

# Safe and dependable public transit

## About Calgary Transit

**217**  
Light Rail

**1106**  
Vehicles

**118 km**  
buses of track

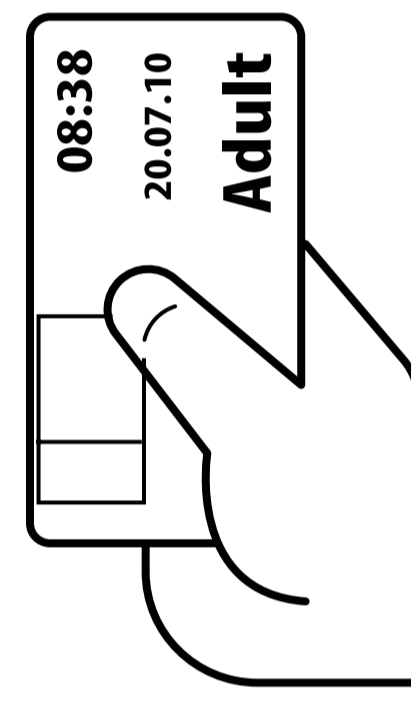

The City is committed to building a world-class transit system with **fast, frequent** and **reliable** transit service.

## The Ask

The City is seeking investment in **critical transit projects**.

- **Greening** our fleet
- Expanding the **MAX network**
- Expanding the **rail line network**
- Connections to the **airport**

## Low Income Transit Pass

Many Canadians have felt the impact of inflation. The City's **Low Income Transit Pass** is an important support for Calgarians with low income.

