

Water Main Replacement 9 Avenue S.E.

September 2023

Background

The City needs to replace the existing water main on 9 Avenue S.E. between 12 Street and 13 Street S.E. due to its age and condition. We will also be installing a new section of watermain in the intersection of 9 Avenue and 12 Street S.E.

Temporary Water Service

During construction, some residents and businesses will be provided a temporary water supply, and access to your property will be required. Before construction starts, a representative from North Star Contracting Inc. will request entry to your property.

Please note that internal fire suppression systems will not work if a building is being supplied by temporary water services.

Should it be necessary to disrupt water service, all affected customers will receive notice at least a day in advance and service will be returned within 10-12 hours.

Schedule

We heard from businesses how important certainty of start dates is for this work, and we want to confirm that project work will start **the week of September 18, 2023**.

You may see additional activity in the area **the week of September 13, 2023**, as crews begin to mobilize and set up pipes for the temporary water service. As a reminder to businesses with a patio, the permit for patios expires on September 18, 2023.

Excavation and pipe installation is anticipated to start on **September 22, 2023**, beginning in the intersection of 9 Avenue and 12 Street S.E. Construction will then move eastbound along 9 Avenue and take approximately **three weeks to complete**.

Before construction starts, North Star Contracting Inc. will be contacting business and property owners to connect a temporary water service.

Traffic Detours and Parking Impacts

- 13 Street S.E. between 8 Avenue S.E. and 9 Avenue S.E. will be closed starting **September 18, 2023**, for materials staging.
- 9 Avenue westbound lanes will be closed between 12 and 13 Street S.E. beginning **September 20, 2023**.
- Traffic will be reduced to one lane in each direction between 12 and 13 Street S.E. for the project duration.
- There will be no on-street parking on the north or south side of 9 Avenue between 12 and 13 Street S.E.
- Driveway access to 9 Avenue S.E. will be closed. Alley access for parking lots and businesses will be maintained.
- Pedestrian and businesses access will be maintained while crews are working.
- The intersection of 9 Avenue and 12 Street S.E. will be partially closed from **Friday, September 22 at 9 p.m. to Tuesday, September 24 at 5 a.m.** while crews work in the two westbound lanes of 9 Avenue.

Construction Impacts

Crews will be working on the north, westbound lanes of 9 Avenue between 12 and 13 Street S.E. as well as 13 Street between 9 Avenue and the alley.

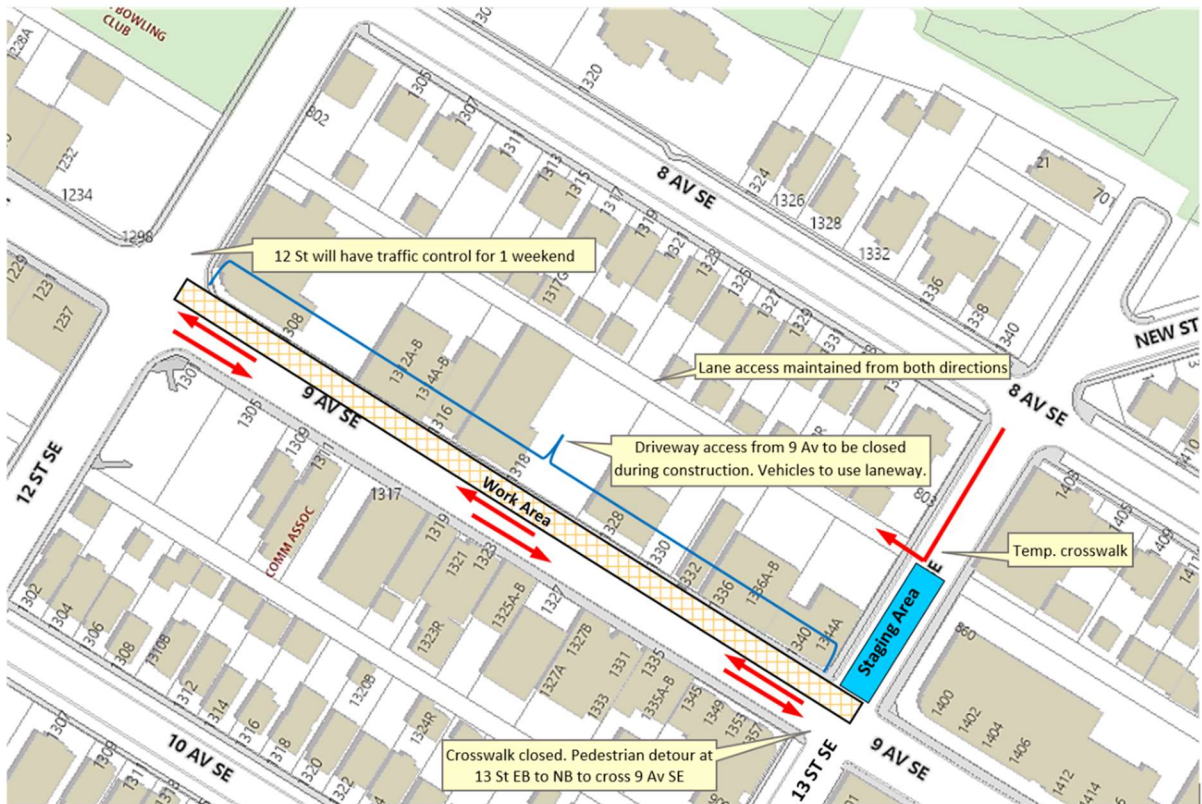

Other construction impacts include:

- Vibrations due to compaction.
- Additional traffic and congestion.
- Regular work hours will be 7 a.m. to 7 p.m. Monday to Saturday.
- If sidewalks, curbs, and gutters need to be removed, they will be repaired to original or better condition.
