Name of company that will be installing the services: \_\_\_\_\_

### Supporting Document Checklist:

Submit project drawing(s) showing the estimated locations of the utility tie-ins and planned excavations marked on all Road Right-Of-Ways bordering the project address. Digital drawing preferred.

## Acknowledgements:

I acknowledge that this Permission-To-Permit (P2P) represents the pre-payment of applicable Pavement Degradation and Top Lift Paving fees at the indicated Project Address for asphalt excavation within the Road Right-of-Way.

I understand that this P2P is a pre-payment service only and does not authorize the applicant to excavate within the Road Right-Of-Way. Excavation Permits must be obtained separately.

I understand that if asphalt excavation at the Project Address exceeds the size range (m<sup>2</sup>) that was applied for, or exceeds the Top Lift Paving area requirements, the P2P prepaid rates will not be applicable. Instead, the Pavement Degradation and Top Lift Paving fees for the excavation permits at the Project Address will be determined based on the actual cut measurements and the current Excavation Permit Rates schedule. The adjusted excavation permit fees will be charged to the applicable excavation permit applicant at the indicated Project Address.

I acknowledge that this P2P is for planned work to install underground services to the Project Address, which is being developed or re-developed under the conditions of valid City of Calgary Development and Building Permits.

I hereby certify that the above information is true, accurate and complete as to the best of my knowledge, and that I have read and understand all Acknowledgments.