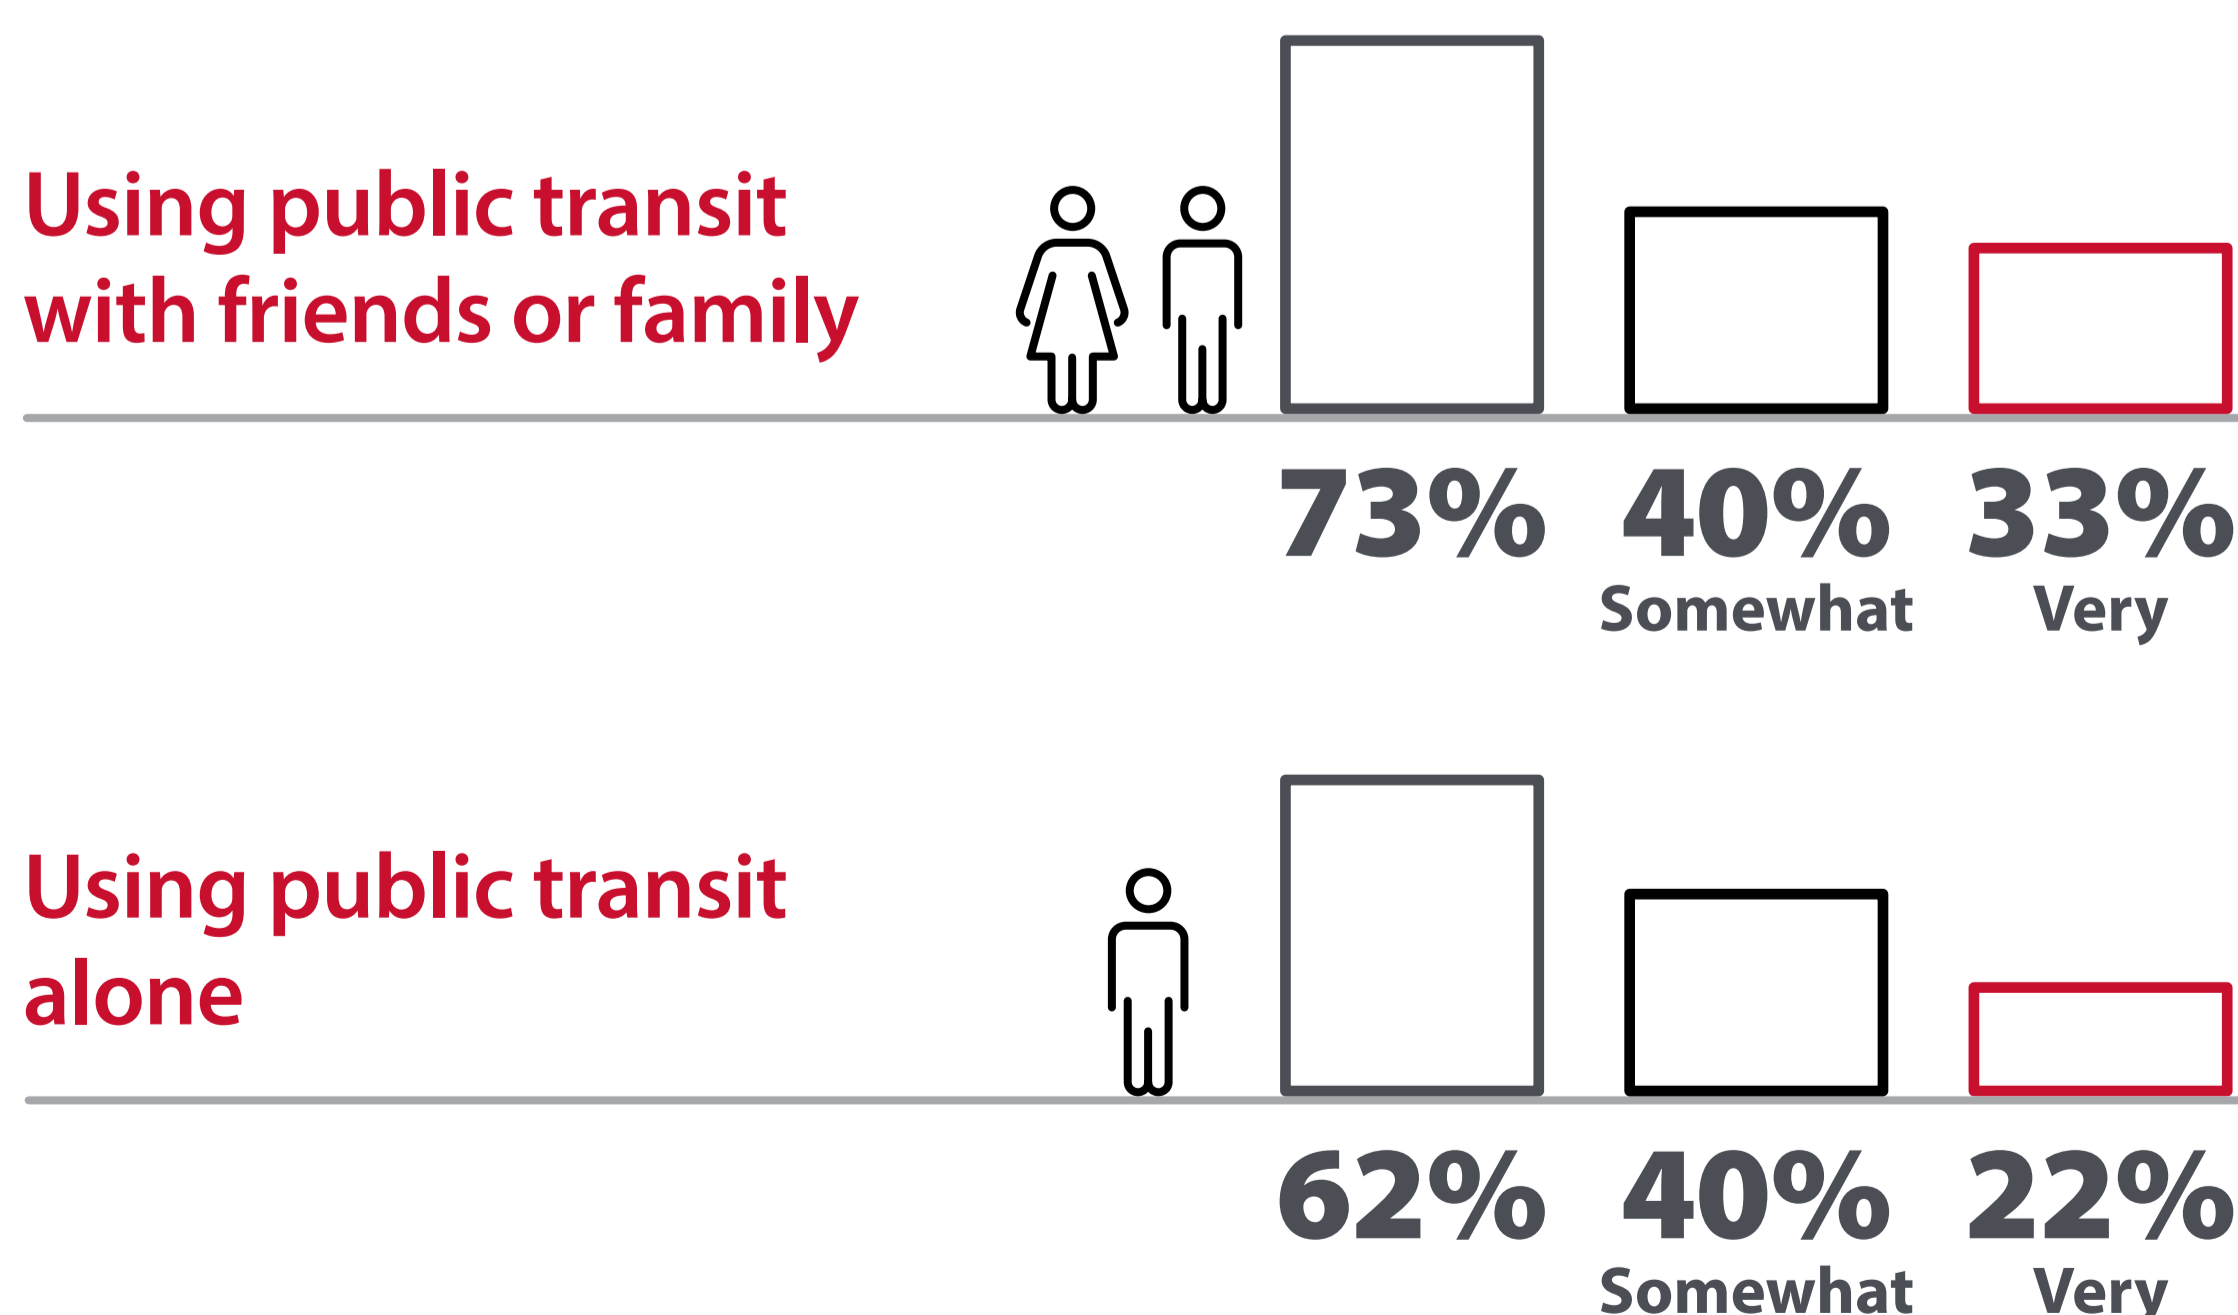

## Transit Safety in Canada<sup>1</sup>

**Across Canada**, there has been a **significant increase in transit violence** over the past year.

**27%**

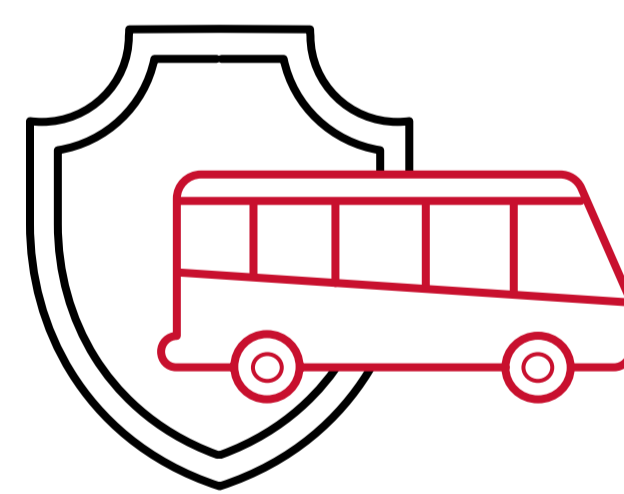

Over a quarter of Canadians **do not feel safe** taking public transit alone.

Although **the majority of Canadians report feeling safe when using public transit**, more Canadians say they feel safer riding with friends or family than when they do so alone.

## Low Income Transit Passes help Calgarians to:

- **Maintain social supports** through family and friends.
- Arrive on-time to **medical and other appointments**.
- **Look for work**.
- **Save money**.
- **Use Calgary Transit** more.

Providing Calgarians with a **safe Transit service** experience is a top priority.<sup>2</sup>

**76%**

**Three quarters** of Calgarians agree **concern for their personal safety** is or would be a consideration when deciding whether or not to take public transit.

**75%**

**Three quarters** of Calgarians do or would feel safe riding a **CTrain alone during the day**.

**47%**

**Just less than one-half** of Calgarians do or would feel safe riding a **CTrain alone after dark**.

**86%**

**The majority** of Calgarians do or would feel safe riding a **Calgary Transit bus alone during the day**.
