

Marda Loop Main Streets February 2023 Update

Since the start of 2023, we've hosted 13 meetings with the community to refresh conversations on the project, discuss the proposed design, and share an update on next steps. These conversations have been informative and constructive, with residents and businesses sharing their thoughts about the design and construction. We've noted the themes that we heard and will be sharing these internally for further consideration.

Below is the recording from our virtual public information session on Feb. 1 for those who couldn't attend.

We heard through our conversations that people are interested in construction details so they can be prepared, and that's much of our focus this month. We are working to onboard a contractor and with their expertise, we will finalize the schedule, plan of approach, and more. We'll continue to connect with the community as we confirm these details to ensure businesses and residents have all the information they need.

We will also be in touch with specific businesses and residents in the coming weeks to discuss design impacts with those directly affected.

You can always reach the project team at MardaLoopMainStreets@Calgary.ca.

We want to thank the Marda Loop community for its continued support and patience during the engagement and planning processes.
