

Concepts 2 and 3: Types of possible flood barriers

Barrier Example 1

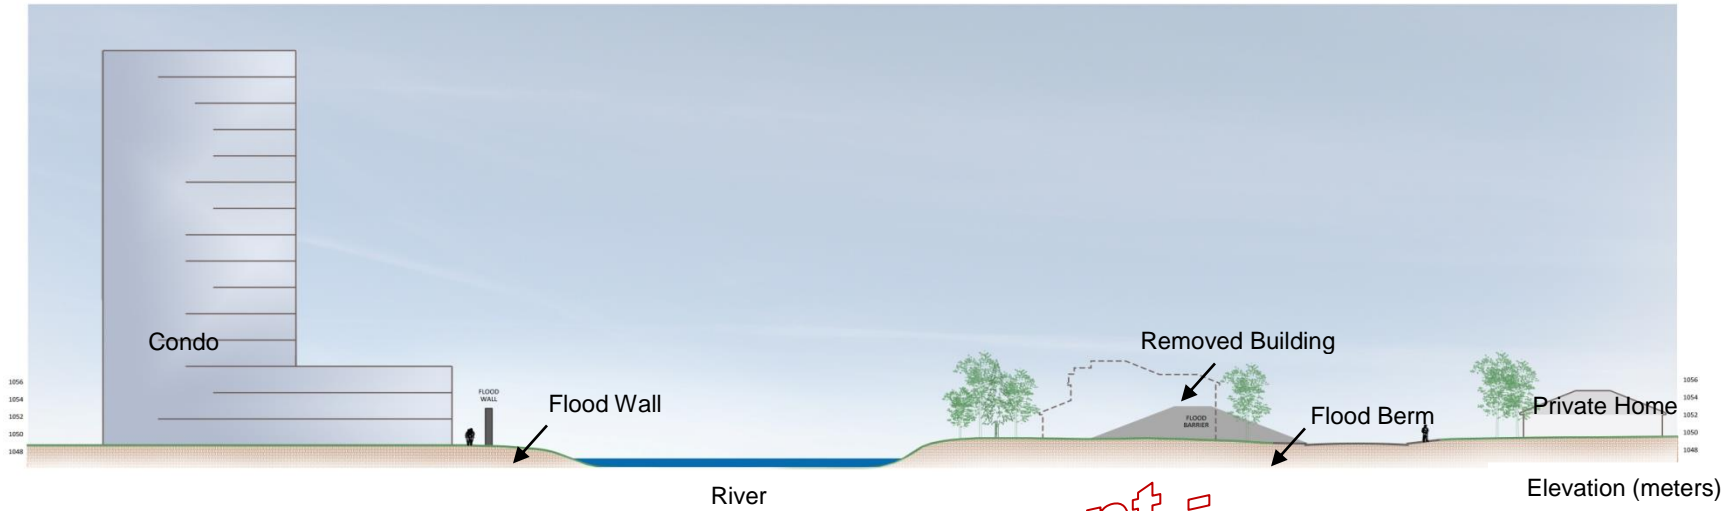

Barrier Example 2

NOTE: These examples represent the estimated heights and widths of barriers required in Calgary to protect communities at the 1:200 year flood level. Not all barrier examples are applicable or feasible for all locations or communities.

Barrier Example 3

Barrier Example 4

*Preliminary Concept -
For Discussion Only*

NOTE: These examples represent the estimated heights and widths of barriers required in Calgary to protect communities at the 1:200 year flood level. Not all barrier examples are applicable or feasible for all locations or communities.
