**Industrial Permit Application Requirements**

Effective November 1, 2012, a permit application form is required for all Industrial Waste Disposal new permits or renewals. Please note that analysis and/or MSDS sheets are required for most permit applications and a visual inspection and/or site audit may be required.

The following analytical parameters may be requested prior to the permit being issued. The number of samples to be taken is to be determined by industry standards. Please direct any questions to the Waste and Recycling Services (WRS) Environmental Control Technologists.

- pH
- TCLP BTEX
- TCLP metals plus mercury
- TPH F1-F4
- Phenol
- Flashpoint (not required for carwash)

Analytical results must be prepared by a third party accredited lab and must be less than 12 months old.

Please contact one of the WRS Environmental Control Technologists at 403-268-8440 or [industrialpermits@calgary.ca](mailto:industrialpermits@calgary.ca) with the required information in order to have a permit generated.

The Industrial Waste Disposal Permit must accompany the hauler to the landfill or the load will be rejected.
