Calgary

A boil water advisory has been issued, effective immediately.

All residents and businesses are advised to bring all tap water to a rolling boil for one full minute prior to any consumption, including:

- Drinking, including coffee and tea
- Cooking
- Brushing teeth
- Cleaning raw foods
- Preparing infant formula or juices
- Making ice, etc.

In-home water filters are not sufficient and water in them must still be boiled before use.

For businesses:

Food Service Establishments, Care Providers and Personal Service facilities should contact Environmental Public Health at 1-833-476-4743 for direction.

When cleaning:

- If you are not using a dishwasher, water used for dishes or cleaning surfaces should be boiled.
- Water used for bathing and laundry does not require boiling.

For **health-related questions and additional information about boil water procedures** please contact Health Link at 811.

For updates please call 311 or visit **calgary.ca/boilwateradvisory.**
