Good Guest Guide

What to expect from your
short-term rental experience

Introduction

This guide gives guests of short-term rentals an idea about what to expect from their short-term rental experience in Calgary and offers a few suggestions about what to do in Calgary.

As of February 1, 2020, The City of Calgary requires all short-term rentals in Calgary to be licenced under our Business Licence Bylaw. Look for the business licence number posted on the website where you booked your short-term rental — The City requires all operators to post the number in all advertising.

What to look for in your accommodation

As a licenced operator, your host is required to follow bylaw regulations based on the number of rooms available for rent in a property.

You are renting four rooms or fewer

Your short-term operator is required to ensure basic safety standards are in place under the Business Licence Bylaw. Here is an overview of what you can look for:

- The room you are sleeping in must have an egress window which provides an alternative escape route in the event of an emergency. Multi-storied apartment/condo buildings and lofts do not require egress windows as they have existing fire and life safety measures.
- The operator cannot allow more than two adults (not including minors) to sleep in a room.
- Operators cannot accept more than one booking at a time, however, one person can make the reservation on behalf of a group.
- Operators must provide emergency contact information to guests in a conspicuous location.
- Your operator must keep record of the booking guests information which includes name, email address and total number of guests.

You are renting five rooms or more

In addition to the requirements above, your operator is required to follow safety standards identified through The City's fire safety inspection.

A good guest, a good neighbour

The City of Calgary has bylaws in place to ensure good neighbour relations and to help keep communities safe and enjoyable for residents and visitors. The City's web site has a host of information to address specific questions at calgary.ca/goodneighbour. Here is a brief overview of common issues that sometimes arise:

Noise

All residents have the right to not be disturbed by noise. Sound is restricted to certain levels during the daytime and at night. Please turn down music and reduce noise levels between **10 p.m. and 7 a.m. Monday to Saturday and 10 p.m. to 9 a.m. on Sundays and holidays.**

Permitted vehicle parking

Like all major cities, knowing where to park can help make your stay in Calgary more enjoyable. Some residential streets in Calgary have areas designated for permit parking only. In these areas, your operator must register your licence plate number with The Calgary Parking Authority. Parking in these areas without being registered may result in a parking fine. If signage is not listed, parking is free in residential neighbourhoods.

Park Plus system

Instead of parking meters, Calgary uses the Park Plus system in the downtown and surrounding areas. Signs are posted on streets and in parking lots and parkades where this pay system is used indicating the zone number and maximum length of parking. When you see one of these signs, take note of the parking zone number and your licence plate—this information will be required at the pay machine.

Visit calgaryparking.com for more information about parking in Calgary.

Garbage and recycling

Calgary has a waste and recycling program that supports recycling and composting programs and environmental targets. All residential home owners are provided with three separate bins for waste disposal:

- Black bin – Garbage (items that can't be recycled or composted in our facilities)
- Blue bin – Recyclables
- Green bin – Compostable material

Your operator should provide access to these disposal bins to help divert waste from landfills. Under the Calgary Community Standards Bylaw it is an offence to allow garbage and waste to accumulate in yards. The City provides a searchable web page to help residents sort waste at calgary.ca/WhatGoesWhere
