

Pool Drain Request Form	Owner: Monitoring & Compliance
M&C FORM 025.00	Water Quality Services
Revision Date: 20210914 Revision # 2.0.0	Controlled Document

Pool Draining Procedure:

Anyone using a pump, or a siphon with an inside diameter greater than 1.5 inches, to drain a pool greater than 3000 Litres to the Wastewater System, must notify The City of Calgary's Industrial Monitoring Group (IMG). If the discharge rate can be maintained under 150 L/min, IMG will process your request within five business days. If the proposed discharge rate exceeds 150 L/min, IMG requires a minimum of ten business days, in order to assess the reported water quality and liaise with both the Development Planning Department, and the receiving Wastewater Treatment Plant. If sufficient notice is not provided, the proposed discharge may have to be delayed. All discharges must comply with the [Wastewater Bylaw](#). Please provide the following information.

SECTION 1: GENERAL INFORMATION

Facility Name:

Facility Address:

Principal Contact Information

Name:

Position:

Phone Number:

Email:

Proposed Date (M/DD/YYYY) and Time of Discharge: (HH:MM):

Estimated Duration of Discharge:

Total Volume (In litres or cubic meters):

Discharge Rate will be maintained at less than or equal to 150 L/min Yes No

If greater than 150 L/min, what is the proposed discharge rate (L/min)?

Proposed Discharge Location:

Drain inside facility Sanitary manhole outside facility Other

SECTION 2: WATER QUALITY INFORMATION (in mg/L or ppm)

Parameter	Bylaw Limit	Actual	Exceeds Bylaw Limit?	
pH	Between 5.5 and 10		Yes	No
Temperature (in °C)	<75°C		Yes	No
Total Chlorine	5 mg/L		Yes	No
Free Chlorine	N/A			
Salt	N/A			

Other Additives: (e.g. algicide, algastat, cyanuric acid)	
--	--

To ensure prompt review send the above mentioned information to the following e-mail address: img@calgary.ca. This information is required to avoid potential Wastewater Treatment Plant upsets, and possible overloading of the collection system which can lead to sewer back-ups. Thank you for your cooperation.

***** Pool Discharges should not take place during a wet weather event, except in the case of an emergency. *****

If you are planning other maintenance that involves a potential discharge (e.g. boilers or heating/cooling loops), please inquire with the Industrial Monitoring Group for more information by calling 311.
