Development Permit Complete Application Requirement List

New Single Detached, Semi-detached and Duplex Dwelling:

In the Developed Area

The following development permit application requirement List outlines all of the information necessary to evaluate and provide a timely decision on your application. Only applications that are complete will be accepted. Applications and materials submitted must be clear, legible and precise. All plans must be clear of any previous approval stamps and/or notations

Plans submitted must be to a professional drafting standard and include the following:

- **contain a title block with information such as:**
 - address and legal description (plan; block; lot)
 - uses, project name
- **be sorted into sets:**
 - sets should be folded to a size no larger than 8-1/2" x 14" (21.5 x 35.5 cm)
 - each set must be stapled or taped together
 - sets may be accordion-pleated, provided they can be hole punched in the top left-hand corner
- **paper size:**
 - all plans submitted must be on the same sized paper
 - drawings are clear and legible
 - drawings must be contained on each page (one plan should not span two pages)

NOTE: Building and Development Permit applications must be submitted without personal information on any plans. Omitting this information will protect builders and tenants by reducing the risk of any personal information being wrongfully displayed, while also following the Province of Alberta’s FOIP Act. Failure to follow this requirement may result in an incomplete application. If you consider the information to be personal, do not put it on the plans.

The Development Authority may require additional material considered necessary to properly evaluate the proposed development (as stated in Part 2 section 26(3) of the Land Use Bylaw 1P2007).

Processing Times and Deemed Refusals

Applicants are advised of their option under the Municipal Government Act to treat their application as being refused if the Development Authority fails to make a decision within 40 days of the application being accepted by the Development Authority, or at the expiry of an extended review timeframe specified by a time extension agreement between the Development Authority and Applicant. [Time extension agreements](#) must be initiated by the Applicant.

To exercise the “deemed refusal” option, an appeal to the Subdivision and Development Appeal Board must be filed within 14 days of the latest specified date for the review, or the right to an appeal is lost until such time as a decision is rendered on the application by the Development Authority.

-
-

-
-
-
-

Label finishing materials:

exterior materials (brick, stucco, vinyl siding, metal siding)
 roof materials (asphalt, cedar shakes, concrete tile, metal)
 colours of all major exterior materials

-
-
-
-

-
-
-
-

Grade:

plot existing and proposed grade extending to property lines
 plot property lines (extending vertically)
 plot all geodetic datum points required on Site Plan

-
-
-
-

-
-
-
-

Building height (indicate on all elevations):

plot line for main floor
 dimension height (vertically) of building from existing and proposed grade
 dimension height of structures (fences, retaining walls) from existing and proposed grade

17. One (1) copy of a Cross-Section, including:

-
-
-
-

-
-
-
-

Cross-section of sloping driveways:

indicate slope and include transition lengths
 provide geodetic datum points at transition points in ramp (including top and bottom)
 dimension overhead clearance

Cross-sections may be required if there are retaining walls on the parcel that are one metre or higher, or to provide more information on the impact of the proposed building on the adjacent properties, including:

-
-
-
-

-
-
-
-

existing and proposed grade of parcel
 grade of adjacent parcels and City streets
 cross-sectional outline of the building
 geodetic datum points

Supporting Information:

18. Slope Stability Report including:

-
-
-

-
-
-

slope across the property is fifteen (15) per cent or greater; and/or
 development is to be located within a zone where an imaginary line, drawn from the toe to the top of an embankment, exceeds a slope of one in three; and
 required by City Engineer

19. Information on the installation of weeping tile, or a geotechnical report on groundwater if seeking exemption from the weeping tile requirement as per Section 3.3.6.2.2 of the Stormwater Management and Design Guidelines.

20. Building Code Information

(screened by a Safety Codes Officer at the time of application)

-
-

-
-

provide calculations for spatial separation (on each side elevation drawing)
 label point of egress for floors above the second floor (on elevation drawings)

21. Off-site Levy Bylaw

Review the Off-site Levy Bylaw at calgary.ca/offsitelevy to determine if additional charges are applicable to the application.

Initial by applicant

If parcel is located within the area governed by the Airport Vicinity Protection Act (AVPA) clearly label the NEF layer to which the parcel is located. AVPA calculations will be required at time of Building Permit application. If you are uncertain as to the location within the AVPA phone 403-268-5311.

NOTE: This application does not relieve the owner or the owner's authorized agent from full compliance with the requirements of any federal, provincial or other municipal legislation, or the terms and conditions of any easement, covenant, building scheme or agreement affecting the building or land.
