

A vibrant, abstract illustration featuring several hands of different skin tones (pink, orange, brown, red) interacting with various geometric shapes and patterns. The shapes include circles, triangles, squares, and rectangles, some with textures like polka dots, stripes, or grids. The background is a light beige color with scattered geometric outlines.

FSII FAQs

Links and Resources

What is FCSS?

- **F**amily & **C**ommunity **S**upport **S**ervices
- Provincial-municipal funding partnership
- Preventative programs to enhance social well-being of individuals, families, and communities
- Each municipality decides their own priorities
- Municipal responsibility to monitor programs and submit data to GoA

FCSS Programs and Services Outcomes

Increased positive
child and youth
development

Enhanced economic
self-sufficiency

Growth in positive
social ties

Improved family
functioning and
positive parenting

Enhanced
Indigenous healing
and wellbeing

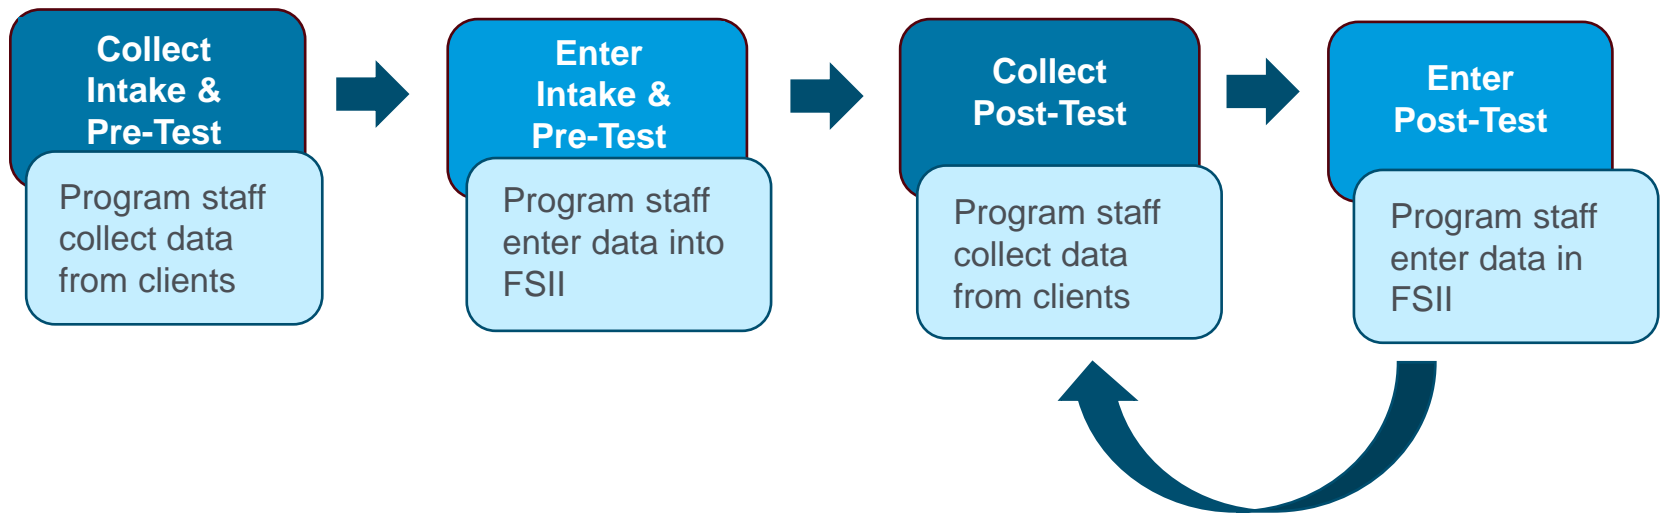

Increased social
inclusion

How do we measure this?

FSII Surveys

- 30 surveys to choose from
- Used to collect data on program participants
- Demographic survey, pre- and post-test surveys
- A tool to assess alignment to the mid-term outcome areas and how programs are collectively impacting social inclusion in Calgary
- The data does not represent a full evaluation of individual programs

Collecting and Entering FSII Data

Enter data in FSII every month by the 15th

Important dates:

- July 15 – deadline to enter data for semi-annual reporting
- January 15 – deadline to enter data for annual reporting

Collecting FSI Data

Who should you survey?

- Program clients in the target population
- If children and youth – only those over Grade 4

Do not survey “contacts”

When should surveys be completed?

- An **intake** and **pre-test** should be completed when a client starts the program.
- A **post-test** should be completed ~4-6 months after the pre-test, at regular intervals (e.g. every 6 months), and when the client completes the program.

Timing depends on your program cycle

What is FSII?

FCSS Social Inclusion Indicators

- FSII is a data entry system

What can you see and do in FSII?

