

Inglewood/ Ramsay City Projects Update – December 2021

See below for important updates on projects in and near the Inglewood and Ramsay communities.

Progress on the 9 Avenue S.E. bridge.

9 Avenue S.E. Bridge Taking Shape

The 9 Avenue S.E. bridge replacement project achieved a major milestone in December 2021, with the main arches now installed and work progressing on the installation of bolts and hanger rods to secure the structure.

Construction will continue through the winter, with installation of all steel components expected to wrap by the end of 2021.

Starting in the new year, work will shift to completing concrete and asphalt work on the bridge deck to prepare for opening to vehicle traffic in early 2022, weather dependent.

The first arch being installed on the bridge.

Jack Long Park Redevelopment Update

With only a few minor tasks remaining, Jack Long Park is anticipated to open to the public by early 2022. The park, located directly west of the Alexandra Centre in Inglewood, has been undergoing redevelopment to improve the community green space. A small area will remain fenced off until the spring to ensure the grass has time to establish. An official park opening event is expected to take place in 2022.

If you have walked past the park in the evening recently, you likely noticed that the Inglewood Business Improvement Area (BIA) added some festive flare by decorating the guitar-shaped bike racks with lights. The lights will be removed prior to the park opening to the public. For more information about this project, visit [Calgary.ca/JackLongPark](https://calgary.ca/JackLongPark)

Inglewood BIA brightened up Jack Long Park's guitar-themed bike racks with holiday lights. The park is anticipated to open to the public in early 2022.
