

WATER RESOURCES 2018 STANDARD SPECIFICATIONS FOR SEWER CONSTRUCTION

Water Resources is pleased to release the 2018 Standard Specifications for Sewer Construction.

The Specifications are effective as of June 5, 2018, and are available on the Water development resources website at: <http://www.calgary.ca/UEP/Water/Pages/Specifications/Specifications.aspx>

Should there be any updates to the Specifications throughout the year, the updates will be communicated via the Water Industry Bulletin process.

Questions or clarification pertaining to the Specifications should be addressed to May Cayanan at may.cayanan@calgary.ca.
