# Study Information

## Where?

- Métis Trail (formerly 44 Street NE) between 80 Avenue NE and Stoney Trail NE.

## What?

- A study to develop a long term plan for the Métis Trail Corridor between 80 Avenue NE and Stoney Trail NE.
- Métis Trail is the transportation spine of the Northeast Calgary Region.
- It is classified as an Expressway/Freeway in the City of Calgary Transportation System Bylaw.

## How?

- Identify roadway alignment and interchange details based on a review of environmental, geotechnical, drainage, and forecasted traffic requirements.
- Analyze current traffic patterns and future traffic projections.

## Why?

- The purpose of this study was to establish the alignment, functional layout and right-of-way requirements for the roadway.

## When?

- June 2006            Project Initiation
- October 2006       Information Session
- November 2006    Open House
- December 2006    Study Completion

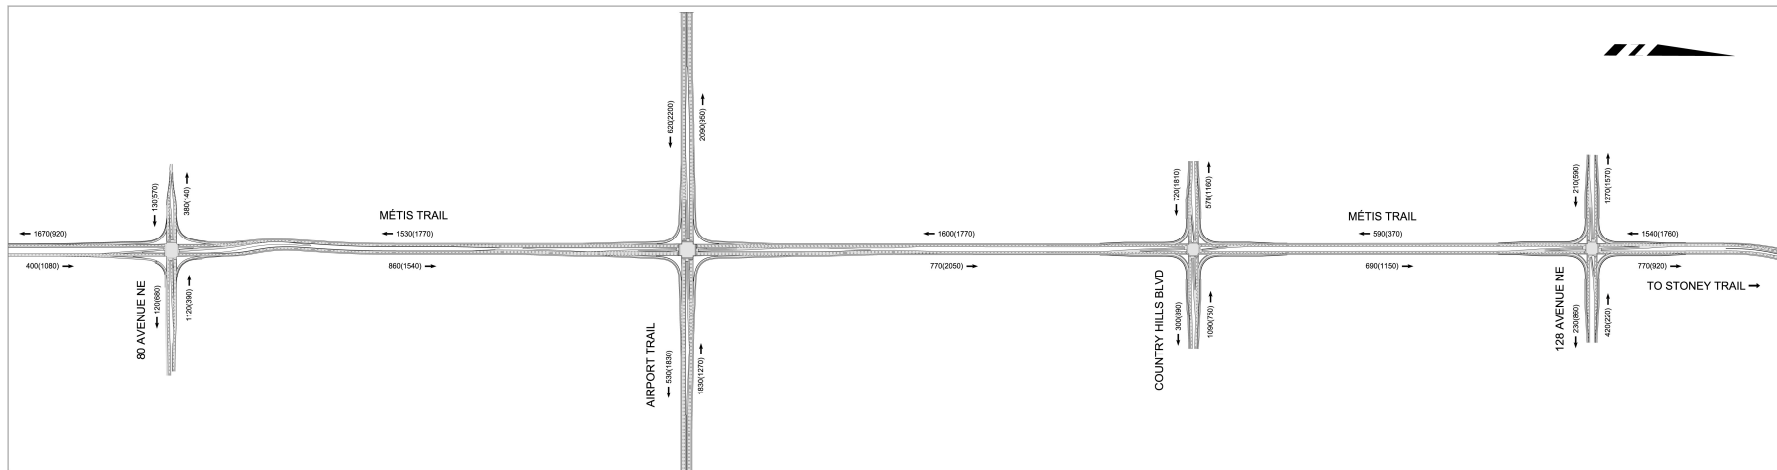

## Who?

- The City of Calgary Transportation Planning, Earth Tech (Canada) Inc., and Area Developers.
