Accessing your Mi7 free warm up buckets

Download the Select Pi app: Select Pi on Apple or Select Pi on Google Play

Once you download the **Select Pi app**:

- Create an account **using the same email address you use for your City of Calgary Golf account** and set your location to City of Calgary. Your select email must match your City of Calgary golf account email.

You're Set! Go to the driving range, open the Select Pi app, click the 25 balls option, scan the barcode directly at the ball machine, and get a free warm up bucket of range balls. Repeat daily, every day all season. 😊

NOTE:
- You DO NOT have to have a tee time or be golfing to access the free warm up bucket. You can simply go to the range and get one free warm up bucket every day.
- This offer is for your personal use only.
- Our clubhouse staff CANNOT process Mi7 range buckets or assist with Select Pi account access.
