Glossary

The definitions in this glossary are adapted from the 2016 Statistics Canada Census Dictionary ([98-301-X](#)).

Aboriginal identity

Refers to whether a person reported being at least one of the following:

- An Aboriginal person, that is First Nations (North American Indian), Métis or Inuk (Inuit)
- A registered or Treaty Indian (as defined by the Indian Act of Canada)
- A member of a First Nation or Indian band.

Adjusted after-tax income

Refers to after-tax income during the [income reference year](#) that has been adjusted to account for household size. Adjustments for household size reflect the fact that a household's needs increase as the number of members increase, although not necessarily by the same proportion per additional member. For the census, this adjustment is calculated by dividing the household income by the square root of the household size and assigning this income to each person in the household. Used to determine whether a household is in low income based on the [low income measure after-tax \(LIM-AT\)](#).

Admission category

Refers to the name of the immigration program or group of programs under which an immigrant has been granted for the first time the right to live in Canada permanently by immigration authorities.

- **Economic immigrant** includes immigrants who have been selected for their ability to contribute to Canada's economy through their ability to meet labour market needs, to own and manage or to build a business, to make a substantial investment, to create their own employment or to meet specific provincial or territorial labour market needs.
- **Immigrant sponsored by family** includes immigrants who were sponsored by a Canadian citizen or permanent resident and were granted permanent resident status on the basis of their relationship either as the spouse, partner, parent, grand-parent, child or other relative of this sponsor. The terms "family class" or "family reunification" are sometime used to refer to this category.
- **Refugee** includes immigrants who were granted permanent resident status on the basis of a well-founded fear of returning to their home country. This category includes persons who had a well-founded fear of persecution for reasons of race, religion, nationality, membership in particular social group or for political opinion (Geneva Convention refugees) as well as persons who had been seriously and personally affected by civil war or armed conflict, or have suffered a massive violation of human rights.
- **Other immigrant** includes immigrants who were granted permanent resident status under a program that does not fall in the economic immigrants, the immigrants sponsored by family or the refugee categories.

Age

Refers to the age at last birthday before the [census reference day](#), May 10, 2016.

Calgary

Refers to the Calgary census subdivision (CSD), as defined by Statistics Canada. Equivalent to the Calgary city limit.

Census family

Refers to a married couple (with or without children), a common-law couple (with or without children), or a lone parent family. A couple may be of same or opposite sex. Grandchildren living with their grandparent(s) but with no parents present also constitute a census family.

- **Children** may be children by birth, marriage, common-law union or adoption *regardless of their age* or marital status as long as they live in the dwelling and do not have their own married spouse, common-law partner or child living in the dwelling.
