Service Record - Sediment and Oil Interceptor

E 2227 (R2026-01)

A written record of all maintenance, cleanings, and inspections of your interceptor must be kept on file for two years. This form and other important information can be found at calgary.ca/IMG

Business Name: _____ Business Address: _____

*Sludge/sediment depth should be measured before each cleaning and during inspections. If the sludge depth in the final chamber exceeds 25% of the total water depth, cleaning frequency should be increased

Maximum Depth of Sludge = 0.25 x Depth of Water = 0.25 x _____ = _____ **inches**

Scan this QR code to download a blank copy of this form.

Date of Inspection (YYYY-MM-DD)	Sludge Depth* (inches)	Activity Completed (e.g. inspection, cleaning, repair)	Name of person or company completing the activity	Notes (e.g. details of activity completed, interceptor condition, etc.)	Waste Disposal Location (if applicable)

The personal information collected through this form is collected under the authority of section 4(c) of the *Protection of Privacy Act* for the purpose of administering the Wastewater Bylaw Compliance Program. This information may be input into an automated system to generate content and make recommendations. For questions about this collection of personal information, please contact an Industrial Wastewater Compliance Inspector by email at **IMG@calgary.ca**.
