

Shepard Maintenance and Storage Facility Utility Works

Notice Date: September 16, 2025

On September 16, Green Line is beginning work at the future Shepard Maintenance and Storage Facility (MSF) to install utilities. Minimal construction impacts are expected as this stage of work is contained within the MSF site. However, potential impacts include increased truck traffic on 40 Street S.E., construction noise and extended working hours.

What

Installation of utilities

When

September 16 – mid-January 2026

Where

North of 126 Avenue and 48 Street SE

Impacts

Increased truck traffic

Construction noises

Extended working hours

Legend

Impacted area

Active construction

Green Line LRT

What is the work?

This stage of work on the MSF is for installation of deep utilities, including the storm sewer, sanitary sewer, and watermain infrastructure. Construction is expected to begin on September 16 and conclude in mid-January 2026. Site access and construction vehicle traffic is restricted to 40 Street SE.

For more information or if you have any questions, please call 311 or email the project team at greenline@calgary.ca

About Green Line LRT – SE Project

The SE Segment, from Shepard in the southeast to the Event Centre/Grand Central Station in the Beltline, will build the first 16 kilometres of an overall 46-kilometre vision, before connecting with the future Downtown Segment and into the existing Red and Blue LRT Lines. Including the Downtown Segment, Phase 1 will build, 17.2 kilometres of twin-track LRT infrastructure, 12 new stations, a maintenance and storage facility, three Park and Ride lots, and 28 new modern low-floor light rail vehicles.
