

Deerfoot Trail Study Short-term recommendations

McKnight Boulevard N.E. to 64 Avenue N.E. northbound ramp connection

- ✓ Improves safety by providing more space and time to merge from McKnight Boulevard N.E. and onto 64 Avenue N.E.
- ✓ Provides a dedicated lane to connect the McKnight Boulevard N.E. on-ramp with the 64 Avenue N.E. off-ramp
- ✓ Reduces congestion and improves travel times
- ✗ Does not eliminate weaving and congestion entirely, as reduced speeds are still required to enter and exit Deerfoot Trail
