

Inglewood/ Ramsay City Projects Update – September 2021

See below for important updates on projects in and near the Inglewood and Ramsay communities.

Share your feedback on community improvements around the future Ramsay-Inglewood LRT Station

We are looking to make community improvements to help support future Transit-Oriented Development near the future Ramsay-Inglewood LRT station.

Tell us how we can improve this area, increase activity options and mobility connections for current and future residents and businesses.

Share your thoughts online until September 19 at engage.calgary.ca/ramsay-inglewoodTOD.

New to the community – Ramsay Inclusive Playground!

Through a partnership with Parks Foundation, The City of Calgary, Variety Alberta and the Ramsay Community Association, a brand new inclusive playground located on the corner of Macdonald Avenue and Bellevue Avenue S.E. is now open!

An inclusive playground goes beyond minimum accessibility standards to provide an environment where children (and citizens) of all abilities and needs can interact. In an inclusive playground, children, families, and caretakers can play together in the same space, regardless of ability, needs, age, gender, culture, or race.

The new playground (see photo below) features two play spaces with inclusively designed play equipment, ample seating, fencing along the south side and unparalleled views of the city skyline!

Upcoming event at the new playground

A community level event with family friendly activities will happen on September 25 to celebrate the opening of the park from 1 p.m. to 4 p.m. We hope to see you there!

For more information, please visit <https://www.parksfdn.com/ramsay-inclusive-playground>.

Bike Lane Resurfacing – Project Update

Crews have completed milling and top lift paving of the roadway and bike lanes in the three project areas in downtown and Inglewood – including on 9 Avenue S.E. from 15 Street to 20 Street S.E. This work is helping to ensure cyclists continue to have a smooth ride along these routes.

While temporary road and bike lane markings are currently in place in the 9 Avenue S.E. project area, painting of permanent lane markings will be completed within the coming weeks, weather dependent. Temporary lane closures and lane shifts may be required to complete this work.

We thank you for your patience throughout this project. For more information, please visit calgary.ca/bikelaneresurfacing.

Jack Long Park – Project Update

The redevelopment of Jack Long Park is nearly complete. The City has made progress on this new cultural hub for the community in 2021 but has also experienced some delays due to contractor staffing issues. To maintain the high standard that the City requires, the contractor has hired experienced landscaping and concrete companies to complete the project.

The main components that are left to be completed are:

- Removal of the concrete pathway that did not meet industry standards
- Installation of a new concrete pathway embedded with both glass chips and glow stones (as designed)
- Completion of the concrete seat wall in the playground
- Installation of site furnishings, including custom elements like wood bench tops and the custom guitar shaped bike racks as showed in the photo below
- Completion of the playground
- Completion of the flagstone pathways and steppingstone features
- Final grading and sodding

While we have had some setbacks, Jack Long Park is still considered a high priority. To ensure the safety of the public, the site security fence will remain in place until the re-opening. The park is anticipated to be completed by **late fall 2021**.

For more information, please visit calgary.ca/jacklongpark.

New look for Green Line LRT project

Visit our website and update your newsletter preferences

With the alignment of our funding partners and the Green Line LRT project moving forward, the project is excited to launch our newly designed website at calgary.ca/greenline.

The site features updated information on the project history and procurement, as well as information for businesses and future riders. It also has details on the economic, community and city-shaping benefits of Green Line, and up-to-date construction notices to keep you moving.

Customize your Green Line news

We have updated our **Privacy Policy** and **subscriber preferences**. Please click on the link below to update your information so the Green Line team can tailor your news to better match your interests and geographic area.
