REPORT NOTES

Most of the statistical data in this report are derived from the Police Information Management System (PIMS) and compiled by the Centralized Analysis Section. The numbers reported may change on a daily basis due to the dynamic nature of offences being reported and cleared. Disorder data is derived from the CAD system and is static.

To a large extent, the data in this report are based on accumulated to date information. **(Except for the Monthly Highlights which are based on static information (i.e.: a snap-shot in time)).**

- For offences based on accumulated to date information, the number of offences recorded may be higher than previously reported (i.e. in previous statistical reports) due to late reporting. Although this does not greatly affect the number of occurrences for all offences, for some categories it may be as high as a 30-40% increase. The published data for the current period can therefore be expected to increase as time passes. As a result, readers should exercise caution when making comparisons between historical data and current data (i.e. previous year to this year) as data for the historic period will now include late reported offences, but data for the current period will not at this time. To achieve an effective comparison, current data should be evaluated against the originally published data for the historic period.
- Likewise, late reporting affects the number and percentage of offences cleared. Cases are often cleared months and sometimes years later. Consequently, clearances for previous years may appear to be much higher than those of the present year. Cases “cleared by charge” and those “cleared otherwise” are included in these totals.
- For offences based on “static” or “snap-shot” information, data totals will only reflect the number of offences reported in the original publication. They are not updated. Although late reporting may occur, and offences may continue to be cleared as time passes, these new events are not taken into account when preparing this statistical report.

A single incident may result in multiple offences, with each unique *Criminal Code* violation within the incident being counted as an offence. Furthermore, person crime offences are typically counted by the number of victims. Please note that offences are assigned to the month in which the offence "started", not the month they were reported or cleared. Also note that “attempted” incidents are included in these totals. For a more detailed explanation of the Offence counting procedure, please contact the Centralized Analysis Section.

Monthly Highlights – STATIC NUMBER COMPARISON

To reduce the impact of late reporting, comments on this page are a comparison between the current month's data and the originally published data from the same month of last year.

AUGUST 2012

PERSON CRIME

- ◆ Reported **person crimes** for the month of August 2012 increased 3.3% when compared to August 2011 (588 offences in August 2012 vs. 569 in August 2011). However, person crimes remained below the five year average for August by 8.2%.
- ◆ Total **robbery** offences for the month of August 2012 decreased 25.7% when compared to August 2011 (55 offences in August 2012 vs. 74 in August 2011); During August 2012 there were:
 - 1 **financial robbery** (compared to 4 in August 2011);
 - 6 **commercial robberies** (compared to 8 in August 2011); and
 - 2 **home invasions** (compared to 2 in August 2011).
- ◆ **Assaults** increased 7.1% this month (425 offences in August 2012 vs. 397 in August 2011).
- ◆ **Sex offences** increased 4.6% this month (68 **sex offences** in August 2012 compared to 65 in August 2011).

PROPERTY CRIME

- ◆ Reported **property crimes** this month decreased 12.4% when compared to August 2011 (3431 offences in August 2012 compared to 3915 in August 2011). Property crimes were also well below the five year average by 15.3%.
- ◆ **Vehicle theft** (including attempts) decreased 2.2% this month when compared to August 2011 (361 offences in August 2012 vs. 369 in August 2011).
- ◆ **Theft** offences decreased 11.6% this month when compared to August 2011 (1809 offences in August 2012 vs. 2046 in August 2011).
- ◆ **Break and enter** offences this month decreased 20.9% when compared to August 2011 (504 offences this month compared to 637 in August 2011).
 - **Residential break and enter** offences this month decreased 8.7% when compared to August 2011 (284 offences in August 2012 vs. 311 in August 2011); and
 - **Commercial break and enter** offences decreased 44.8% this month when compared to August 2011 (132 offences in August 2012 vs. 239 in August 2011).
- ◆ **Fraud related** offences decreased 12.6% this month (118 offences in August 2012 vs. 135 in August 2011).

