

**Green Buildings Priority Stream
Entry Pathway #4:
Net Zero Ready Home Label**

- A. Available to buildings seeking to meet or exceed the performance requirements of the Net Zero Ready Home Label Program managed by the Canadian Home Builders' Association (CHBA).
- B. Eligible projects must provide the following information when submitting a Development Permit application:
 - i. A list of key anticipated energy conservation measures.
 - ii. Letters from a Qualified Net Zero Service Organization and Qualified Net Zero Energy Advisor attesting the proposed development is being designed to meet the performance requirements of the Net Zero Ready Home Label Program.
 - iii. A **preliminary energy model**, prepared by a Qualified Net Zero Energy Advisor.
- C. Visit the [CHBA website](#) for more information about the Net Zero Home Labeling Program.
