Upcoming road closure on Belmont Avenue in mid-May

We are reaching out to share information regarding upcoming road closure in your area related to the Belmont Fieldhouse and Library. This essential work involves the installation and testing of the drinking water, sanitary, and storm water systems that will serve the new facility.

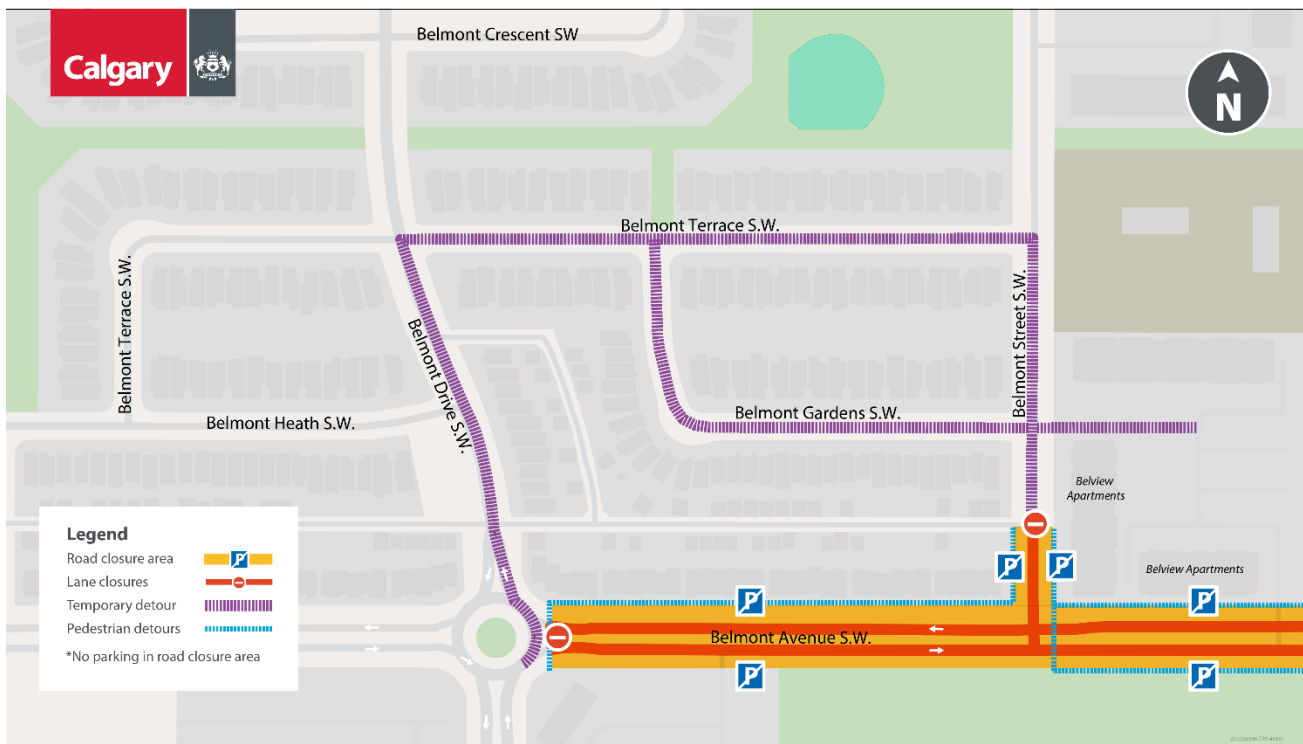

The project team will complete the final connections for the sanitary and storm lines, which have already been built from the facility to the Belmont Avenue sidewalk. These activities will link the new building to The City's main service network to ensure proper drainage and water flow.

Road closure area

The road closure is anticipated to begin on **Friday, May. 15**, along a portion of **Belmont Ave., east of Belmont Drive S.W.**, and is expected to **last approximately a week**, weather dependent.

Traffic along Belmont Ave. will be impacted, however, two-way vehicle access to Belview Apartments from Belmont St. and access to Belmont Park Townhomes from Belmont Drive will remain open. Please follow all road closure and detour signage. We recognize this road closure will impact community members who park their vehicles on Belmont Ave. We appreciate your patience during this time. No interruptions to water, sanitary, or storm services are expected, and the project is anticipated to be completed within schedule.

Open field closure

To ensure public and worker safety, parts of the open field located south of Belmont Ave. S.W. will be closed to the public during the deep utility construction. Please watch for signage.

Schedule

Deep utility construction is scheduled to begin in your area on Friday, May. 15 and is anticipated to last approximately a week, weather dependent.

Construction impacts

We anticipate closures to open spaces, sidewalks and streets during the deep utility construction. These areas will have temporary no parking signs. During this time, we would encourage residents to use private driveways and garages, where possible.

Got a question or concern?

Visit the Belmont Fieldhouse and Library project website at calgary.ca/belmontfieldhouselibrary, or contact the project team via email at belmontfieldhouselibrary@calgary.ca.

Thank you for your patience while we complete this important work.