DISORDER

- ◆ August 2012 represents a marked improvement compared to August 2011 with 571 fewer incidents recorded (8157 incidents in August 2012 compared to 8728 in August 2011). Disorder incidents were also 3.6% below the five year average for August.
- ◆ All physical disorder incidents (abandoned auto, fire and property damage) decreased this month with an overall decrease of 12.7% (826 incidents in August 2012 vs. 946 in August 2011). **Property damage** incidents decreased this month by 14.9%, **fire** incidents recorded a 17.9% decrease, and **abandoned auto** incidents decreased 3.6% compared to August 2011.
- ◆ Social disorder incidents decreased 5.8% when compared to August 2011 (7331 incidents in August 2012 vs. 7782 in August 2011). **Suspicious auto** incidents decreased this month by 14.2% (682 incidents in August 2012 compared to 795 in August 2011). **Prowler** incidents increased 43.5% this month (66 incidents in August 2012 compared to 46 in August 2011). Indecent acts also increased this month by 36.1% (83 incidents in August 2012 vs. 61 in August 2011).

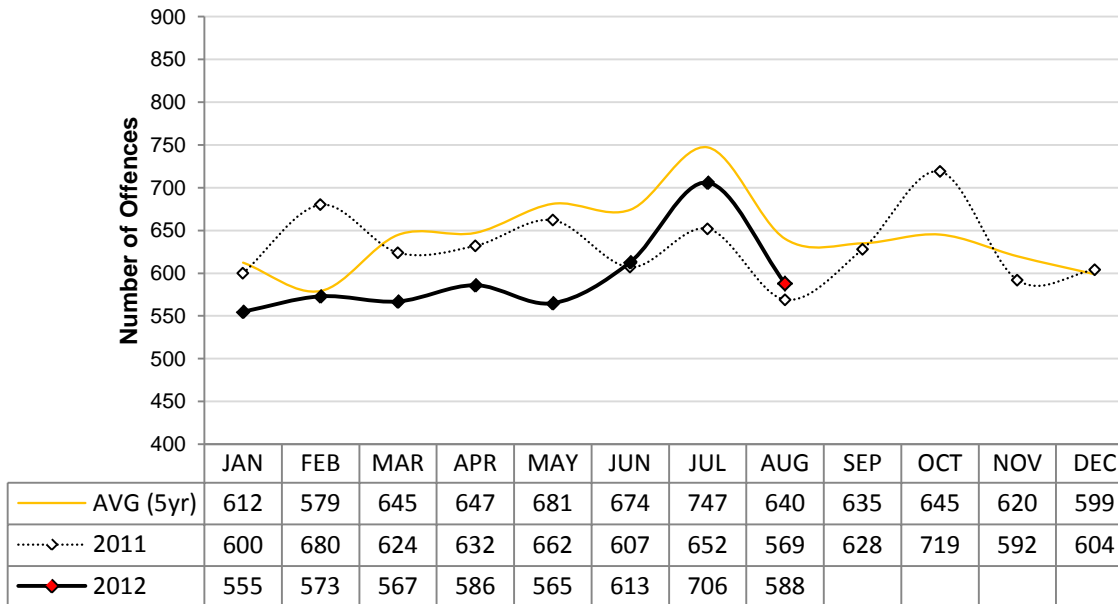

Calgary Person Crime Statistics – STATIC NUMBERS

The static crime numbers on this page are derived from historical Calgary Police Service Monthly Statistical Reports. These statistics are used when writing the Monthly Highlights page in order to make a fair comparison using data which has not been allowed to increase due to late reporting of crime. Using static numbers allows us to compare crime levels at a specific point in time and make an accurate determination of increases or decreases. The cumulative crime numbers (pages 7 – 10) are statistics derived from the CPS Police Information Management System. P.I.M.S. cannot produce static numbers and therefore the cumulative numbers reflect any late reporting of crime. To achieve an effective comparison, current data should be evaluated against the originally published data for the historic period. *Due to the dynamic nature of ongoing homicide investigations these numbers may have been manually updated to reflect the current homicide count. Due to manually updating, it's possible 1 or more homicides may be reflected within the assault category. The homicide counts are provided by the homicide unit.

