

Bearspaw South Feeder Main replacement construction

June 23, 2026

The City is expediting the construction of a replacement for the Bearspaw South Feeder Main due to the critical condition of the current pipe. The replacement project will add a parallel steel pipe to take over service from the current line and is expected to be completed in December 2026.

Feeder main construction will begin in two new locations on 34 Avenue N.W. beginning July 1, 2026.

Where we are working

- **July 1, 2026:** 73 Street N.W., between Bonita Crescent and 34 Avenue N.W.
- **July 4, 2026:** 34 Avenue N.W., from 86 Street to 87 Street N.W.
- Construction already underway on 34 Avenue N.W. Between 79 Street to 80 Street N.W. and from 85 Street to 86 Street N.W. will continue.

Construction details

Crews will be excavating within the public right-of-way to install a new feeder main. Construction will be completed using an open-cut method.

Open-cut construction involves:

- Excavating a trench along the public right-of-way
- Installing the new pipe directly in the open trench
- Backfilling the trench and restoring the surface

Construction impacts

As a resident in the community, you should expect the following impacts:

- Crews will be working Monday - Saturday 6:30a.m. – 9p.m, Sunday as required.
- Heavy equipment and other construction vehicles around construction sites.
- Traffic impacts and detours. Temporary street parking impacts.
- Driveway access may be impacted for some residents. City representatives will be reaching out to impacted property owners directly.
- Fenced areas for equipment and supplies.
- Noise, dust and vibrations.
- There are no planned water, gas or electric outages, but temporary shutoffs may be required.
