

# Your business guide to outdoor water restrictions

There may be times when we need all Calgarians to temporarily reduce their non-essential outdoor water use, such as when:

- Less water is available in the rivers, due to drought.
- Water demand is high due to hot temperatures and is straining the capacity of our water treatment plants.
- We're repairing or upgrading our water system infrastructure.
- River water quality is poor, like during a flood, and it takes longer to treat.

## Take action when outdoor water restrictions are declared

Restrictions apply to all Calgary residences, businesses, organizations and City operations.

### 1. Find out what water restriction stage is in place.

Outdoor water restrictions will be announced through local news, social media and on [calgary.ca/restrictions](http://calgary.ca/restrictions)

### 2. Understand how and when you can use water outdoors.

Please refer to the table on the back to understand what mandatory actions to take.

### 3. Restrictions may change. Stay informed.

We're constantly monitoring conditions and our city's water usage to determine the necessary water restriction stage.

## Outdoor water restriction stages

	Stage 1	Stage 2
<b>Sprinkler and irrigation systems with an automatic shut off</b>	 2 hrs/week	 1 hr/week
	<b>Even building number</b> – Either Tuesday <b>or</b> Saturday <b>Odd building number</b> – Either Wednesday <b>or</b> Sunday Water between – 7 p.m. – 10 a.m.	
<b>Watering newly planted grass, trees and shrubs</b> <ul style="list-style-type: none"> <li>• Sod laid within 21 days</li> <li>• Seed sown within 45 days</li> <li>• Trees and shrubs less than 5 years old</li> </ul>	 Any day/time Any watering method	 Any day/time Any watering method
<b>Certified water managed sites</b>	 Tier One sites: Reduce watering by 10% Tier Two sites: Reduce watering by 15%	 Tier One sites: Reduce watering by 20% Tier Two sites: Reduce watering by 25%
