

## Inglewood/Ramsay City Projects Update – December 2019

### 8 Street S.E. Closure Update

**Reminder:** On Jan. 15, we will be closing 8 Street S.E. at the crossing with Canadian Pacific Railway (CP) (south of 9 Avenue S.E.). The closure will accommodate CP's reconfiguration and operations. The City is implementing the closure as part of the Green Line. To make this transition easier, we are working on some quick fixes in the area to improve the experience of moving between Ramsay and Inglewood, specifically small improvements to the pathway on the east side of the Elbow River. To stay informed on this closure, visit [calgary.ca/greenline](http://calgary.ca/greenline).

### Green Line – Project Update

Dec. 17, City Administration presented to the Green Line Committee a number of options considered in the Centre City re-evaluation and the overall review of Stage 1 to deliver the highest value project within the approved \$4.9 billion budget.

The Green Line Committee also received a presentation on the Guiding Principles for the Green Line Committee that will be discussed further at Council, and a presentation on the governance review from the Technical and Risk Committee for information.

After presenting some options that have been reviewed by the technical team to date, Committee supported a recommendation for a Council workshop in January to review and discuss trade-offs on various options. Additional engagement with stakeholders and the public will follow the January workshop with Councillors.

We will be returning to the Green Line committee with an updated Stage 1 alignment in March 2020. You can find the full meeting [here](#), under "Green Line Committee" in the next few days. For more information, visit [calgary.ca/greenline](http://calgary.ca/greenline).

### Calgary Transit Route Changes Update

Starting on Dec. 23, there will be changes to bus service in Inglewood. Route 411 – East Calgary, is retiring and will be replaced with Route 101 - Inglewood, which will serve Inglewood, East Village and downtown.

Route 302 – BRT Southeast, will be modified at 6 Avenue S.E. The new route alignment will provide better connections to downtown and to the LRT. Visit [calgarytransit.com/RouteChanges](http://calgarytransit.com/RouteChanges) for more details and to plan your route.

## **Inglewood Sanitary Trunk – Construction Update**

In early 2020, City crews will begin work on the last two sections of the Inglewood Sanitary Trunk which will be installed by microtunnelling and originating from 9 Street S.E. and Adelaide Street S.E. Work is expected to take four months, with some periods of 24-hour construction resulting in some light and noise. Every effort will be made to minimize the impact to residents in this area.

Construction of the final shaft, located at 8 Avenue S.E. and 9 Avenue S.E., has been delayed until March 2020 and will continue into the summer. For more information, please visit [calgary.ca/IST](http://calgary.ca/IST).
