

Marda Loop Main Streets March Detour Updates

We have learned of several upcoming detours to support the work of our partners at ATCO and ENMAX. These date estimates are weather dependent, and are outlined in the maps below.

- **33 Avenue from 19 to 20 Streets S.W. will be a one-way, westbound traffic for the month of March.** This is required to support ATCO's gas line relocation work.
- **Northbound traffic will be restricted from 34 Avenue at 19 Street S.W. from March 5 to 13.** Local traffic only will be permitted on 19 Street south of 33 Avenue S.W. in support of ENMAX's underground work.
- **The north sidewalk on 36 Avenue east of 19 Street S.W. will be closed March 5 to 14,** also in support of ENMAX's underground work. Flaggers will be onsite to support traffic and pedestrians in the area during the closure.

UPDATE: Due to the recent winter weather, the detour on 33 Avenue S.W. west of 21 Street S.W. will need to remain in place longer than originally anticipated. We are working with our partners at ATCO to reopen this as soon as possible.

Upcoming Detour Change

Where: 33 Ave 21 to 19 St
What: One-way vehicle traffic westbound
When: **March 4 – March 29** (*weather dependent)
Why: Atco Gas line relocation

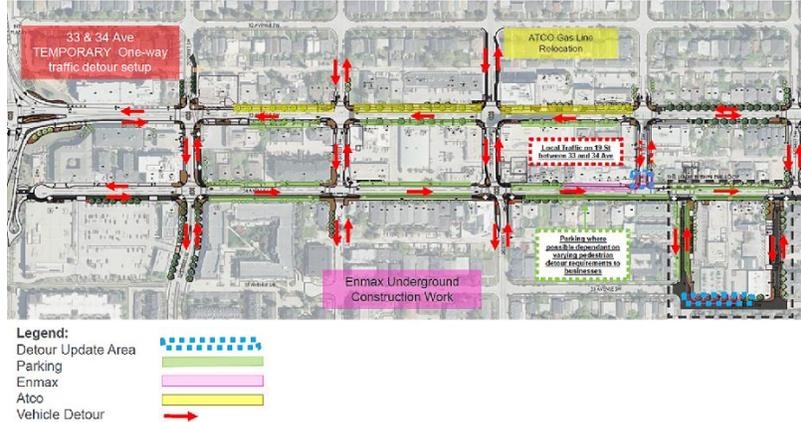

Legend:
Detour Update Area: Blue checkered box
Parking: Green box
