citizen's reports of disorderly behaviours and non-criminal domestic conflict.

- There were six homicides during the third quarter of 2021, a 17% decrease from the average for this period. By the end of the third quarter there had been 13 homicides, down 31% from the 5-year average for this period. One of the thirteen homicides was domestic-motivated.
- There has been an increase in the volume and severity of assaults involving a weapon or causing bodily harm. Assaults against police officers are also at a five-year high.
- There has been a noteworthy increase in the presence of weapons in violent crime in the third quarter: there was a 25% increase in firearms, as well as substantial increase in the presence of edged weapons, clubs, blunt objects, and other weapons.
- Non-physical violent crime such as extortion, criminal harassment, harassing communications and uttering threats have increased notably under the influence of the pandemic.
- Commercial robberies are on the rise; a spike in pharmacy robberies contributed to the overall increase.
- The number of victims of domestic violence reported by the end of the third quarter was lower than both last year and the five-year average. This reduction was driven largely by fewer reported 'Level 1' (common) assaults. There was, however, a 24% increase in the numbers of victims reporting more serious assaults. Reports of domestic conflict increased during the third quarter.
- Property crime activity continues to track well below expected levels (19% lower). Property crimes have been most affected by the societal movement pattern changes and restrictions from mid-March 2020 forward. Deep reductions in break and enters, shoplifting, general thefts and vehicle-related thefts have had the greatest impact on crime volume reductions when comparisons are made to pre-pandemic numbers.
- Break and enters were 32% below average by the end of the third quarter: dwelling B&Es were down 41% and commercial B&Es decreased by one-third compared to the five-year average. Vehicle thefts remain nearly one-quarter below the five-year average.
- The total number of police service requests was 6.5% lower than the five-year average by end of the third quarter. Citizen use of the online reporting system was embraced in 2021, growing nearly 50%. Between July and September police attended an average of 1,126 calls a day. Online citizen reports averaged 55 per day.
- Calls about disorderly behaviours increased through the third quarter. Calls about mental health concerns, unwanted guest, threats, and disturbances increased most notably. Disorder calls accounted for an average of 315 calls a day from the Public.

## REPORT NOTES

Most of the statistical data in this report is derived from the Calgary Police Service records management system (SENTRY) and compiled by the Resource and Project Team/Bureau of Service & Community Support. Disorder data is derived from the Computer aided Dispatch (CAD) system.

Reporting is based on the most serious offence in the incident. Please note that offences are assigned to the month in which the offence was reported, which is not necessarily the month the offence occurred. The reported date is the first point in time at which the police were notified of the offence and reporting lag may vary due to circumstances (these are typically property crimes where the victim did not report the offence until a later date, or was unaware of the loss until a later date, or late-reported sexual assaults). Also note that “attempted” offences are included in these totals. Violent crime, excluding robbery, is counted by the number of victims, using the most serious offence against the victim. Robbery, and all other crime, is counted by incident using the most serious offence in the incident. Of note, cases are often cleared months and sometimes years later. Consequently, clearance rates for previous years may appear to be much higher than those of the present year. Cases “cleared by charge” and those “cleared otherwise” are included in these clearance rate totals.

For a more detailed explanation of the offence counting methodology, please contact the Resource and Project Team/Bureau of Service & Community Support.

Source: Sentry, November 2021; Averages have been rounded to the nearest whole number; difference from average is calculated based on the unrounded figure.

<sup>1</sup> Violent crimes are counted at the victim level using the most serious violation against each victim in an incident. <sup>2</sup> Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. <sup>3</sup> Robbery and all other crimes, as well as selected domestic non-criminal incidents, are counted at the incident level using the most serious offence in the incident. <sup>4</sup> Missing persons are counted by the number of missing individuals.

<sup>1</sup>Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. <sup>2</sup>The range of average is calculated as 1 standard deviation above and 1 below the calculated average for the previous five year period.

NOTE: Disorder reported here includes only publicly generated calls. Dispatched, advised and callback calls are included.

<sup>1</sup> Calls for service included in the "mental health concern" component of social disorder are only those calls from the public which are specifically coded as a mental health concern or mental health warrant. It is important to recognize that any call police are asked to attend may involve some element of mental health concern, even though they are not coded as such. This applies particularly to calls about suicide, missing persons or check on welfare, which are not included in this data as they are not considered social disorder. <sup>2</sup> In June 2020 a change to event type coding resulted in the removal of Landlord/Tenant and Neighbour Dispute event subtypes. Calls to events involving these types of disputes are now coded according to the nature of the dispute rather than the relationship between the parties. Some may be represented in other event subtypes within Disorder such as Disturbance, Unwanted Guest, or Property Damage, while others may be coded as Keep the Peace or Assault and as a result would no longer be included in Disorder.

<sup>3</sup> The majority of Property Damage calls result in *Criminal Code* reports, which are counted under 'Other Property Crimes'. <sup>4</sup> The range of average is calculated as 1 standard deviation above and 1 below the calculated average for the previous five-year period.

Source: Sentry, November 2021; Averages have been rounded to the nearest whole number; difference from average is calculated based on the unrounded figure.

<sup>1</sup>Violent crimes are counted at the victim level using the most serious violation against each victim in an incident.

<sup>2</sup>Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. <sup>3</sup>Robbery and all other crimes, as well as selected domestic non-criminal incidents, are counted at the incident level using the most serious offence in the incident.

<sup>4</sup>A change made to the way in which bail violations and failures to appear/attend violations in 2017 makes the numbers for these categories non-comparable across the five-year period.

<sup>5</sup>Missing persons are counted by the number of missing individuals.

<sup>6</sup>**\*\*NEW\*\***Provincial Bill 21 introduced new sanctions for impaired driving offences under the *Provincial Administrative Penalties Act (PAPA)* on December 1st 2020. See page 14 for additional detail on provincial Immediate Roadside Sanctions (IRS) for impaired driving. The implementation of the new provincial legislation (*Provincial Administrative Penalties Act*) has resulted in a significant reduction in impaired offences under the *Criminal Code* as most first time impaired drivers will be subject to only an IRS:FAIL (the specific administrative penalty under the Traffic Safety Act for criminal level impaired driving offences), unless the incident results in death or serious bodily harm or other significant aggravating factors in which case criminal charges should also be pursued.