Calgary Disorder Statistics – CALLS FOR SERVICE

In addition to monitoring crime levels, the Calgary Police Service uses a range of incident types to record levels of "Social & Physical Disorder". The incident types selected for this disorder index are those which can have a negative impact on citizens' quality of life and perception of safety, particularly in public places. These incidents do not tend to be represented well in "traditional" crime statistics which have a propensity to focus more on person and property crime.

**Public Generated Disorder Calls for Service
YTD Jan 01 to Aug 31 2012**

***Data Notes:**

- 1) Dispatched, Advised, Call Back and Web Calls are included.
- 2) 141 calls in current month were reported at district front counters (walkins) and are excluded from this dataset.
- 3) Current Month: In addition to the 8,157 public generated calls, officers proactively generated 1,948 calls (these are not included in this report).
- 4) *The majority of Property Damage calls result in criminal code reports which are counted under Other Property Crimes in this report.

Calgary Traffic Collisions – CUMULATIVE NUMBERS

AUGUST 2012

	Current Month # of Collisions			Year To Date # of Collisions			Year To Date Rates (per 100,000 population)		
	2010	2011	2012	2010	2011	2012	2010	2011	2012
Fatal Collisions	3	2	4	15	11	24	1.1	0.8	1.8
Injury Collisions	203	233	206	1,577	1,599	1,675	1.4	1.0	2.1
Property Damage Collisions	3,189	2,779	2,589	27,763	26,102	23,499	147.2	146.6	149.5
E-Collision Reports*	10	23	179	235	145	688	2591.0	2392.6	2097.7
Total Collisions	3,395	3,037	2,978	29,355	27,857	25,886	-	13.3	61.4
<i>Parking Lot Collisions</i>	898	637	583	8,261	6,044	5,109	2739.6	2553.5	2310.8
Total Reportable Collisions	2,497	2,400	2,395	21,094	21,813	20,777	771.0	554.0	456.1

NOTE: Total Reportable Collisions exclude collisions along private roadways or public parking lots.

The number of reported traffic collisions may continue to increase over time. Due to data collection and reporting methods, totals for the current month may not be comparable to previous years.

* E-Collision reporting is a new data system which became operational in July 2009. At the time of printing this report it was not possible to separate collisions based on level of severity or to determine whether they occurred in a parking lot. Therefore, as E-Collision reports are completed and entered into the records management system, the determination of whether or not they are reportable is made, and such, they are removed from the E-Collision total and reclassified based on level of severity.

Top Collision Locations and Cause of Events

Number of Collisions	Location	Primary Cause of Event	Primary Direction of Travel
27	Deerfoot TR NE & 16 AV NE	Rear End	West
15	Deerfoot TR NE & Memorial DR E	Rear End	East
14	Blackfoot TR SE & Glenmore TR SE	Rear End	East
14	Deerfoot TR NE & 32 AV NE	Rear End	North
13	Crowchild TR NW & Kensington RD NW	Rear End	South
13	Deerfoot TR SE & Glenmore TR SE	Rear End	East
10	Crowchild TR NW & 5 AV NW	Rear End	South
10	Crowchild TR SW & Glenmore TR SW	Rear End	South & West
9	Deerfoot TR SE & 17 AV SE	Rear End	North
9	14 ST NW & 16 AV NW	Rear End	East

When interpreting this data, it is imperative to consider that these figures represent only the number of collisions and they do not account for associated traffic volumes, weather conditions, types of collisions, driver experience, or any other variables which may or may not be significant factors. The locations denoted might be associated with intersections, on/off ramps, or mid-block locations, which are close but not necessarily at the exact specified locations. Collisions occurring on private properties, such as shopping mall parking lots have been excluded from the data in order to strictly assess intersection related collisions.

NOTE: This table excludes reports made through the E-Collision reporting system.
