

CLIMATE RESILIENCE INVENTORY

Additions and New Buildings

Development Permit Number

For a helpful resource to assist in completing this form, please refer to the "[Climate Resilience Inventory User Guide](#)". For assistance contact CPclimate@calgary.ca.

Project Address		Applicant
Applicant Contact Name	Applicant Business Phone ()	Signature

Purpose: This form is intended to assist in the evaluation of applications for alignment with the climate policies of the Municipal Development Plan and Climate Resilience Strategy. Information provided will be used to advance implementation of these policies at The City and inventory current practices. While The City encourages innovation and commitment towards meeting these policy requirements, not all applications will be expected to include features which are highlighted below. Scale and scope of the project are relevant considerations.

Certification

Is the project seeking green building certification?

- Yes (indicate type and level) _____
- No (explain why not) _____

Does energy modelling indicate improved energy performance over energy code minimum?

- Yes _____

Energy Efficiency and Renewables

Describe any energy efficiency features of the proposed development and/or how renewable energy will be incorporated:

- Photovoltaics:** ____ kW rated output

Electric Vehicles

Describe if and how the proposal will support electric vehicles:

- EV charging stations** (indicate level, number, and % of total stalls) _____

Green Infrastructure

Describe any LID and other green infrastructure features the proposed development is utilizing:

- Green Roof:** _____ m² and _____ % of building footprint covered by green roof
- Permeable surfaces:** _____ m² and _____ % permeable area

Flood and Disaster Resilience

Describe any flood and disaster resilience features of the proposed development:

Building envelope meets Passive House Standard

Other Features

Explain any other sustainable or resilient design features that are not captured above:

Issues

To enable the City to collect information where there may be municipal obstacles to climate resilience outcomes, please explain any design features that were considered but not included for reasons related to City regulations, standards, or processes:
