

Bearspaw South Feeder Main: Extended construction hours

November 19, 2026

We are in the final stages of construction on the new Bearspaw South Feeder Main. To remain on schedule at all connection locations, **we will temporarily extend construction to 24 hours a day at the intersection of 33 Avenue N.W. and 83 Street N.W.** as we connect the new feeder main to the existing water system.

Construction location

Extended construction work hours will have additional impacts in the area surrounding the intersection of 33 Avenue N.W. and 83 Street N.W.

Construction details

- Beginning November 19, 2026, we will temporarily extend construction work hours to 24 hours a day.
- Once the feeder main connection is complete, crews will return to regular construction hours to complete community restoration, including road paving, sidewalks, curbs and landscaping.

Construction impacts

As a resident or business in the community, you should expect the following impacts:

- **Construction crews will be working 24 hours a day.**
- Expect construction noise overnight, including from generators, heavy machinery and other equipment. Construction lighting will also be in use through the night to ensure the safety of our crews.
- Expect significant traffic impacts, including road detours, lane restrictions and parking impacts.
- Sidewalk closures and pedestrian detours will be in place.
- Residents near the work area will experience noise, dust and vibrations from construction activities.
- No natural gas or electricity outages are planned.
- No additional tree trimming or landscaping impacts are planned.
- Transit routes may be impacted. Visit calgarytransit.com for the most up-to-date route and schedule information.

24/7 Construction

We understand that 24/7 construction can cause disruptions and discomfort. To help support the community, the BSFM Community Resource Centre team can work with you to provide tailored solutions, such as, recreation passes, sleep-kit items or alternative accommodations. To learn more about these options please visit the BSFM Community Resource Centre during our operating hours (listed below), or email the project team at BSFMproject@calgary.ca.

Bearspaw South Feeder Main: Extended construction hours

November 19, 2026

Stage 4 water restrictions

Connecting the new feeder main to the existing water system will take approximately four weeks. During this time, the existing Bearspaw South Feeder Main will be temporarily shutdown, significantly reducing how much water can be distributed across the city. As a result, city-wide Stage 4 outdoor water restrictions and voluntary indoor water conservation will be required for approximately four weeks. Learn more at calgary.ca/savewater.

Project information or questions

If you have construction questions, or want to discuss specific challenges, you can reach us in the following ways:

- **In person:** Visit the Bearspaw South Feeder Main Community Resource Centre at the Bowness Community Association, 7904 43 Ave. N.W. The Centre is open:
  - Monday and Wednesday, 9 a.m. – 5 p.m.
  - Tuesday and Thursday, 10 a.m. – 7 p.m.

- **Email:** Contact the team at BSFMproject@calgary.ca Share your needs or questions, and they will follow up directly.
- **Call 311** and ask to be contacted by a member of the project team.
- **Online:** Visit calgary.ca/BearspawFeederMain for up-to-date information about construction.
