

NOTICE OF INTENT

Special Tax Levy: Enhanced Landscape Maintenance

Attention homeowners: This letter is to advise property owners in McKenzie Lake that the McKenzie Lake Community Association wishes to continue with the Special Tax Levy for 2026 to support the community's Snow Removal and Ice Control (SNIC) Program. More information about the City of Calgary's Snow and Ice Control program can be found at [Snow and Ice Control FAQ \(calgary.ca\)](https://calgary.ca/snic).

For 2026, the Special Tax Levy will be **\$5.41 per year** and will be added to your 2026 property tax bill. For comparison purposes, the 2025 Special Tax Levy was \$5.15 per year. This is an annual cost, and all funds collected go directly back to your community and the SNIC Program.

Led by the McKenzie Lake Community Association, the SNIC program is a community initiative that provides a higher level of snow removal and ice control than what the City of Calgary provides. The Association is responsible for setting the Special Tax Levy rate, as well as managing the delivery of this program. The SNIC program provides the snow removal for pathways in the community that would otherwise not be cleared in McKenzie Lake. These enhancements are not possible without the Special Tax Levy.

For further information on specific enhancements included in the Special Tax, or to become involved in this initiative, please contact the McKenzie Lake Community Association representative via e-mail at Manager@mckenzielakecommunity.com.

This Special Tax Levy was established in 2007, at the request of the McKenzie Lake Community Association, after completing a successful community wide petition acquiring the support of two-thirds (66.7%) of property owners who wanted to invest in their community. This community investment contributes to your community's pathways, along with positively impacting the image and economy of Calgary. As a property owner who is part of the Special Tax Levy in McKenzie Lake, you can initiate a petition to discontinue the levy. To review the petition process, please visit [How to participate in the Enhanced Landscape Maintenance Program \(calgary.ca\)](https://calgary.ca/snic).

For more information on the Special Tax Levy, please contact Community Parks Initiatives by email at ParksSTL@calgary.ca or by calling 311. Please note, The City of Calgary does not collect signatures or participate in the petition process, it only provides general information, petition packages, and validation of a petition.

Parks Special Tax Levy Homeowner's Assistance Pilot Program

The City of Calgary is piloting a program to help low-income homeowners offset the 2026 Parks Special Tax Levy. This levy funds enhanced landscape maintenance and snow and ice control in community public spaces. The program is available to homeowners who:

- are listed on the property land title, and
- are approved through the City's Fair Entry program.

Fair Entry is the City's application process that provides eligible low-income residents with access to certain programs and services at a reduced cost. Eligibility is based on residency, income, and in some cases, age.

If you are already registered with Fair Entry:

Email ParksSTL@calgary.ca for instructions on how to apply for the Parks Special Tax Levy subsidy.

If you are not currently registered with Fair Entry, there is still time to apply. To be considered for this pilot program:

- Submit your Fair Entry application by **November 10, 2025**.
- Once approved, email ParksSTL@calgary.ca to request the Parks Special Tax Levy subsidy application form.
- Submit your completed subsidy application and consent form by **November 30, 2025**.

Your truly,

Allison Fifield
Community Parks Initiatives Lead
