

Buying & selling catalytic converters?

The City of Calgary made changes to the Business Licence Bylaw (32M98) to help prevent the theft of catalytic converters.

As of July 4, 2023, salvage collectors and salvage yard/auto wreckers cannot:

- Accept damaged catalytic converters
- Remove or deface markings or etchings on a catalytic converter

Before we buy your catalytic converter, we're required to ask for:

- First name, middle name and surname
- Current address and telephone number
- Height, weight, hair colour and eye colour
- Two pieces of ID
- VIN, make, model, colour and year of the vehicle the catalytic converter came from

We're also required to keep a record of:

- The full name of the employee who accepted the property
- The date and time of day the property was acquired

Salvage collectors and salvage yard/auto wreckers are required to maintain sale records with the above information for a period of one year.
