Calgary Crime Statistics - Detailed Breakdown	10

REPORT NOTES

Most of the statistical data in this report is derived from the Calgary Police Service records management system (SENTRY) and compiled by the Resource and Project Team/Bureau of Service & Community Support. Disorder data is derived from the Computer aided Dispatch (CAD) system.

Reporting is based on the most serious offence in the incident. Please note that offences are assigned to the month in which the offence was reported, which is not necessarily the month the offence occurred. The reported date is the first point in time at which the police were notified of the offence and reporting lag may vary due to circumstances (these are typically property crimes where the victim did not report the offence until a later date, or was unaware of the loss until a later date, or late-reported sexual assaults). Also note that “attempted” offences are included in these totals. Violent crime, excluding robbery, is counted by the number of victims, using the most serious offence against the victim. Robbery, and all other crime, is counted by incident using the most serious offence in the incident. Of note, cases are often cleared months and sometimes years later. Consequently, clearance rates for previous years may appear to be much higher than those of the present year. Cases “cleared by charge” and those “cleared otherwise” are included in these clearance rate totals.

For a more detailed explanation of the offence counting methodology, please contact the Resource & Project Team of the Bureau of Service & Community Support.

Calgary Crime Statistics Overview

¹ Violent crimes are counted at the victim level using the most serious violation against each victim in an incident. ² Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. ³ Robbery and all other crimes, as well as selected domestic non-criminal incidents, are counted at the incident level using the most serious offence in the incident. ⁴ Missing persons are counted by the number of missing individuals.

NOTE: Disorder reported here includes only publicly generated calls. Dispatched, advised and callback calls are included.

¹Calls for service included in the "mental health concern" component of social disorder are only those calls from the public which are specifically coded as a mental health concern or mental health warrant. It is important to recognize that any call police are asked to attend may involve some element of mental health concern, even though they are not coded as such. This applies particularly to calls about suicide, missing persons or check on welfare, which are not included in this data as they are not considered social disorder. ² In June 2020 a change to event type coding resulted in the removal of Landlord/Tenant and Neighbour Dispute event subtypes. Calls to events involving these types of disputes are now coded according to the nature of the dispute rather than the relationship between the parties. Some may be represented in other event subtypes within Disorder such as Disturbance, Unwanted Guest, or Property Damage, while others may be coded as Keep the Peace or Assault and as a result would no longer be included in Disorder.

³ The majority of Property Damage calls result in *Criminal Code* reports, which are counted under 'Other Property Crimes'. ⁴ The range of average is calculated as 1 standard deviation above and 1 below the calculated average for the previous five-year period. *2019 data excludes December 31st due to technical issues.

¹Violent crimes are counted at the victim level using the most serious violation against each victim in an incident. ²Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. ³Robbery and all other crimes, as well as selected domestic non-criminal incidents, are counted at the incident level using the most serious offence in the incident. ⁴A change made to the way in which bail violations and failures to appear/attend violations in 2017 makes the numbers for these categories non-comparable across the five-year period. ⁵Missing persons are counted by the number of missing individuals.
