

Calgary has an amazing collection of public art built by the creativity and generosity of individuals and organizations. The twelve shelters along the Purple MAX line from Easthills shopping centre along 17th Avenue S.E. into downtown, features artists who live, work or have a connection or has a connection to the Greater Forest Lawn neighbourhood, and International Avenue.

The theme of the artworks is international foods, which celebrates the cultural diversity and uniqueness of the neighbourhood, and captures the personality of the area. The art in the MAX shelters also creates a strong visual identity of the area as people move through and around the community.

Please enjoy the art as you drive by on the MAX. It's Calgary's art and it's for us all to enjoy.
