

Work Completed

This season crews were working between 28 and 33 Avenue SW to start the transformation of 37 Street. Work included new sidewalks, a multi-use pathway, street lights, wheel chair ramps, and improved pedestrian crossing in the area.

Work We Will Finish This Season

- Landscaping on private property
- Boulevard landscaping
- New street light installation

Work We Will Complete in 2021

- Final paving and road marking
- Street trees will be planted next spring to ensure they can grow and flourish

Parking

Once crews are done for the construction season, parking on 37 Street SW will be restored, with some restrictions. Parking will be restricted, Monday to Friday, between 7 and 9 am, and 3 and 6 pm. There will be no parking restrictions along 37 Street SW on weekends. Crews will be installing signs in the next few weeks with these new parking restrictions. If you have any questions about parking, you can contact the project team at mainstreetsconstruction@calgary.ca

Winter 2020

- Some barriers and signage will remain in place over the winter at the south end of 37 Street SW so drivers are aware of the slight shift in the road.
- The pedestrian crosswalk on the south side of 33 Avenue SW will be open over the winter and we will complete the north side next season.

The New 37 Street Main Street Will Include

- A new multiuse pathway on the east side of 37 Street.
- A wider sidewalk, and boulevard separating vehicles and pedestrians, on the west side of 37 Street.
- A new road surface between Bow Trail and Richmond Road SW.
- Enhanced pedestrian crossings, and a new boulevard space including approximately 300 new trees planted on 37 Street SW.
