

Glacier Ridge West Basin Sanitary Sewer Project

October 2021

The City of Calgary would like to inform you about important water works upcoming in your area.

Project background

The Glacier Ridge West Sanitary Trunk project will accommodate growth in the Glacier Ridge development area and allow us to provide high-quality sanitary service to its future residents.

Construction on the sanitary trunk will commence the week of October 18, 2021 with installation along 144 AVE. NW. This portion will be completed the week of November 22, 2021. The installation will then continue north onto developer-owned land with minimal impact to the citizens in this area.

Construction impacts and Timeline

- Construction on 144 AV NW will commence the week of October 18 through to the week of November 22, 2021
- A full road closure will be in effect on 144 AVE. NW between Sage Valley DR NW and Sage Valley RD NW from **October 25 to October 30**.
- Traffic will be detoured around the work area, via Sage Hill DR NW – Sage Hill Valley Blvd NW – Shaganappi TR NW, except for local traffic (please see Figure 1 below)
- There will be a single lane closure on westbound 144 AV NW, from October 31 through to the week of November 22, 2021, with split two-way traffic on the eastbound lanes
- Variable Messaging Boards (digital boards)

have been placed along 144 AV NW informing road users of the upcoming work

- The sanitary sewer installation will continue on developer-owned property until July 31, 2022

We apologize for the inconvenience the work will cause and thank you for your patience and support.

Please note: Timelines could change due to health and safety conditions on site, weather, underground conditions and/or other unexpected circumstances.

Work during the COVID-19 Pandemic

The City of Calgary continues to treat, test and deliver high-quality water to Calgarians during the COVID-19 pandemic. While we prioritize the delivery of essential services, our capital construction programs are moving forward where possible. These projects are critical to supporting current and future development. We're working closely with our partners and will continue to monitor the current situation, making adjustments as needed.

Our most important priority remains the health, safety and well-being of citizens, staff and contractors. We continue to put in place new measures and protocols to ensure public health is protected.

Project information

For questions on the project, please contact 311 and reference the Glacier Ridge West Basin Sanitary Sewer Project.
