

**Green Buildings Priority Stream
Entry Pathway #3:
Net Zero Home Label**

- A. Available to buildings seeking to meet or exceed the performance requirements of the Net Zero Home Label Program managed by the Canadian Home Builders' Association (CHBA).
- B. Eligible projects must provide the following information when submitting a Development Permit application:
 - i. A list of key anticipated energy conservation measures.
 - ii. Letters from a Qualified Net Zero Service Organization and Qualified Net Zero Energy Advisor attesting the proposed development is being designed to meet the performance requirements of the Net Zero Home Label Program.
 - iii. (If available) a **preliminary energy model**, prepared by a Qualified Net Zero Energy Advisor.
- C. Visit the [CHBA website](#) to learn more about the Net Zero Home Labeling Program.
- D. For additional information about this entry program pathway, please contact greenbuildings@calgary.ca.
