

Complete Building Permit Application Requirement List

Addition and New Building

In a Commercial, Industrial or Special Land Use District

This checklist outlines all the information necessary to evaluate and provide a timely review and issuance of your application. Applications and materials submitted must be clear, legible, and precise. Plans/drawings stamped with “not for construction”, “preliminary”, or “for permit purposes only” are not acceptable. Not all items may be required for exterior alteration work only.

For help with your drawings visit calgary.ca/drawingstandards for tips and examples

NOTE: Building and development permit applications must be submitted without personal information on any plans. Omitting this information will protect builders and tenants by reducing the risk of any personal information being wrongfully displayed, while also following the Province of Alberta’s FOIP Act. Failure to follow this requirement may result in an incomplete application. If you consider the information to be personal, do not put it on the plans.
