**elsieartdesigns.com**

I am a multidisciplinary Artist/Designer who loves to experiment with different mediums & is currently focusing on paper craft. I create everything by hand and the creations i make are all self taught so I am a patient individual who can handle stress really well. I have also been working on multiple projects, from east village (art(iOS), Avenue magazine, Holy Renfrew, etc and has also done work in Australia and the United States.
