Green Line LRT

NOTICE

114 Ave and Barlow Trail S.E. – Fall and Winter 2026 Lane Closures for Elevated Guideway Construction

Notice Date: September 28, 2026

In late-September 2026, construction of the elevated guideway over 114 Ave and Barlow Trail S.E. will begin. The fall 2026 phase of construction will require varying single-lane closures along 114 Ave S.E. to accommodate pier construction. Traffic flow will be maintained in all directions; there are no full closures as part of this phase of work. Please follow all traffic signage in the area. The second page of this notice provides additional detail on lane closures. Updates on construction impacts will be communicated via subsequent notices throughout the year.

What

Elevated guideway construction

Where

114 Ave S.E. and Barlow Trail S.E.

When

Late September – mid-December 2026

Impacts

Lane closures

Green Line LRT

Specific Lane Closures

The following is a list of the specific single-lane closures that will be taking place. The single-lane closures will alternate from late September until mid December. All closures are located in the red area on the map above.

- Westbound 114 Avenue S.E. right lane closure
- Westbound 114 Avenue S.E. left lane closure
- Eastbound 114 Avenue S.E. right lane closure
- Eastbound 114 Avenue S.E. left lane closure
- Eastbound 114 Avenue S.E. to southbound Barlow Trail S.E. right outside turn lane closure

What is an elevated guideway?

An elevated guideway is a raised above-ground track structure used in many public transit systems. The use of an elevated guideway over 114 Ave and Barlow Trail S.E. eliminates the need for a level crossing where cars and pedestrians would need to stop frequently to allow the trains to pass.

How can I stay informed?

Visit Calgary.ca/GreenLine for more information about the Green Line LRT Project, current construction, and to sign up for the Green Line newsletter.

If you have any questions, please call 311 or email the project team at greenline@calgary.ca

About Green Line LRT Project

Phase 1 of the Green Line LRT Project connects Shepard in the southeast to Calgary's downtown and marks the first stage of the project's ultimate 46-kilometre vision. This phase will deliver 17 kilometres of twin-track LRT infrastructure, 11 new stations, a maintenance and storage facility, three Park and Ride lots, and a fleet of 28 modern low-floor light rail vehicles.