What You Can See

- Your agency's FCSS funded program(s)
- Surveys assigned to your specific program(s)
- History for clients in your program(s)
 - Title of forms entered and how many
 - Date form was entered into FSII

Cannot see answers already entered.

What You Can Do

- Enter client data
- Generate tables for a given time period:
 - Number of clients entered
 - Number of forms entered

Cannot make changes to data already in system.

How to enter data into FSII

Let's enter some data!

Today's live session - Watch the demonstration

In your own time - *To follow along or practice, use the training ID & password below:*

X Do NOT use an FSII account for your organization. That would skew your data!

- ✓ Go to: <https://fsii.calgary.ca>
- ✓ Enter the training user ID and password
 - **ID:** fcss.indicators@calgary.ca
 - **Password:** FCSSdata1!

FSII FAQs: Key Dates

“What do the different dates mean in FSII?”

Registration Date

Date the **client** was **registered** into your program.

Test Date

Date(s) the **client** **completed**:

- FSII Intake
- FSII Pre-test
- FSII Post-test

Submission Date

Date(s) you **enter data** for:

- FSII Pre-test
- FSII Post-test

“How do I get an FSII Account?”

If you do not have a FSII Account, here’s how to get one:

- ☐ Check with your Manager/Supervisor to make sure that you require an FSII Account
- ☐ Click on the link below and fill in your contact information:
<https://fsiiaccountrequest.questionpro.ca>

You will receive an automatic email from FSII within 1-2 business days

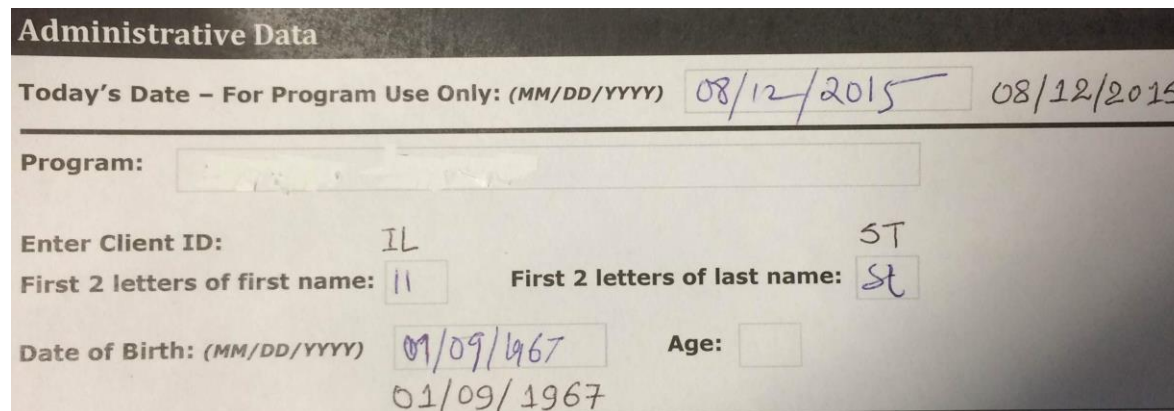

- The first time you sign in, you must change your temporary password

“How can I keep Initials and Date of Birth consistent? And why is this so important?”

- Client initials and date of birth are used to search for clients in FSII
- If the client initials or date of birth are not consistent, you will not be able to find your client in FSII

Tips to help you keep client details consistent:

- ❑ Note down initials and Date of Birth on the intake form (see below)
- ❑ Be sure to use a **Client Tracking Sheet** (available on the website)

Administrative Data

Today's Date – For Program Use Only: (MM/DD/YYYY) 08/12/2015 08/12/2015

Program: [Redacted]

Enter Client ID: IL ST

First 2 letters of first name: IL First 2 letters of last name: ST

Date of Birth: (MM/DD/YYYY) 01/09/1967 01/09/1967

Age: [Redacted]

“When should I discontinue a client in FSII?”

Client/Program Changes:

- When a client is discharged from the program
- When a program cycle ends
- When a client left your program
- When a client moved out of Calgary
- When a client dies

Data Entry Errors:

- When you realize that you made a mistake in data entry
- When a client was entered into an incorrect program

“What if a client is entered into the wrong program?”

- X You will not find that client in the correct program
- X You can't enter client's post test
- X The client counts are higher in the incorrect program and lower in the correct program
- ✓ **So, it's important to double check that the program is correct!**

“What are some reasons behind why I can't find a client on FSII?”

- Client was originally entered in an incorrect program
- Wrong initials and/or Date of Birth or Age
- Data was thought to be entered, but was not actually entered

“How can I keep track of client information?”

- Use a Client Tracking Sheet (available on our website ([Resources for FCSS Funded Organizations](#)))
- ✓ We strongly recommend programs use this sheet to keep track of client information
- ✓ This tool is valuable when you run into data entry challenges and helps ensure consistency of data entry.
