

Bearspaw South Feeder Main replacement construction

June 24, 2026

The City is expediting the construction of a replacement for the Bearspaw South Feeder Main due to the critical condition of the current pipe. The replacement project will add a parallel steel pipe to take over service from the current line and is expected to be completed in December 2026.

To support feeder main construction in the area, the green space at 89 Street N.W. between 33 Avenue N.W. and 34 Avenue N.W. will be used as a construction laydown and storage area.

Construction laydown area details

- Beginning June 24, 2026, the green space at 89 Street N.W. between 33 Avenue N.W. and 34 Avenue N.W., will be used for construction and feeder main pipe storage.
- There will be no street parking permitted on 89 Street N.W. between 33 Avenue N.W. and 34 Avenue N.W.
- Both the basketball court and the playground will remain open.
- This area will be fenced off and is expected to remain active until the end of the project in December 2026.

Community impacts

As a resident in the community, you should expect the following impacts:

- Crews, heavy equipment and other construction vehicles will be active in the area Monday – Saturday, 6:30a.m. – 9p.m, and on Sunday as required.
- Fenced areas for equipment and supplies.
- Noise, dust and vibrations.
